## **Rural History of Soviet**

**Central Asia: Land Reform and Agricultural Change in Early Soviet Uzbekistan** Beatrice Penati, 2024-12-02 In the mid

1920s Uzbekistan's countryside experienced a land reform which aimed at solving rural poverty and satisfying radical fringes among peasants and Party while sustaining agricultural output especially for cotton. This book analyses the decision making process underpinning the reform, its implementation and economic and social effects. The reform must be understood against the background of the wreckage caused by war and revolution and linked to subsequent policies of land organisation and regime sponsored class struggle. Overall, this is the first comprehensive account of early Soviet policy in Central Asia's agricultural heartland encompassing land rights, irrigation, credit, resettlement and the co-operative system. Peasant Struggles, Land Reforms and Social Change: Malabar 1836-1982 P. Radhakrishnan, 1989

Capital Penetration and the Peasantry in Southern and Eastern Africa Freedom Mazwi, George Tonderai Mudimu, Kirk Helliker, 2022-02-12. This book examines the impact of neoliberalism on peasant agriculture as a key livelihood strategy in Southern and Eastern Africa against the background of the current development crisis and the crossroads that Southern and Eastern Africa faces. It systematically analyses how the neoliberal architecture has deepened extorted production for capitalist accumulation and how this has been to the detriment of the rural labour force and small scale and communal landowners. Apart from examining how neoliberalism has triggered land alienations, the book further argues that such policies have also impacted negatively on food security in a number of ways. The book presents empirical evidence through twelve case studies emerging from in-depth original fieldwork carried out in seven countries in the Southern and Eastern African region. This book is a must-read for scholars of economics, sociology, anthropology, history, agrarian studies and political science as well as practitioners and policy makers interested in a better understanding of the impact of the agrarian neoliberal restructuring on the peasantry in Southern Africa. *Strategies of Social Change in India* Paramjit S. Judge, Gurpreet Bal, 1996. The book, on the basis of empirical and historical investigations, convincingly demonstrates that the process of change in India involved a great degree of ambivalence but there is no clear-cut indication except that various strategies have tended to strengthen the position of the already privileged sections of the society. The underprivileged are the last to benefit. From #RhodesMustFall Movements to #HumansMustFall Movements Artwell Nhemachena, Jairo Kangira, 2021-05-14. Might it be possible that the world is being migrated into an era where the imperial periphery will be increasingly governed through Artificial Intelligence (AI) and robotics designed to replace human beings? Celebrated as efficient, strong, unfailing, tireless, precise and beyond corruption, AI and robots are set to replace African leaders who are imperially deemed to be and consistently condemned as corrupt, failed, weak and inefficient. But if these AI and robots are neo-imperial tools and machinations, the million-dollar question is whether empire is not returning to recolonise the supposedly inefficient Africans via the new technologies and machinism. Where Africans once celebrated their liberation war movements, empire has enplaced what it calls liberation technologies designed to supposedly liberate African youths from their own states and governments led by liberation movements. Where Africans once celebrated their liberation war movements, empire has placed its own NGOs, CSOs, spewing

liberal ideologies designed to ostensibly liberate African youths from their own supposedly failed and corrupt states and government leaders With African youths citizens allying not with their liberation movements but with the liberation technologies and liberal NGOs CSOs it is not surprising why African citizens oppose their states led Fast Track Land Redistribution Programmes while ironically they happily celebrate Fast Tracked COVID 19 Vaccines Positing the notion of HumansMustFall movements this book underscores ways in which empire is in a process of eternal return to 21st century Africa The book is crucial for scholars and activists in political science government studies sociology anthropology cultural studies history languages and communication studies security studies military studies and development studies
