## **Land Question In Palestine 1917 1939:**

**The Land Question in Palestine, 1917-1939** Kenneth W. Stein, 1984 The control of land remains the crucial issue in the Arab Israel conflict Kenneth Stein investigates in detail and without polemics how and why Jews acquired land from Arabs in Palestine during the British Mandate and he reaches conclusions that are challenging and suprising Stein contends that Zionists were able to purchase the core of a national territory in Palestine during this period for three reasons they had the single mindedness of purpose as well as the capital to buy the land the Arabs economically impoverished politically fragmented and socially atomized were willing to sell the land and the British were largely ineffective in regulating land sales and protecting Arab tenants Neither Arab opposition to land sales nor British attempts to regulate them actually limited land acquisition There were always more Arab offers to sell land than there were Zionist funds In fact many sales were made by Arab politicians who publicly opposed Zionism and even led agitation against land acquisition by Jews Zionists furthered their own ambitions by skillfully using their understanding of the bureaucracy to write laws and to influence key administrative appointments Further they knew how to take advantage of social and economic cleavages within Arab society Based primarily on archival research *The Land Question in Palestine 1917 1939* offers an unusually balanced analysis of the social and political history of land sales in Palestine during this critical period It provides exceptional and essential insight into one of the most troubling conflicts in today s world *The Land Question in Palestine, 1917-1939* Kenneth W. Stein, **The**

**British Mandate in Palestine** Michael J Cohen, 2020-02-18 The British Mandate over Palestine began just 100 years ago in July 1920 when Sir Herbert Samuel the first British High Commissioner to Palestine took his seat at Government House Jerusalem The chapters here analyse a wide cross section of the conflicting issues social political and strategic that attended British colonial rule over the country from 1920 to 1948 This anthology contains contributions by several of the most respected Israeli scholars in the field Arab Druze and Jewish It is divided into three sections covering the differing perspectives of the main actors in the Palestine Triangle the British the Arabs and the Zionists The concluding chapter identifies a pattern of seven counterproductive negotiating behaviours that explain the repeated failure of the parties to agree upon any of the proposals for an Arab Zionist peace in Mandated Palestine The volume is a modern review of the British Mandate in Palestine from different perspectives which makes it a valuable addition to the field It is a key resource for students and scholars interested in international relations history of the Middle East Palestine and Israel **The**

**Struggle for Land Under Israeli Law** Hadeel S. Abu Hussein, 2021-11-29 This book provides a comprehensive examination of land law for Arab Palestinians under Israeli law Land is one of the core resources of human existence development and activity Therefore it is also a key basis of political power and of social and economic status Land regimes and planning regulations play a dynamic role in deciding how competing claims over resources will be resolved According to legal geography spatial ordering impacts legal regimes whilst legal rules form social and human space Through the lenses of

international law colonisation and legal geography the book examines the land regime in Israel More specifically it endeavours to understand the spatial strategies adopted by Israel to organise the entire territorial expanse of the country as Jewish while also excluding Arab Palestinian citizens of Israel and residents of East Jerusalem from the landscape The book then details how the systematic nature and processes of marginalisation are mapped out across the civil political and socio economic landscape This monograph will be of interest to international legal theorists legal geographers land lawyers and human rights practitioners and students as well as to international scholars NGOs and others focusing on the Israeli Palestinian conflict

*Land Rights, Ethno-nationality and Sovereignty in History* Stanley Engerman, Jacob Metzer, 2004-08-02 The complex relationships between ethno nationality rights to land and territorial sovereignty have long fed disputes over territorial control and landed rights between different nations ethnicities and religions These disputes raise a number of interesting issues related to the nature of land regimes and to their economic and political implications The studies drawn together in this key volume explore these and related issues for a broad variety of countries and times They illuminate the diverse causes of ethno national land disputes and the different forms of adjustment and accommodation to the power differences between the contesting groups This is done within a framework outlined by the editors in their analytical overview which offers contours for comparative examinations of such disputes past and present Providing conceptual and factual analyses of comparative nature and wealth of empirical material both historical and contemporary this book will appeal to economic historians economists political scientists sociologists anthropologists and all scholars interested in issues concerning ethno nationality and land rights in historical perspective

