L'Age D'Or Robert Short, 2013-07-16 L'AGE D'OR 1929 the second film by Surrealists Luis Buñuel and Salvador Dalí remains as shocking now as on its debut with its images of sexual mania violence cruelty filth and wanton destruction It also stands as the first ever film to reference the writings of the Marquis de Sade including the recreation of murderous and blasphemous scenes from Sade's atrocity bible 120 Days Of Sodom This special ebook study of L'AGE D'OR provides an in depth analysis and history of this seminal Surrealist film accompanied by a gallery of rare photographic illustrations The History of Serbian Culture Pavle Ivić, 1995 *Fiction in French - Fiction in Soviet* British Library, 2013-02-07 No detailed

description available for Fiction in French Fiction in Soviet **The Radical Right in Switzerland** Damir Skenderovic, 2009-09-01 There has been a tendency amongst scholars to view Switzerland as a unique case and comparative scholarship on the radical right has therefore shown little interest in the country Yet as the author convincingly argues there is little justification for maintaining the notion of Swiss exceptionalism and excluding the Swiss radical right from cross national research His book presents the first comprehensive study of the development of the radical right in Switzerland since the end of the Second World War and therefore fills a significant gap in our knowledge It examines the role that parties and political entrepreneurs of the populist right intellectuals and publications of the New Right as well as propagandists and militant groups of the extreme right assume in Swiss politics and society The author shows that post war Switzerland has had an electorally and discursively important radical right since the 1960s that has exhibited continuity and persistence in its organizations and activities Recently this has resulted in the consolidation of a diverse Swiss radical right that is now established at various levels within the political and public arena *The Four Literatures of Switzerland* Benhard

Wenger, 1985 **Paths to Contemporary French Literature, Volume 1** John Taylor, 2005-04-27 Although the great French novelists of the last two centuries are widely read in America there is a widespread notion that little of importance has happened in French literature since the heyday of Sartre Camus and the nouveau roman Some might argue that even well read Americans are ignorant about what is happening in European literature generally Certainly there has never been so few translations of foreign books in the United States or so little coverage of foreign writers Curious American readers need new up to date information and analyses about what is happening elsewhere Paths to Contemporary French Literature is a stimulating and much needed guide to the major currents of one of the world's great literatures This critical panorama of contemporary French literature introduces English language readers to over fifty important writers and poets many of whom are still little known outside of France Emphasizing authors who are admired by their peers as opposed to those with

overnight reputations John Taylor offers a compelling insider's view. The pioneering essays included in this book offer incisive analyses of the ideas motivating current writing and delve into a writer's or poet's entire output. Although some names may be familiar (Marguerite Duras, Hélène Cixous, Philippe Jaccottet, Henri Michaux), the reader obtains fresh reappraisals of their seminal work. Especially noteworthy, however, are Taylor's lively introductions to many other key writers who either have not yet crossed the English Channel, let alone the Atlantic. Combating the notion that French literature is overtly intellectual, inaccessible, or interested only in formal experimentation, Taylor shows that many French writers are instead acutely inquisitive about the outside world, shrewd observers of reality, even very funny. Although not conceived as a reference book, the volume possesses some qualities of a reference work: a good bibliography, reliable dates, and biographical facts. *Paths to Contemporary French Literature* will be of interest to students of French literature and culture, literary scholars, and readers of contemporary fiction and poetry.

**Michel Leiris** Seán Hand, 2002-08-01 This is the first full-length study in English of Michel Leiris's work. Frequently cited as a central figure in contemporary French culture, Leiris was an outstanding writer whose double career as ethnographer and creative writer places him at important points of intersection within French cultural history. Seán Hand explores Leiris's active participation in some of the most striking intellectual and artistic movements of the twentieth century: surrealism in the twenties, ethnography in the thirties, and existentialism in the forties. Hand locates his writing in these different contexts in relation to the major artistic, political, and philosophical concepts of the period. He goes on to argue that Leiris's multi-volume autobiography *La Règle du jeu* stands as the model form of self-enquiry in the twentieth century. More broadly, Hand explores Leiris's continuing obsession with the notion of presence. Informed by recent critical theories, Hand offers a multi-disciplinary approach to this intriguing writer.

