Comparative and Global Framing of Enslavement Stephan Conermann, Youval Rotman, Ehud R. Toledano, Rachel Zelnick-Abramovitz, 2023-09-05 The study of enslavement has become urgent over the last two decades Social scientists legal scholars human rights activists and historians who study forms of enslavement in both modern and historical societies have sought and often achieved common conceptual grounds thus forging a new perspective that comprises historical and contemporary forms of slavery What could certainly be termed a turn in the study of slavery has also intensified awareness of

enslavement as a global phenomenon inviting a comparative trans regional approach across time space divides Though different aspects of enslavement in different societies and eras are discussed each of the volume s three parts contributes to and has benefitted from a global perspective of enslavement The chapters in Part One propose to structure the global examination of the theoretical ideological and methodological aspects of the global local and glocal Part Two Regional and Trans regional Perspectives of the Global presents through analyses of historical case studies the link between connectivity and mobility as a fundamental aspect of the globalization of enslavement Finally Part Three deals with personal points of view regarding the global local and glocal Grosso modo the contributors do not only present their case studies but attempt to demonstrate what insights and added value explanations they gain from positioning their work vis vis a broader big picture

Beauvois,2016-12-01 Today a century and a half after the abolition of slavery across most of the Americas the idea of monetary reparations for former slaves and their descendants continues to be a controversial one Lost among these debates however is the fact that such payments were widespread in the nineteenth century except the victims were not slaves but the slaveholders deprived of their labor This landmark comparative study analyzes the debates over compensation within France and Great Britain It lays out in unprecedented detail the philosophical legal political and economic factors at play establishing a powerful new model for understanding the aftermath of slavery in the Americas *The Oxford Encyclopedia of Economic History* Joel Mokyr,2003-10-16 What were the economic roots of modern industrialism Were labor unions ever effective in raising workers living standards Did high levels of taxation in the past normally lead to economic decline These and similar questions profoundly inform a wide range of intertwined social issues whose complexity scope and depth become fully evident in the Encyclopedia Due to the interdisciplinary nature of the field the Encyclopedia is divided not only by chronological and geographic boundaries but also by related subfields such as agricultural history demographic history business history and the histories of technology migration and transportation The articles all written and signed by international contributors include scholars from Europe Latin America Africa and Asia Covering economic history in all areas of the world and segments of economies from prehistoric times to the present The Oxford Encyclopedia of Economic History is the ideal resource for students economists and general readers offering a unique glimpse into this integral part of world history **Networks of Empire** Kerry Ward,2009 In this book Ward examines the Dutch East India Company s control of migration as an expression of imperial power *Abolitions as a Global Experience* Hideaki Suzuki,2015-11-16 The abolition of slavery and similar institutions of servitude was an important global experience of the nineteenth century Considering how tightly bonded into each local society and economy were these institutions why and how did people decide to abolish them This collection of essays examines the ways this globally shared experience appeared and developed Chapters cover a variety of different settings from West Africa to East Asia the Indian Ocean and the Caribbean with close consideration of the British French and Dutch colonial contexts as well as internal developments in Russia and Japan What part of the abolition decision was due to international pressure and what part due to local factors Furthermore this collection does not solely focus on the moment of formal abolition but looks hard at the aftermath of abolition and also at the ways abolition was commemorated and remembered in later years This book complicates the conventional story that global abolition was essentially a British moralizing effort among the three or four perfectly virtuous pages comprised in the history of nations Using comparison and connection this book tells a story of dynamic encounters between local and global contexts of which the local efforts of British abolition campaigns were a part Looking at abolitions as a globally shared experience provides an important perspective not only to the field of slavery and abolition studies but also the field of global or world history **Suriname** Irene Rolfes,2025-01-20 Dutch Colonialism, Migration and Cultural Heritage Geert Oostindie,2008-01-01 Migration flows

