Lady Dianas Daring Deed Zebra Regency Romance

S Ashworth

Lady Dianas Daring Deed Zebra Regency Romance:

Lady Diana's Daring Deed Mona K. Gedney, 2000 This book is a study of the development of the Victorian short story which by the 1890s and the appearance of the Sherlock Holmes stories had become the most popular literary product of the late nineteenth century The book examines the work of nine distinguished writers William Carleton and Joseph Sheridan Le Fanu serve to illustrate the change from a largely oral tradition to a more sophisticated understanding of the nature of the reading public Charles Dickens and Anthony Trollope exemplify significant changes in the relationship between an author and his audience Thomas Hardy insisted on older more traditional modes of narrative but his storytelling sense had been sharpened by experiences with many editors of periodicals who believed they were serving the modern public The other writers treated at length are Robert Louis Stevenson Rudyard Kipling Joseph Conrad and H G Wells Historical Romance Fiction Lisa Fletcher, 2016-04-22 The first book length study of romance novels to focus on issues of sexuality rather than gender Historical Romance Fiction moves the ongoing debate about the value and appeal of heterosexual romance onto new ground testing the claims of cutting edge critical theorists on everything from popular classics by Georgette Heyer to recent bodice rippers to historical fiction by John Fowles and A S Byatt Beginning with her nomination of I love you as the romance novel s defining speech act Lisa Fletcher engages closely with speech act theory and recent studies of performativity The range of texts serves to illustrate Fletcher s definition of historical romance as a fictional mode dependent on the force and familiarity of the speech act I love you and permits Fletcher to provide a detailed account of the genre s history and development in both its popular and literary manifestations Written from a feminist and anti homophobic perspective Fletcher s subtle arguments about the romantic speech act serve to demonstrate the genre s dependence on repetition Romance can only quote and the shaky ground on which the romance s heterosexual premise rests Her exploration of the subgenre of cross dressing novels is especially revealing in this regard With its deft mix of theoretical arguments and suggestive close readings Fletcher s book will appeal to specialists in genre speech act and performativity theory and gender studies **Bowker's Guide to Characters in Fiction 2007** , 2008-02 *The Publishers Weekly* , 2000 *What Do I Read Next?* Neil Barron, 2005-10-21 By identifying similarities in various books this annual selection guide helps readers to independently choose titles of interest published in the last year Each entry describes a separate book listing everything readers need to know to make selections Arranged by author within six genre sections detailed entries provide Title Publisher and publication date Series Names and descriptions of characters Time period and geographical setting Review citations Story types Brief plot summary Selected other books by the author Similar books by different authors Author title series character name character description time period geographic setting and genre sub genre indexes are included to facilitate research **The Illustrated London News** , 1852 **The Two Dianas** Alexandre Dumas, 1928 Lovestone Deana James, 1983-06-01 Kidnapped by Rhiannon her father s most hated enemy Moira is determined to die rather than

remain a captive *The Daring Duchess* Norma L. Clark, 1988
