Land Mammals Of Southern Africa Revised Edition:

Smithers Mammals of Southern Africa Peter Apps, Reay H.N. Smithers, 2012-04-05 This popular and authoritative field guide to the mammals of southern Africa has been fully revised and updated to include the latest research while remaining accessible and compact for use in the field Detailed accounts of over 220 land and nine marine mammal species are discussed in depth with full species descriptions detailing physical characteristics habitat diet life history behaviour field signs and conservation status Beautiful accurate illustrations depict each species and there are up to date distribution maps spoor patterns symbols showing conservation status time of activity and whether the animal occurs only in the subregion As an extra aid to identification line drawings show the relative sizes of similar mammals drawn to a common scale Smithers numbers make for easy cross referencing to the first and third editions of Mammals of the Southern African Subregion Written in non technical language and with a fresh design this field guide classic will appeal to general readers wildlife enthusiasts and professional guides as well as to students and specialists in the field

The Mammals of the Southern African Sub-region J. D. Skinner, Christian T. Chimimba, 2005-11-15 This third extensively revised edition of The Mammals of the Southern African Subregion contains detailed descriptions of all mammals that occur naturally on the African mainland south of the Cunene and Zambezi rivers together with all mammals indigenous to the subregion s coastal waters The rapid accumulation of new information resulting from mammal research in southern Africa together with radical taxonomic changes across all levels of mammalian classification have necessitated this new edition which presents the best and latest data accurately in one comprehensive volume for use not only by scientists but also by an increasingly wide audience of general readers with an interest in the natural history of southern Africa J D Skinner and C T Chimimba have revised expanded and updated the text in a major project overseen by an editorial committee constituted by the Mammal Research Institute at the University of Pretoria Specialists on each mammalian order have served as subeditors and a range of independent and internationally recognised authorities have reviewed every species description In this edition all the distribution maps and many of the illustrations of mammal prints have been updated and redrawn several new colour plates have been added and the whole design of this definitive reference work has been enhanced to ensure easy access to information

BOOK JACKET Stuarts' Field Guide to Mammals of Southern Africa Chris Stuart, Mathilde Stuart, 2015-03-27 Greater southern Africa has a wealth of mammal species almost 400 all of which are covered in this fully updated comprehensive field guide Now expanded to include species found in Angola Zambia and Malawi it has also been extensively revised to include the most recent research and taxonomy revised distribution maps and many new images colour coded grouping of families spoor and size icons skull photographs grouped for easy comparison detailed descriptions of each species offering insight into key identification characters typical behaviour preferred habitat food choice reproduction and longevity

Elephant management Robert (Bob) Scholes, Kathleen G Mennell, 2008-03-01 Elephants are among the most

magnificent but also most problematic members of South Africa's wildlife population. While they are sought after by South African and foreign tourists alike, they also have a major impact on their environment. As a result, elephant management has become a highly complex and often controversial discipline. The information needed to underpin vital decisions about elephant management has largely been unavailable to decision makers, contested by experts or simply unknown. As a result, the South African Minister for Environmental Affairs and Tourism convened a round table to advise him on this issue. The round table recommended that a scientific assessment of elephant management be undertaken to gather, evaluate and present all the relevant information on this topic. Its main findings and recommendations are contained in this volume. *Elephant Management* is the first book of its kind, combining the work of more than 60 national and international experts. Extensively reviewed by policy makers and other stakeholders, it is the most systematic and comprehensive review of savanna elephant populations and factors relevant to managing them to date. As such, it is of interest to a broad spectrum of readers in South Africa and elsewhere. Above all, it is aimed at helping conservation policy makers and practitioners to choose the best possible options for the sustainable preservation of these iconic animals.

The Mammals of South Africa William Lutley Sclater, 1900 Field Guide to Mammals of Southern Africa Chris Stuart, Tilde Stuart, 2007

Southern Africa has a wealth of mammal species, a total of 337, all of which are covered in this fully revised, comprehensive field guide. While the term 'African mammals' conjures up the more celebrated species of elephant, lion, buffalo, leopard and rhino, it is in fact the smaller animals – shrews, genets, suricates and bats – that comprise the bulk of the region's mammal species. And often overlooked but included here too is the diversity of marine mammals: seals, whales and dolphins that are found in our oceans. This new edition of *Field Guide to Mammals of Southern Africa* has been extensively revised to include the most recent research, in line with new findings and new taxonomy. Up-to-date information, revised distribution maps and new images, where available, have been combined in a modern, full-color layout. Color coding has been introduced according to family groupings, and spoor and size icons are included for quick reference with each mammal entry. Another new feature is the inclusion of skulls, grouped at the back of the book for easy comparison. In addition to detailed descriptions of each species, the text offers insight into key identification characters, typical behavior, preferred habitat, food choice and reproduction.

A Fossil History of Southern African Land Mammals D. Margaret Avery, 2019-04-11

A comprehensive reference on the taxonomy and distribution in time and space of all currently recognized southern African fossil mammals. This title is also available as Open Access on Cambridge Core.

The Principles of Classification and a Classification of Mammals George Gaylord Simpson, 1945 **The Ixodid Ticks (Acari: Ixodidae) of Southern Africa** Ivan G. Horak, Heloise Heyne, Roy Williams, G. James Gallivan, Arthur M. Spickett, J. Dürr, Bezuidenhout, Agustín Estrada-Peña, 2018-02-14

This is a comprehensive work summarizing the current state of knowledge of the biology of the hard ticks (Acari: Ixodidae) of Southern Africa: South Africa, Namibia, Botswana, Swaziland, Lesotho and Maputo Province, Mozambique. It provides an overview of the history of tick research in Southern Africa and the

evolution of our knowledge of the ticks distribution and biology as well as the methods used to determine tick distribution abundance and host preference The morphologies of most of the tick species known to occur in Southern Africa are described and illustrated and their distributions are described and mapped in relation to the biomes of the region The known hosts for each tick species are listed and the tick s host preferences are discussed Information on most species life cycle in the laboratory and the field and their seasonal occurrence is summarized The diseases of animals and humans transmitted or caused by each tick species are summarized in relation to tick ecology Aspects of the biology of the major hosts relevant to tick infestations are described and extensive tick host and host tick lists are provided for each country **A Fynbos Year**
