The Book of Strange New Things Michel Faber, 2014-10-28 A monumental genre defying novel that David Mitchell calls Michel Faber s second masterpiece The Book of Strange New Things is a masterwork from a writer in full command of his many talents It begins with Peter a devoted man of faith as he is called to the mission of a lifetime one that takes him galaxies away from his wife Bea Peter becomes immersed in the mysteries of an astonishing new environment overseen by an enigmatic corporation known only as USIC His work introduces him to a seemingly friendly native population struggling with a dangerous illness and hungry for Peter s teachings his Bible is their book of strange new things But Peter is rattled when Bea s letters from home become increasingly desperate typhoons and earthquakes are devastating whole countries and governments are crumbling Bea s faith once the guiding light of their lives begins to falter Suddenly a separation measured by an otherworldly distance and defined both by one newly discovered world and another in a state of collapse is threatened by an ever widening gulf that is much less quantifiable While Peter is reconciling the needs of his congregation with the desires of his strange employer Bea is struggling for survival Their trials lay bare a profound meditation on faith love tested beyond endurance and our responsibility to those closest to us Marked by the same bravura storytelling and precise language that made *The Crimson Petal and the White* such an international success *The Book of Strange New Things* is extraordinary mesmerizing and replete with emotional complexity and genuine pathos *Planet Earth Is Blue* Nicole

Panteleakos, 2020-05-05 Tender and illuminating A beautiful debut Rebecca Stead Newbery Medal winning author of *When You Reach Me* A heartrending and hopeful story about a nonverbal girl and her passion for space exploration for fans of *See You in the Cosmos* *Mockingbird* and *The Thing About Jellyfish* Twelve year old Nova is eagerly awaiting the launch of the space shuttle Challenger it s the first time a teacher is going into space and kids across America will watch the event on live

TV in their classrooms Nova and her big sister Bridget share a love of astronomy and the space program They planned to watch the launch together But Bridget has disappeared and Nova is in a new foster home While foster families and teachers dismiss Nova as severely autistic and nonverbal Bridget understands how intelligent and special Nova is and all that she can't express As the liftoff draws closer Nova's new foster family and teachers begin to see her potential and for the first time she is making friends without Bridget But every day she's counting down to the launch and to the moment when she'll see Bridget again Because as Bridget said No matter what I'll be there I promise *Astronomy Now*, 2000 **Monthly Notes** Astronomical Society of Southern Africa, 2000 **All Day** Liza Jessie Peterson, 2017-04-18 ALL DAY is a behind the bars personal glimpse into the issue of mass incarceration via an unpredictable insightful and ultimately hopeful reflection on teaching teens while they await sentencing Told with equal parts raw honesty and unbridled compassion ALL DAY recounts a year in Liza Jessie Peterson's classroom at Island Academy the high school for inmates detained at New York City's Rikers Island A poet and actress who had done occasional workshops at the correctional facility Peterson was ill prepared for a full time stint teaching in the GED program for the incarcerated youths For the first time faced with full days teaching the rambunctious hyper and fragile adolescent inmates Ms P comes to understand the essence of her predominantly Black and Latino students as she attempts not only to educate them but to instill them with a sense of self worth long stripped from their lives I have quite a spirited group of drama kings court jesters flyboy gangsters tricksters and wannabe pimps all in my charge all up in my face to educate Peterson discovers Corraling this motley crew of bad news bears to do any lesson is like running boot camp for hyperactive gremlins I have to be consistent alert firm witty fearless and demanding and most important I have to have strong command of the subject I'm teaching Discipline is always a challenge with the students spouting street infused backtalk and often bouncing off the walls with pent up testosterone Peterson learns quickly that she must keep the upper hand set the rules and enforce them with rigor even when her sympathetic heart starts to waver Despite their relentless bravura and antics and in part because of it Peterson becomes a fierce advocate for her students She works to instill the young men mostly black with a sense of pride about their history and culture from their African roots to Langston Hughes and Malcolm X She encourages them to explore and express their true feelings by writing their own poems and essays When the boys push her buttons on an almost daily basis she pushes back demanding that they meet not only her expectations or the standards of the curriculum but set expectations for themselves something most of them have never before been asked to do She witnesses some amazing successes as some of the boys come into their own under her tutelage Peterson vividly captures the prison milieu and the exuberance of the kids who have been handed a raw deal by society and have become lost within the system Her time in the classroom teaches her something too that these boys want to be rescued They want normalcy and love and opportunity Biology/science Materials Carolina Biological Supply Company, 1991
