## **Ladies Of The Leisure Class:**

**Ladies of the Leisure Class** Bonnie G. Smith, 1981-10-21 In a social and cultural study of nineteenth century bourgeois women in northern France Bonnie Smith shows how the advent of industrialization removed women from the productive activity of the middle class and confined them to a largely reproductive experience Out of this she suggests they created their own world centered on domesticity family and religion To understand these women the author argues it is necessary to examine their world on its own terms as a coherent whole Professor Smith draws on demographic psychoanalytic anthropological linguistic as well as historical insights and uses a variety of evidence that includes personal interviews photographs letters genealogical records and traditional archival sources Part One outlines the transition from mercantile to industrial manufacturing that terminated the relationship between home and business and that separated the sexes according to their respective functions Part Two concentrates on the lives of the women following their acceptance of an exclusively reproductive function and shows how the interdependence and fusion of household chores religious values and social conscience fostered a unified cultural system Part Three then explores the propagation of this domesticity by the convent as the primary educational system and by the sentimental novel as the vehicle most suited for an ideological expression of domestic life

**Woman's World/Woman's Empire** Ian Tyrrell, 2014-03-19 Frances Willard founded the Woman's Christian Temperance Union in 1884 to carry the message of women's emancipation throughout the world Based in the United States the WCTU rapidly became an international organization with affiliates in forty two countries Ian Tyrrell tells the extraordinary story of how a handful of women sought to change the mores of the world not only by abolishing alcohol but also by promoting peace and attacking prostitution poverty and male control of democratic political structures In describing the work of Mary Leavitt Jessie Ackermann and other temperance crusaders on the international scene Tyrrell identifies the tensions generated by conflict between the WCTU's universalist agenda and its own version of an ideologically and religiously based form of cultural imperialism The union embraced an international and occasionally ecumenical vision that included a critique of Western materialism and imperialism But at the same time its mission inevitably promoted Anglo American cultural practices and Protestant evangelical beliefs deemed morally superior by the WCTU Tyrrell also considers from a comparative perspective the peculiar links between feminism social reform and evangelical religion in Anglo American culture that made it so difficult for the WCTU to export its vision of a woman centered mission to other cultures Even in other Western states forging links between feminism and religiously based temperance

reform was made virtually impossible by religious class and cultural barriers Thus the WCTU ultimately failed in its efforts to achieve a sober and pure world although its members significantly shaped the values of those countries in which it exercised strong influence As and urgently needed history of the first largescale worldwide women s organization and non denominational evangelical institution Woman s World Woman s Empire will be a valuable resource to scholars in the fields of women s studies religion history and alcohol and temperance studies      **The Woman in the Zoot Suit** Catherine S. **The Origins of Modern Feminism** Jane Rendall, 1985-01-24 This comparative study analyses the emergence of feminist movements and their differing characters in Britain France and the United States Jane Rendall examines the social economic and cultural factors which affected women s status in society and led some women to act individually and collectively to seek to change it The Enlightenment emphasis on women s nature and the evangelical stress on the moral potential of women contributed to a framework of ideas which could be used by conservatives and by feminists Among the middle classes discussion focused on the need to improve women s education and on the strengths and limitations of domesticity Patterns of paid employment for women were shifting and Jane Rendall suggests that the weak position of women in the labor market during the early stages of industrialisation restricted their ability to associate together Yet involvement in religious political and philanthropic movements could provide a means by which women might come together to identify their common concerns and learn the necessary political skills Jane Rendall places the origins of feminism in the broader context of social and political change in the nineteenth century looking both at the changing relationship between

paid work and domestic life and at the links between feminism and class and political conflict in three different societies

