## **Land Revenue Public Finance In Maratha:**

**Land Revenue & Public Finance in Maratha Administration** H. B. Vashishta, 1975      The Marathas 1600-1818

Stewart Gordon, 2007-02-01 In this book Dr Stewart Gordon presents the first comprehensive history of the Maratha polity which was an important regional kingdom in the seventeenth century and the largest political entity of eighteenth century India. He focuses on the origins of the elite families, problems of legitimacy and loyalty, military organization and change and the development of administration, tax collection and religious patronage. Through the use of a vast array of documents, the author also gives a picture of everyday life in the Maratha polity.      Advanced Study in the History of Modern India

1707-1813 Jaswant Lal Mehta, 2005-01-01 An analytical and critical account of the political history of early modern India from 1707 to 1813. The narrative shatters the contention of contemporary European writers that it was the dark age of Indian history characterised by political anarchy and misgovernment until the British brought it under their sway. The main thesis of the author is that the period was marked by two distinct phases: the first phase, which lasted from 1707 to 1760, saw the rapid disintegration of the Mughal power and its replacement by the Maratha hegemony. Meanwhile, the English traders turned colonialists after consolidating their hold along the Indian seacoasts and conquest of Carnatic and Bengal challenged the Maratha hegemony. The second phase of developments was thus marked by the struggle for supremacy between these two powers. The author makes use of contemporary English and Marathi sources and the intensive researches of modern historians to portray a compact picture of their findings in the form of a text book for the benefit of the degree students. Historical facts are reinterpreted through illuminating expositions, refreshing characterisation of historic personalities and objective assessment of events and movements. Together with maps, a select bibliography, glossary and an elaborate index, the volume makes a rich contribution to the advancement of modern historical literature.      Arabian Seas 1700 - 1763 Rene Barendse, 2009-10-26 The Western Indian Ocean in the Eighteenth Century is the first of four volumes offering a sweeping panorama of the Arabian Seas during the early modern period. Focusing on the period 1700-1763, the first volume concentrates on daily life in littoral societies, examining long-term issues including climatic change, famine and the structures of fishing communities. The volume examines littoral societies in each of the major coastal areas of the Western Indian Ocean: East Africa, the Red Sea, the Persian Gulf and its traditional ties to surrounding hinterlands as well as to the west coast of India. While having particular interest to readers concerned with Indian Ocean history as an absorbing and innovative account of a much neglected albeit critical area and period, Arabian Seas 1700-1763 will be of great interest to anyone interested in early modern maritime social or economic history. Kings, Gangsters and Companies, volume two of Arabian Seas 1700-1763, focuses on European relations with the major states and societies of the Western Indian Ocean during the eighteenth century. As such, it traces the major structural changes in African, South Asian and Middle Eastern societies during this period. Chapters examine European communities and their relations with the societies of the Indian Ocean basin, the daily

life of European soldiers and merchants relations with Indian women European views on the Indian caste system as well as the governmental systems they encountered The volume also details the importance of Indian and Persian merchant communities in the Indian Ocean trading system and the impact of war on the economic development of this system during the eighteenth century Men and Merchandise the third volume of Arabian Seas 1700 1763 provides a detailed examination of the economic and social structures in the Western Indian Ocean focusing on key commodities like bullion textiles and the slave trade Readers will also encounter interesting vignettes of daily life an Indian nautch girl worried about her inheritance a Portuguese gangster friar and pariah workers the infamous buccaneers of Madagascar coffee traders from Yemen Cairo and the Crimea and Iraqi and Iranian bankers who all had relevance to this vast economic system Men and Merchandise provides insights into other traditionally ignored aspects in the traditional historiography including uprisings aboard slave ships and details of maroon societies involving refugee slaves in India and Mauritius as well as Dutch slave soldiers in the Persian Gulf As such it will prove of great interest to any reader concerned with the social and economic history of the Indian Ocean basin Europe in Asia the fourth volume and final volume in Arabian Seas 1700 1763 details the early phase of European territorial empire building in the western Indian Ocean basin Particular attention is given to the much neglected history of the Portuguese Estado da India and the attempts of the Portuguese Crown to reform its administration and dwindling possessions in the eighteenth century The volume examines the direct legacies of the longstanding Portuguese imperial presence in the Arabian Seas including the experiences of Indian Catholic communities as well as the establishment of Indian settlements and communities in East Africa Finally the volume provides an exhaustive treatment of the structures and history of the Dutch East India Company VOC and English East India Company EIC the establishment of the vast private co

*British-Ottoman Relations, 1661-1807* Michael Talbot, 2017 The British Embassy in Istanbul was unique among other diplomatic missions in the long eighteenth century in being financed by a private commercial monopoly the Levant Company In this detailed study Michael Talbot shows how the intimate relation between commercial interest and diplomatic practice played out across the period from the arrival of an ambassador from the restored British crown in 1661 to the sudden evacuation of his successor and the outbreak of the first Ottoman War in 1807 Using a rich variety of sources in English Ottoman Turkish and Italian some of them never before examined including legal documents financial ledgers and first hand accounts from participants he reconstructs the detail of diplomatic practice in rituals of gift giving and hospitality within the Ottoman court examines the at times very different meanings that they held for the British and Ottoman participants and traces the ways in which the declining fortunes of the Levant company directly affected the ability of the embassy to perform effectively within Ottoman conventions at a time when rising levels of British violence in and around the Ottoman realm marked the journey towards British imperialism in the region MICHAEL TALBOT is Lecturer in History at the University of Greenwich