The Dutch Rediscover the Dutch-Africans (1847-1900) Andrew Burnett,2022-07-25 Were the Dutch Africans in southern Africa a brother nation to the Dutch or did they simply represent a lost colony Connecting primary sources in Dutch and Afrikaans this work tells the story of the Dutch stamverwantschap kinship movement between 1847 and 1900 The white Dutch Africans were imagined to be the bridgehead to a broader Dutch identity a second Netherlands in the south This study explores how the 19th century Dutch identified with and idealised a pastoral community operating within a racially segregated society on the edge of European civilisation When the stamverwantschap dream collided with British military and economic power the belief that race language and religion could sustain a broader Dutch identity proved to be an illusion

Writing the History of Slavery David Stefan Doddington,Enrico Dal

Lago,2022-01-13 Exploring the major historiographical theoretical and methodological approaches that have shaped studies on slavery this addition to the Writing History series highlights the varied ways that historians have approached the fluid and complex systems of human bondage domination and exploitation that have developed in societies across the world The first part examines more recent attempts to place slavery in a global context touching on contexts such as religion empire and capitalism In its second part the book looks closely at the key themes and methods that emerge as historians reckon with the dynamics of historical slavery These range from politics economics and quantitative analyses to race and gender to psychohistory history from below and many more Throughout examples of slavery and its impact are considered across time

and place in Ancient Greece and Rome Medieval Europe colonial Asia Africa and the Americas and trades throughout the Atlantic and Indian Oceans Also taken into account are thinkers from Antiquity to the 20th century and the impact their ideas have had on the subject and the debates that follow This book is essential reading for students and scholars at all levels who are interested in not only the history of slavery but in how that history has come to be written and how its debates have been framed across civilizations

Abolition and Its Aftermath in the Indian Ocean Africa and Asia Gwyn Campbell, 2013-01-11 This important collection of essays examines the history and impact of the abolition of the slave trade and slavery in the Indian Ocean World a region stretching from Southern and Eastern Africa to the Middle East India Southeast Asia and the Far East Slavery studies have traditionally concentrated on the Atlantic slave trade and slavery in the Americas In comparison the Indian Ocean World slave trade has been little explored although it started some 3 500 years before the Atlantic slave trade and persists to the present day This volume which follows a collection of essays The Structure of Slavery in Indian Ocean Africa and Asia Frank Cass 2004 examines the various abolitionist impulses indigenous and European in the Indian Ocean World during the nineteenth and twentieth centuries It assesses their efficacy within a context of a growing demand for labour resulting from an expanding international economy and European colonisation The essays show that in applying definitions of slavery derived from the American model European agents in the region failed to detect or deliberately ignored other forms of slavery and as a result the abolitionist impulse was only partly successful with the slave trade still continuing today in many parts of the Indian Ocean World

Realm between Empires Wim Klooster, Gert Oostindie, 2018-05-15 Wim Klooster and Gert Oostindie present a fresh look at the Dutch Atlantic in the period following the imperial moment of the seventeenth century This epoch 1680-1815 the authors argue marked a distinct and significant era in which Dutch military power declined and Dutch colonies began to chart a more autonomous path The loss of Brazil and New Netherland were twin blows to Dutch imperial pretensions Yet the Dutch Atlantic hardly faded into insignificance Instead the influence of the Dutch remained as they were increasingly drawn into the imperial systems of Britain Spain and France In their synthetic and comparative history Klooster and Oostindie reveal the fragmented identity and interconnectedness of the Dutch in three Atlantic theaters West Africa Guiana and the insular Caribbean They show that the colonies and trading posts

were heterogeneous in their governance religious profiles and ethnic compositions and were marked by creolization Even as colonial control weakened the imprint of Dutch political economic and cultural authority would mark territories around the Atlantic for decades to come *Realm between Empires* is a powerful revisionist history of the eighteenth century Atlantic world and provides a much needed counterpoint to the more widely known British and French Atlantic histories
