Lacacia Pb 1989:

L'Acacia au Sénégal Claudine Campa, 1998 **Nitrogen Fixation in Tropical Cropping Systems** K. E. Giller, 2001
Nitrogen fixation by leguminous plants is especially important when farmers are trying to minimise fertilizer use for cost or environmental reasons This second edition of the highly successful book first published in 1991 contains thoroughly updated and revised material on the theory and practice of nitrogen fixation in tropical cropping systems **Indian Science Abstracts** ,1992 *The Bradley Bibliography* Alfred Rehder, 1912 **Bois et forêts des tropiques** ,1994 *Research Bulletin of the Panjab University* Panjab University, 2002 **The Bradley Bibliography: Dendrology. 1911-12** Alfred Rehder, 1912 **Agroforestry for Soil Management** Anthony Young, 1997 Agroforestry refers to land use systems in which trees or shrubs are grown in association with agricultural crops or pastures and livestock From its inception it has contained a strong element of soil management Well designed and managed agroforestry systems have the potential to control run off and erosion maintain soil organic matter and physical properties and promote nutrient cycling By these means agroforestry can make a major contribution to sustainable land use The previous edition of this book entitled *Agroforestry for Soil Conservation* 1989 was based on indirect evidence from agriculture forestry and soil science The present work provides a new synthesis drawing on over 700 published sources dating largely from the 1990s These include both results of field trials of agronomy systems and research into the plant soil processes which take place within them Soil conservation in its narrower sense the control of erosion is treated alongside other equally important aspects of soil management such as nutrient cycling The new edition summarizes the present state of knowledge and indicates needs for research It is essential reading for all concerned with agroforestry whether as students research scientists or for practical purposes of development It is also of interest to soil scientists agronomists and foresters Anthony Young was for nine years a Principal Scientist with the International Centre for Research in Agroforestry ICRAF Nairobi Kenya He was previously Professor of Environmental Sciences at the University of East Anglia Norwich UK from which he received the degree of Doctor of Science He was a joint author of the FAO standard texts on land evaluation and land use planning Besides these his other books include *Soil Survey and Land Evaluation* 1981 and *Land Resources Now and for the Future* 1998 He is now Honorary Research Fellow in Environmental Sciences at the University of East Anglia **L'intensification agricole au Sahel** Henk Breman, 1998-01-01
L agriculture de l Afrique subsaharienne est de faible productivité Son développement stagne tandis que la croissance démographique est alarmante Cette situation résulte de contraintes agro écologiques notamment de la pauvreté naturelle des sols d un climat difficile cause d une saison de croissance peu certaine et d une faible contribution des plantes perennées ne permettant pas le maintien d un taux suffisant de matières organiques dans le sol L utilisation des engrais est avérée indispensable pour lutter contre l épuisement des sols assurer la sécurité alimentaire et faire de l agriculture un des moteurs du développement économique A ces éléments structurels s ajoute l état des infrastructures et des réseaux de distribution qui

multiplient les coûts et mettent en péril la compétitivité de l'agriculture tant sur le marché national que face aux marchés mondiaux. Ce livre propose une approche permettant de résoudre ou de contourner ces problèmes. Il présente la co-intensification définie comme une intégration des éléments de l'agriculture intensive basée sur l'utilisation d'engrais et autres intrants externes source d'une augmentation des rendements et de l'agriculture écologique. Un deuxième élément est l'intégration agriculture-levage comme outil de rentabilisation des intrants externes. Ces deux outils et leur efficacité respective sont analysés en détail d'un point de vue technique en lien avec les conditions socio-économiques de la région. La diversité des approches et des résultats de recherches présentés dans cet ouvrage donnera au lecteur un aperçu global des multiples efforts déployés en matière d'intensification. Il apporte aussi une série d'outils utilisés pour les investigations en matière d'intensification et de stratégies de gestion adéquate des ressources naturelles. Il est particulièrement destiné aux chercheurs, techniciens et décideurs impliqués dans la promotion d'un développement agricole durable en Afrique au sud du Sahara.
