Named one of the best nonfiction books of 2023 by Publishers Weekly There is a familiar narrative about American suburbs after 1945 white residents left cities for leafy affluent subdivisions and the prosperity they seemed to embody In Levittown's Shadow tells us there's more to this story offering an eye-opening account of diverse poor residents living and working in those same neighborhoods Tim Keogh shows how public policies produced both suburban plenty and deprivation and why ignoring suburban poverty doomed efforts to reduce inequality Keogh focuses on the suburbs of Long Island home to Levittown often considered the archetypal suburb Here military contracts subsidized well-paid employment welding airplanes or filing paperwork while weak labor laws impoverished suburbanites who mowed lawns built houses scrubbed kitchen floors and stocked supermarket shelves Federal mortgage programs helped some families buy orderly single-family homes and enter the middle class but also underwrote landlord efforts to cram poor families into suburban attics basements and sheds Keogh explores how policymakers ignored suburban inequality addressing housing segregation between cities and suburbs rather than suburbanites' demands for decent jobs housing and schools By turning our attention to the suburban poor Keogh reveals poverty wasn't just an urban problem but a suburban one too In Levittown's Shadow deepens our understanding of suburbia's history and points us toward more effective ways to combat poverty today      **My Fair Ladies** Julie Wosk, 2015-07-28 The fantasy of a male creator constructing his perfect woman dates back to the Greek myth of Pygmalion and Galatea Yet as technology has advanced over the past century the figure of the lifelike manmade woman has become nearly ubiquitous popping up in everything from *Bride of Frankenstein* to *Weird Science* to *The Stepford Wives* Now Julie Wosk takes us on a fascinating tour through this bevy of artificial women revealing the array of cultural fantasies and fears they embody *My Fair Ladies* considers how female automatons have been represented as objects of desire in fiction and how living dolls have been manufactured as real-world fetish objects But it also examines the many works in which the perfect woman turns out to be artificial a robot or doll and thus becomes a source of uncanny horror Finally Wosk introduces us to a variety of female artists writers and filmmakers from Cindy Sherman to Shelley Jackson to Zoe Kazan who have cleverly crafted their own images of simulated women Anything but dry *My Fair Ladies* draws upon Wosk's own experiences as a young female Playboy copywriter and as a child of the feminine mystique era to show how images of the artificial woman have loomed large over real women's lives Lavishly illustrated with film stills artwork and vintage advertisements this book offers a fresh look at familiar myths about gender technology and artistic creation      The Levittowners Herbert J. Gans, 1982 In 1955 Levitt and Sons Inc purchased almost all of Willingboro Township New Jersey a sparsely settled agricultural area

seventeen miles from Philadelphia They would build 1 200 homes three basic house types would be erected ten or twelve neighborhoods would emerge This suburban experiment was the basis for one of the most famous case studies in urban sociology Herbert J Gans *The Levittowners* This classic work examines its subject from numerous angles the beginnings of group life the founding of churches the emergence of party politics family and individual adaptation and other dimensions of the suburban experience In a new introduction written especially for this edition Gans reflects on the past twenty years and their effect on the Levittown community *The Cost of Caring for the Chronically Ill* United States. **Make Room for TV** Lynn Spigel, 2013-11-26 Between 1948 and 1955 nearly two thirds of all American families bought a television set and a revolution in social life and popular culture was launched In this fascinating book Lynn Spigel chronicles the enormous impact of television in the formative years of the new medium how over the course of a single decade television became an intimate part of everyday life What did Americans expect from it What effects did the new daily ritual of watching television have on children Was television welcomed as an unprecedented window on the world or as a one eyed monster that would disrupt households and corrupt children Drawing on an ambitious array of unconventional sources from sitcom scripts to articles and advertisements in women's magazines Spigel offers the fullest available account of the popular response to television in the postwar years She chronicles the role of television as a focus for evolving debates on issues ranging from the ideal of the perfect family and changes in women's role within the household to new uses of domestic space The arrival of television did more than turn the living room into a private theater it offered a national stage on which to play out and resolve conflicts about the way Americans should live Spigel

chronicles this lively and contentious debate as it took place in the popular media Of particular interest is her treatment of the way in which the phenomenon of television itself was constantly deliberated from how programs should be watched to where the set was placed to whether Mom Dad or kids should control the dial Make Room for TV combines a powerful analysis of the growth of electronic culture with a nuanced social history of family life in postwar America offering a provocative glimpse of the way television became the mirror of so many of America s hopes and fears and dreams
