Death and Rebirth in a Southern City Ryan K. Smith, 2020-11-17 This exploration of Richmond s burial landscape over the past 300 years reveals in illuminating detail how racism and the color line have consistently shaped death burial and remembrance in this storied Southern capital Richmond Virginia the former capital of the Confederacy holds one of the most dramatic landscapes of death in the nation Its burial grounds show the sweep of

Southern history on an epic scale from the earliest English encounters with the Powhatan at the falls of the James River through slavery the Civil War and the long reckoning that followed And while the region's deathways and burial practices have developed in surprising directions over these centuries one element has remained stubbornly the same the color line But something different is happening now The latest phase of this history points to a quiet revolution taking place in Virginia and beyond Where white leaders long bolstered their heritage and authority with a disregard for the graves of the disenfranchised today activist groups have stepped forward to reorganize and reclaim the commemorative landscape for the remains of people of color and religious minorities In *Death and Rebirth in a Southern City* Ryan K Smith explores more than a dozen of Richmond's most historically and culturally significant cemeteries He traces the disparities between those grounds which have been well maintained preserving the legacies of privileged whites and those that have been worn away dug up and built over erasing the memories of African Americans and indigenous tribes Drawing on extensive oral histories and archival research Smith unearths the heritage of these marginalized communities and explains what the city must do to conserve these gravesites and bring racial equity to these arenas for public memory He also shows how the ongoing recovery efforts point to a redefinition of Confederate memory and the possibility of a rebirthed community in the symbolic center of the South The book encompasses among others St John's colonial churchyard African burial grounds in Shockoe Bottom and on Shockoe Hill Hebrew Cemetery Hollywood Cemetery with its 18 000 Confederate dead Richmond National Cemetery and Evergreen Cemetery home to tens of thousands of black burials from the Jim Crow era Smith's rich analysis of the surviving grounds documents many of these sites for the first time and is enhanced by an accompanying website www.richmondcemeteries.org A brilliant example of public history *Death and Rebirth in a Southern City* reveals how cemeteries can frame changes in politics and society across time

Hometown Horizons Robert Allen Rutherford, 2004 In *Hometown Horizons* Robert Rutherford considers how people and communities on the Canadian home front perceived the Great War Drawing on newspaper archives and organizational documents he examines how farmers near Lethbridge Alberta shopkeepers in Guelph Ontario and civic workers in Trois Rivières Québec took part in local activities that connected their everyday lives to a tumultuous period in history Many important debates in social and cultural history are addressed including demonization of enemy aliens gendered fields of wartime philanthropy state authority and citizenship and commemoration and social memory The making of Canada's home front Rutherford argues was experienced fundamentally through local means City parades military send offs public school events women's war relief efforts and many other public exercises became the parochial lenses through which a distant war was viewed Like no other book before it this work argues that these experiences were the true realities of war and that the old maxim that truth is war's first victim needs to be understood even in the international and imperialistic Great War as a profoundly local phenomenon *Hometown Horizons* contributes to a growing body of work on the social and cultural histories of the First World War and challenges historians to

consider the place of everyday modes of communication in forming collective understandings of world events This history of a war imagined will find an eager readership among social and military historians cultural studies scholars and anyone with an interest in wartime Canada In Search of the Working Class Leon Fink,1994 These nine essays by a prominent scholar in American labor history self consciously evoke the tensions between the worker as historical subject and the historian as outside observer Encompassing studies of labor culture strategy and movement building from the late nineteenth century to the present In Search of the Working Class also connects the trials of the early labor economists to the conceptual challenges facing today s academic practitioners Fink places American labor history in the broader context of American political historiography better than any other historian I can think of James R Barrett author of *Work and Community in the Jungle* Chicago s Packinghouse Workers 1894 1922 *Retail Nation* Donica Belisle,2011-02-15 The experience of walking down a store aisle replete with displays salespeople and infinite choice is so common we often forget retail has a short history Retail Nation traces Canada s transformation into a modern consumer society back to an era 1890 to 1940 when department stores such as Eaton s ruled the shopping scene and promised to strengthen the nation Department stores emerge as agents of modern nationalism but the nation they helped to define white consumerist middle class was more limited and contested than nostalgic portraits of the early department store suggest