The Affairs of Women Colin Bingham, 2006      Women's Sports Allen Guttman, 1991 The subject is rife with social and cultural implications which Guttman explores as he traces the development of women's sports from antiquity to the present including the evolution and the revolution in the 20th century and contemporary controversies      **The Oxford History of Protestant Dissenting Traditions, Volume III** Timothy Larsen, Michael Ledger-Lomas, 2017-04-28 The five volume Oxford History of Dissenting Protestant Traditions series is governed by a motif of migration out of England. It first traces organized church traditions that arose in England as Dissenters distanced themselves from a state church defined by diocesan episcopacy, the Book of Common Prayer, the Thirty Nine Articles and royal supremacy but then follows those traditions as they spread beyond England and also traces newer traditions that emerged downstream in other parts of the world from earlier forms of Dissent. Secondly, it does the same for the doctrines, church practices, stances toward state and society, attitudes toward Scripture and characteristic patterns of organization that also originated in earlier English Dissent but that have often defined a trajectory of influence independent ecclesiastical organizations. The Oxford History of Protestant Dissenting Traditions Volume III considers the Dissenting traditions of the United Kingdom, the British Empire and the United States in the nineteenth century. It provides an overview of the historiography on Dissent while making the case for seeing Dissenters in different Anglophone connections as interconnected and conscious of their genealogical connections. The nineteenth century saw the creation of a vast Anglo world which also brought Anglophone Dissent to its apogee. Featuring contributions from a team of leading scholars, the volume illustrates that in most parts of the world, the later nineteenth century was marked by a growing enthusiasm for the moral and educational activism of the state which plays against the idea of Dissent as a static, purely negative identity. This collection shows that Dissent was a political and constitutional identity which was often only strong where a dominant Church of England existed to dissent against      **Ladies of Labor, Girls of Adventure** Nan Enstad, 1999 Enstad explores the complex relationship between consumer culture and political activism for late nineteenth and twentieth century working women. While consumerism did not make women into radicals, it helped shape their culture and their identities as both workers and political actors      **Turning Pages** Sarah Frederick, 2006-07-31 Turning Pages makes a significant contribution to studies of Japanese print culture and to the growing interest in the cultural landscape of the 1920s and 30s in Japan. The scholarship is superb; the writing flows beautifully and the images from the magazines are wonderfully evocative. Jan Bardsley, University of North Carolina at Chapel Hill. This important book contributes to our gendered understanding of Japanese modernity. Frederick has insightfully discerned what we need to know in order to situate the rich materials available to researchers in reprint editions of women's magazines. Because so many significant literary works made their initial appearance in women's magazines, Frederick's book allows students and scholars to appreciate as never before the context in which certain works were first read. Sally A. Hastings

Purdue University By the early 1920s ladies magazines fujin zasshi had become a distinct category in Japanese publishing Women's periodicals increasingly influenced intellectual discourse the literary establishment and daily life Turning Pages makes sense of this phenomenon through a detailed analysis of major interwar women's magazines especially the literary journal Ladies Review the popular domestic periodical Housewife's Friend and the politically radical magazine Women's Arts Through a close examination of their literature articles advertising and art the book explores the magazines as both windows onto and actors in this vibrant period of Japanese history Turning Pages considers the central place of representations of women for women in the culture of interwar era Japan and our understanding of Japanese modernity Taking a holistic approach to the texts and using tools of historical literary and cultural analysis the author examines the triangular relationship among the consumers the producers and the texts themselves *The Other Women's Movement* Dorothy Sue Cobble, 2011-08-15 American feminism has always been about more than the struggle for individual rights and equal treatment with men There's also a vital and continuing tradition of women's reform that sought social as well as individual rights and argued for the dismantling of the masculine standard In this much anticipated book Dorothy Sue Cobble retrieves the forgotten feminism of the previous generations of working women illuminating the ideas that inspired them and the reforms they secured from employers and the state This socially and ethnically diverse movement for change emerged first from union halls and factory floors and spread to the pink collar domain of telephone operators secretaries and airline hostesses From the 1930s to the 1980s these women pursued answers to problems that are increasingly pressing today how to balance work and family and how to address the growing economic inequalities that confront us *The Other Women's Movement* traces their impact from the 1940s into the feminist movement of the present The labor reformers whose stories are told in *The Other Women's Movement* wanted equality and special benefits and they did not see the two as incompatible They argued that gender differences must be accommodated and that equality could not always be achieved by applying an identical standard of treatment to men and women The reform agenda they championed an end to unfair sex discrimination just compensation for their waged labor and the right to care for their families and communities launched a revolution in employment practices that carries on today Unique in its range and perspective this is the first book to link the continuous tradition of social feminism to the leadership of labor women within that movement **Woman's Work in the Far East**, 1915 **Gender, Sex and the Shaping of Modern Europe** Annette F. Timm, Joshua A. Sanborn, 2022-01-13 At a time when issues of gender and sexuality are as prominent as they have ever been *Gender Sex and the Shaping of Modern Europe* provides an authoritative exploration of the history of these deeply connected subjects over the last 250 years Incorporating a blend of history and historiography Annette F.