*Zionism and Land Tenure in Mandate Palestine* Aida Essaid, 2013-12-04 A fundamental aspect of the conflict between Palestinians and Israelis is the territorial dispute which began long before the State of Israel was established Analysing the land tenure system in Palestine under the administration of the British Mandate this book questions whether and to what extent the land tenure system in Palestine facilitated Zionist land acquisition The research uses benchmarks elaborated in the guidelines of the United Nations Human Settlements Programme as its analytical starting point and looks at the formation and implementation of the land tenure system in Palestine It goes on to place the penetration of Zionism into the land tenure system within the theoretical context of a colonial settler framework employing information from land registry records located at the Jordanian Department of Lands Providing a political historical analysis of the land tenure system from the end of Ottoman Rule until the end of the British Mandate this book will be of interest to scholars and students of Middle Eastern History Imperial and Colonial History and Middle Eastern Politics

*Emptied Lands* Alexandre Kedar, Ahmad Amara, Oren Yiftachel, 2018-02-27 *Emptied Lands* investigates the protracted legal planning and territorial conflict between the settler Israeli state and indigenous Bedouin citizens over traditional lands in southern Israel Palestine The authors place this dispute in historical legal geographical and international comparative perspectives providing the first legal geographic analysis of the dead Negev doctrine used by

Israel to dispossess and forcefully displace Bedouin inhabitants in order to Judaize the region The authors reveal that through manipulative use of Ottoman British and Israeli laws the state has constructed its own version of terra nullius Yet the indigenous property and settlement system still functions creating an ongoing resistance to the Jewish state Empty Lands critically examines several key land claims court rulings planning policies and development strategies offering alternative local regional and international routes for justice

*King Abdullah, Britain and the Making of Jordan* Mary Christina Wilson, 1987 King Abdullah played an active role in the partition of Palestine and as a result has always been viewed as one of the most controversial figures in modern Middle East history This book is the first in depth study of the historical and personal circumstances that made him so Born in Mecca in 1882 of a family that traced its lineage to the Prophet Muhammad Abdullah belonged to the Ottoman ruling elite He grew up in Istanbul and returned to Mecca when his father was appointed Sharif in 1908 During the First World War he earned nationalist credentials as a leader of the Arab revolt against the Ottoman Empire Owing to his alliance with Britain in the revolt he emerged afterwards as a contender for power in a Middle East now dominated by Britain Despite grandiose ambitions Abdullah ended up as Britain's client in the mandated territory of Transjordan His dependence on Britain was exacerbated by his situation in Transjordan an artificial creation with no significant cities no natural resources and little meaning beyond its importance to British strategy Within the constraints of British interests it was left to Abdullah to make something of his position and he spent the remainder of his life looking beyond Transjordan's borders for a role a clientele or a stable balance of interests which would allow him a future independent of British fortunes He found all three after 1948 when in conjunction with the creation of Israel he came to rule the portion of Palestine known as the West Bank

*Exiled in the Homeland* Donna Robinson Divine, 2010-01-01 Offering a new perspective on Zionism *Exiled in the Homeland* draws on memoirs newspaper accounts and archival material to examine closely the lives of the men and women who immigrated to Palestine in the early twentieth century Rather than reducing these historic settlements to a single unified theme Donna Robinson Divine's research reveals an extraordinary spectrum of motivations and experiences among these populations Though British rule and the yearning for a Jewish national home contributed to a foundation of solidarity *Exiled in the Homeland* presents the many ways in which the message of emigration settled into the consciousness of the settlers Considering the benefits and costs of their Zionist commitments Divine explores a variety of motivations and outcomes ranging from those newly arrived immigrants who harnessed their ambition for the goal of radical transformation to those who simply dreamed of living a better life Also capturing the day to day experiences in families that faced scarce resources as well as the British policies that shaped a variety of personal decisions on the part of the newcomers *Exiled in the Homeland* provides new keys to understanding this pivotal chapter in Jewish history

