## **Land Endures:**

Land United States. Department of Agriculture, 1958 This book explores the land present when the colonists arrived its significance in our history and development and the management of both public and private lands It also covers the valuation income and resources associated with land addresses future needs and examines emerging challenges related to land ownership and control      **Land and Taxation** Nicholas Tideman, Blundell V H, PhD FRED FOLDVARY, PhD MASON GAFFNEY, M.Sc FRED HARRISON, 2023-01-31 With an updated introduction by Fred Harrison Shephard Walwyn has now published this classic book as an eBook Economists know that the optimum conditions for private enterprise are achieved when taxes on the earned incomes of labour and capital are reduced to zero but because neoclassical economic theory insists on treating land as capital they dismiss the obvious alternative to taxing labour and capital the unearned income from land Mason Gaffney explains the importance of recognising land as a distinctive factor of production and the consequences of its uniqueness for economic policy for example that income from land is subject to market forces quite different from those that determine a return on capital Nic Tidman brings together the classical literature on land taxation to explain the argument that such taxation is an economically efficient and ethical revenue source The authors argue that reform of the structure of public finance would make it possible to restore full employment without causing inflation and to reduce the overall tax burden Once again Shephard Walwyn presents a different approach to an old problem      *The Good Life* Yi-fu Tuan, 1986

Tuan explores answers to an old and unanswerable question how should we live *The Good Life* is a little anthology of good feeling touchstones of joy These pleasures make the book a pleasure not of conviction or belief but of conversation s meandering exploration New York Times Book Review Tuan after all is one of the few geographers who can be read for pleasure and by the public as well as by the professional But read not merely for pleasure nor yet to mark learn and inwardly digest Rather consider Tuan s challenge to identify your concept of the good life and then try to construct that life
