Goralnick,Walt Disney Productions,Harold M. Goralnick Pop-Up Book Collection (Bowdoin College Library),1955 **Children's Literature and the Posthuman** Zoe Jaques,2015-02-11 An investigation of identity formation in children s literature this book brings together children s literature and recent critical concerns with posthuman identity to argue that children s fiction offers sophisticated interventions into debates about what it means to be human and in particular about humanity s relationship to animals and the natural world In complicating questions of human identity ecology gender and technology Jaques engages with a multifaceted posthumanism to understand how philosophy can emerge from children s fantasy disclosing how such fantasy can build upon earlier traditions to represent complex issues of humanness to younger audiences Interrogating the place of the human through the non human whether animal or mechanical leads this book to have interpretations that radically depart from the critical tradition which in its concerns with the socialization and representation of the child has ignored larger epistemologies of humanness The book considers canonical texts of children s literature alongside recent bestsellers and films locating texts such as Gulliver s Travels 1726 Pinocchio 1883 and the Alice books 1865 1871 as important works in the evolution of posthuman ideas This study provides radical new readings of children s literature and demonstrates that the genre offers sophisticated interventions into the nature boundaries and dominion of humanity **American Zoo** David Grazian,2017-12-05 A close up look at the contradictions and wonders of the modern zoo Orangutans swing from Kevlar lined fire hoses Giraffes feast on celebratory birthday cakes topped with carrots instead of candles Hi tech dinosaur robots growl among steel trees while owls watch animated cartoons on old television sets In American Zoo sociologist David Grazian takes us on a safari through the contemporary zoo alive with its many contradictions and strange wonders Trading in his tweed jacket for a zoo uniform and a pair of muddy work boots Grazian introduces us to zookeepers and animal rights activists parents and toddlers and the other human primates that make up the zoo s social world He shows that in a major shift away from their unfortunate pasts American zoos today emphasize naturalistic exhibits teeming with lush and immersive landscapes breeding programs for endangered animals and enrichment activities for their captive creatures In doing so zoos blur the imaginary boundaries we regularly use to separate culture from nature humans from animals and civilization from the wild At the same time zoos manage a wilderness of competing priorities animal care education scientific research and recreation all while attempting to serve as centers for conservation in the wake of the current environmental and climate change crisis The world of the zoo reflects how we project our own prejudices and desires onto the animal kingdom and invest nature with meaning and

sentiment A revealing portrayal of comic animals delighted children and feisty zookeepers American Zoo is a remarkable close up exploration of a classic cultural attraction
