Lake Buchanan 1936 1937 Fall Creek Sites:

Land of the Tejas John Wesley Arnn, 2014-05-23 Combining archaeological historical ethnographic and environmental data Land of the Tejas represents a sweeping interdisciplinary look at Texas during the late prehistoric and early historic periods Through this revolutionary approach John Wesley Arnn reconstructs Native identity and social structures among both mobile foragers and sedentary agriculturalists Providing a new methodology for studying such populations Arnn describes a complex vast exotic region marked by sociocultural and geographical complexity tracing numerous distinct peoples over multiple centuries Drawing heavily on a detailed analysis of Toyah a Late Prehistoric II material culture as well as early European documentary records an investigation of the regional environment and comparisons of these data with similar regions around the world Land of the Tejas examines a full scope of previously overlooked details From the enigmatic Jumanó Indian leader Juan Sabata to Spanish friar Casanas's 1691 account of the vast Native American Tejas alliance Arnn's study shines new light on Texas's poorly understood past and debunks long held misconceptions of prehistory and history while proposing a provocative new approach to the process by which we attempt to reconstruct the history of humanity

The Toyah Phase of Central Texas Nancy Adele Kenmotsu, Douglas K. Boyd, 2012-09-01 In the fourteenth century a culture arose in and around the Edwards Plateau of Central Texas that represents the last prehistoric peoples before the cultural upheaval introduced by European explorers This culture has been labeled the Toyah phase characterized by a distinctive tool kit and a bone tempered pottery tradition Spanish documents some translated decades ago offer glimpses of these mobile people Archaeological excavations some quite recent offer other views of this culture whose homeland covered much of Central and South Texas For the first time in a single volume this book brings together a number of perspectives and interpretations of these hunter gatherers and how they interacted with each other the pueblos in southeastern New Mexico the mobile groups in northern Mexico and newcomers from the northern plains such as the Apache and Comanche Assembling eight studies and interpretive essays to look at social boundaries from the perspective of migration hunter farmer interactions subsistence and other issues significant to anthropologists and archaeologists The Toyah Phase of Central Texas Late Prehistoric Economic and Social Processes demonstrates that these prehistoric societies were never isolated from the world around them Rather these societies were keenly aware of changes happening on the plains to their north among the Caddoan groups east of them in the Puebloan groups in what is now New Mexico and among their neighbors to the south in Mexico

Jumano and Patarabueye J. Charles Kelly, 1986-01-01 In this volume author J Charles Kelley uses historical linguistic and archaeological data to compare two indigenous North American cultures the Patarabueyes and the Jumanos