**Outsider Citizens** Sarah Relyea, 2013-10-14 *Outsider Citizens* examines a foundational moment in the writing of race, gender, and sexuality: the decade after 1945 when Richard Wright, Simone de Beauvoir, and others sought to adapt existentialism and psychoanalysis to the representation of newly emerging public identities. Relyea offers the first book-length study bringing together Wright and Beauvoir to reveal their common sources and concerns. Relyea's discussion begins with *Native Son* and then examines Wright's postwar exile in France and his engagement with existentialism and psychoanalysis in *The Outsider*. Beauvoir met Wright during her postwar tour of America, chronicled in *America Day by Day*. After returning to France, Beauvoir adapted American social constructionist concepts of race as one source for her philosophical investigation of gender in *The Second Sex*, while also rejecting 1940s psychoanalytic theories of femininity. Relyea examines later representations of race and gender in a discussion of James Baldwin's critique of postwar American liberalism and ideals of innocence and masculinity in *Giovanni's Room*, which represents the remaking of white American identity through the risks of exile and the return of the gaze.

**Autobiography and Imagination** John Pilling, 2015-08-20 Originally published in 1981. This book looks at the

autobiographical work of nine twentieth century writers Henry Adams Henry James W B Yeats Boris Pasternak Leiris Jean Paul Sartre Vladimir Nabokov Henry Green and Adrian Stokes The author argues that often the writer has shaped his life through his craft coming to understand the pattern of his own existence through the formalism of language In each case the writer stamps his personality on the work by mean of a distinctive verbal surface whose discipline enables him to evade narrow egotism and forces both reader and writer into an act of collaboration and corroboration Written at a time when criticism was turning to focus on the relation between the reader and the text this study added a provocative dimension to the debate and is still an important read today

**Alexander Zinoviev: An Introduction to His Work** Michael Kirkwood,1993-06-18 Zinoviev s twin themes are the nature of Soviet communist society and the West s inability to understand it It is the purpose of this book to trace the development of his thinking via a chronological analysis of his most important works

**International Futurism in Arts and Literature** Günter Berghaus,2012-10-25 This publication offers for the first time an inter disciplinary and comparative perspective on Futurism in a variety of countries and artistic media 20 scholars discuss how the movement shaped the concept of a cultural avant garde and how it influenced

the development of modernist art and literature around the world      **The History of Futurism** Geert Buelens, Harald Hendrix, Monica Jansen, 2012-08-31 Futurism began as an artistic and social movement in early twentieth century Italy Until now much of the scholarship available in English has focused only on a single individual or art form This volume seeks to present a more complete picture of the movement by exploring the history of the movement the events leading up to the movement and the lasting impact it has had as well as the individuals involved in it The History of Futurism The Precursors Protagonists and Legacies addresses the history and legacy of what is generally seen as the founding avant-garde movement of the twentieth century Geert Buelens Harald Hendrix and Monica Jansen have brought together scholarship from an international team of specialists to explore the Futurism movement as a multidisciplinary movement mixing aesthetics politics and science with a particular focus on the literature of the movement      **In Defiance of Painting** Christine Poggi, 1992-01-01 The invention of collage by Picasso and Braque in 1912 proved to be a dramatic turning point in the development of Cubism and Futurism and ultimately one of the most significant innovations in twentieth century art Collage has traditionally been viewed as a new expression of modernism one allied with modernism's search for purity of means anti-illusionism unity and autonomy of form This book the first comprehensive study of collage and its relation to modernism challenges this view Christine Poggi argues that collage did not become a new language of modernism but a new language with which to critique modernism She focuses on the ways Cubist collage and the Futurist multimedia work that was inspired by it undermined prevailing notions of material and stylistic unity subverted the role of the frame and pictorial ground and brought the languages of high and low culture into a new relationship of exchange      **L'age d'aimer** Pierre Wolff, 1905

**Genetic Criticism** Jed Deppman, Daniel Ferrer, Michael Groden, 2004-04-14 A valuable introduction to the possibilities and perspectives opened up by the study of literary manuscripts and will leave readers curious to discover more about this important and growing field Romanic Review      **The Double Vocation** John M. Dunaway, 1996 This study seeks to redefine the double role of those writers who have often been referred to as French Catholic novelists After a brief overview of the Catholic Renaissance movement in modern literature three acknowledged geniuses in this sub-genre Georges Bernanos Francois Mauriac and Julien Green are meticulously reexamined in light of their Christian vocation For the first time in English the writings of the Franco-Russian novelist Vladimir Volkoff are also discussed in considerable detail The book concludes with a theoretical chapter that raises troubling questions that apply to the double vocation namely What is the distinctive character of fiction when it is written by a professing Christian Are the two vocations of Christian and novelist fully compatible or mutually exclusive
