Love and the Soul Robert Sardello, 2011-06-28 With economies in peril, war in the Middle East, genocides, global warming, and a host of other grim phenomena, the world has never seemed so besieged The solution, says Robert Sardello, lies with the individual In this timely, thoughtful book, he explains how the soul can engage with the outer world to produce radical change Because we think of the world as a vast mechanism and behave as mechanical objects in it, the results are devastation and dysfunction The key is to learn to identify with the plight of the Earth by developing a true sense of individual imagination and conscious awareness of inner purpose and beauty in conjunction with the soul of the world Sardello shows how to achieve this awareness and bring what is inside out into the world, inspiring balance and stability Using the Grail legend and the myth of Sophia, known as the Soul of the World, as well as writings by Jung, James Hillman, and Rudolf Steiner, *Love and the Soul* helps readers imagine a revitalized Earth by exploring the significance of grieving, the transformative power of radical receptivity, the creative power of dreaming, and a new basis for community

kindred at home. By the author of "Hope Leslie," etc. Miss C. M. Sedgwick ,1841 **The Literature of Hope in the Middle Ages and Today** Flo Keyes,2006-03-31 The influence of medieval literature is instantly apparent in modern fantasy literature where knights and wizards populate castle strewn landscapes Less obvious but still recognizable is the influence in science fiction which draws on medieval story structure and themes Beyond these superficial similarities deeper connections become evident through an analysis of the literature s social function Like the fantasy and science fiction of today the romances of the Middle Ages were written in times of extreme and prolonged social upheaval In all three genres the storytellers draw on the same archetypes the hero the quest the transformation for stories whose goal is to provide hope Using Jungian theory and comparative analysis this book explores the connections between the three genres It finds common ground among them in plots that often reflect the recurring cycle of life and the elements of psychological rather than literal realism Representative texts such as Malory s Le Morte D Arthur the Witch World series by Andre Norton and More Than Human by Theodore Sturgeon are examined in depth and the use of archetypes in each is thoroughly explored Analysis reveals similarities in images structures and the pervasive belief that a perfectible universe is within man s capabilities if not now then someday **An Accident of Hope** Dawn M. Skorczewski,2012-04-27 In 1956 Anne Sexton was admitted into a

mental hospital for post partum depression where she met Dr Martin Orne a young psychiatrist who treated her for the next eight years In that time Sexton would blossom into a world famous poet best known for her confessional poems dealing with personal subjects not often represented in poetry at that time mental illness depression suicide sex abortion women s bodies and the ordinary lives of mothers and housewives Orne audiotaped the last three years of her therapy to facilitate her ability

to remember their sessions The final six months of these tapes are the focus of this book In *An Accident of Hope* Dawn Skorczewski links the content of the therapy with poetry excerpts offering a rare perspective on the artist's experience and creative process We can see Sexton attempting to make sense of her life and therapy and to sustain her confidence as a major poet while struggling with the impending loss of Orne who was moving elsewhere Skorczewski's study provides an intimate in depth view of the therapy of a psychologically tortured yet immensely creative woman during a period of emerging feminism and cultural change Tracing the mutual development of the poet and the therapist during their years together the author explores the tension between the classical therapeutic setting as practiced in the early 1960s and contemporary relational and developmental concepts in psychoanalysis just then beginning to emerge *An Accident of Hope* also raises broader questions about the nature of healing in psychotherapy The poet and therapist we encounter in these sessions present complex and conflicted images of the therapeutic and creative process Orne equal parts honesty and hesitancy works to bolster Sexton's self image and maintain that she is more than the sum of her poetry Sexton working against a tendency to hide from her most painful feelings valiantly pushes to tell the truth in therapy while her poems invite the readers to see another side of the story Just as Orne kept the audiotapes so that one day they might help others who suffer *An Accident of Hope* tells the story of a therapy but moves beyond it By offering a glimpse into the past the present is open for reappraisal both of Sexton herself and the legacy of psychoanalytic treatment