**The Palestinian Peasant Economy Under the Mandate** Amos Nadan, 2006 Challenging the claim that Palestine's peasant economy progressed during the 1920s and 1930s Amos Nadan skillfully integrates a wide variety of sources to demonstrate

that the period was actually one of deterioration on both the macro per capita and micro levels The economy would have most likely continued its downward spiral during the 1940s had it not been for the temporary prosperity that resulted from World War II Nadan argues that this deterioration continued despite the British authorities channeling of funds from the Jewish sector and the wealthier Arab sectors into projects for the Arab rural economy The British were hoping that Palestine s peasants would not rebel if their economic conditions improved These programs were on the whole defective because the British chose programs based on an assumption that the peasants were too ignorant to manage their farms wisely instead of working with the peasants and their own institutions

### **The Problems of Genocide** A. Dirk Moses,2021-02-04

Genocide is not only a problem of mass death but also of how as a relatively new idea and law it organizes and distorts thinking about civilian destruction Taking the normative perspective of civilian immunity from military attack A Dirk Moses argues that the implicit hierarchy of international criminal law atop which sits genocide as the crime of crimes blinds us to other types of humanly caused civilian death like bombing cities and the collateral damage of missile and drone strikes Talk of genocide then can function ideologically to detract from systematic violence against civilians perpetrated by governments of all types The Problems of Genocide contends that this violence is the consequence of permanent security imperatives the

striving of states and armed groups seeking to found states to make themselves invulnerable to threats      The Jewish World In Modern Times Abraham J Edelheit,Hershel Edelheit,2019-09-10 The momentous events of modern Jewish history have led to a proliferation of books and articles on Jewish life over the last 350 years Placing modern Jewish history into both universal and local contexts this selected annotated bibliography organizes and categorizes the best of this vast array of written material The authors have included all English language books of major importance on world Jewry and on individual Jewish communities plus books most readily available to researchers and readers and a select number of pamphlets and articles The resulting bibliography is also a guide to recent Jewish historiography and research methods      Jerusalem and Its Environs Ruth Kark,Michal Oren-Nordheim,2001 It covers the construction of institutional complexes the introduction of significant changes in Jerusalem s administration the creation of new planning frameworks the planning of new settlements around the city the concentration of large tracts of agricultural land by Jerusalem s Arab effendis and the development of the Arab and Jewish villages in the rural hinterland BOOK JACKET      *A Concise History of the Middle East* Ibrahim Al-Marashi,Arthur Goldschmidt Jr.,2024-10-07 A Concise History of the Middle East provides a comprehensive introduction to the history of this region Spanning from the pre Islamic era to the present it explores the evolution of Middle Eastern institutions and culture the influence of European colonialism and Western imperialism regional modernization efforts the struggle of various peoples for political independence the Arab Israeli conflict the reassertion of Islamist values and power the issues surrounding the Palestinian Question and the Middle East following 9 11 the 2011 Arab uprisings and the regional crisis that erupted after 7 October 2023 The thirteenth edition has been fully revised to reflect the most recent events in and concerns of the region including its future in the face of climate change and challenges in Iraq and developments in the Israeli Palestinian conflict In addition the important role of Middle Eastern women in the history of the region is woven into the narrative New parts and part timelines will help students grasp and contextualize the long and complicated history of the region With updated biographical sketches and a new concluding chapter this book remains the quintessential text for students of Middle East history      **Identity of England** Robert Colls,2002-06-20 The English stand now in need of a new sense of home and belonging a reassessment of who they are This is a history of who they were written from the perspective of the twenty first century It begins by considering how the English state identified an English nation which from very early days seems to have seen itself as not simply the creature of state or king It considers also how in modern times the English nation survived shattering revolutions in technology urban living and global conflict while at the same time retaining a softer more human vision of themselves as a people in touch with their nature and their land They claimed that there was more to living in England than work and wages there was more to running a vast empire than just exploiting it For all its faults and inequalities they identified with their state For all their shortcomings they were confident of their place in history As little as forty years ago these ideas were not much in doubt Though vague and often contradictory they held together as the English

people held together as a whole Indeed Englishness was hardly recognized as a subject for analysis except perhaps in a rather ironic and self mocking vein But now the national question is back and history is at the top of the agenda From a rich store of historical memory and possibility Robert Colls connects the identity of England in the past with the changing and uncertain identity of England today      **Anglo-French Defence Relations Between the Wars** M.
