self exiled and alienated world The works of Margaret Laurence and Anita Desai depict heart rending facts and bitter realities which women have to face in an emotionless modern society Since the patriarchal structure is prevalent in India and Canada women are categorised as second rate citizens and are treated as liabilities by their families due to a lack of financial power In the absence of any economic social emotional and financial support they also consider themselves inferior to men Time and again they revolt against the mechanical and merciless treatment of their family and society and sometimes they choose self exile as a safeguard against the callous and selfish treatment of their family members Their inner desire to revolt against an oppressive society and the prevailing cultural norm only increases their isolation In their works Laurence and Desai have unveiled the tortured psyche of sensitive women who are unable to share their feelings with others and are destined to live an emotionally deprived life
