A Lacanian Conception of Populism Timothy Appleton, 2023-09-01 A Lacanian Conception of Populism takes issue with traditional theories of populism which seek to equate populism with hegemony arguing that these are not only different but even incompatible logics Timothy Appleton contends that one of the main differences between populism and hegemony has to do with the social totality while hegemony absolutises it populism eviscerates it setting in its place an apparently paradoxical dispersion of singular instances of the people The book considers the work of Laclau Badiou and Rancière before arriving at a novel conceptualisation that Appleton dubs the populism of singularities In the second half of the book the author draws out the consequences of this concept for contemporary political theory the question of how to define left and right the question of popular enthusiasm and affect truth versus post truth the question of leadership populism and nationalism and the relation between populism and political parties A Lacanian Conception of Populism will be key reading for academics and scholars of political theory political philosophy post Marxist thought discourse theory and psychoanalysis It will also be of interest to those working in the areas of populism studies cultural studies gender studies and queer theory

Discourse, Culture and Organization Tomas Marttila, 2018-09-22 This edited volume brings together leading international researchers from across the social sciences to examine the theoretical premises methodological options and critical potentials of the Essex School of discourse analysis founded on the work of Ernesto Laclau and Chantal Mouffe In doing so it presents a clear picture of a poststructuralist and post foundational research program to postdisciplinary discourse research Divided into three parts it begins by elaborating the ontological theoretical and methodological foundations of the Essex School s approach to discourse analysis The second part provides empirical case studies showing how the Essex School research program informs and instructs empirical discourse research In the concluding third part authors explain how and with what possible consequences this strand of discourse research contributes to social practices of critique It offers a crucial contribution to the further methodologization and operationalization of the Essex School s approach so as to make it a viable alternative to discourse analytical approaches that take dominant positions in today s field of discourse studies The book s transdisciplinary focus will attract readers who use

discourse analysis in all areas of the social sciences and humanities particularly applied linguistics cultural anthropology sociology philosophy and history *A Handbook of Anglo-Saxon Studies* Jacqueline Stodnick, Renée Trilling, 2012-08-08

Reflecting the profound impact of critical theory on the study of the humanities this collection of original essays examines the texts and artifacts of the Anglo Saxon period through key theoretical terms such as ethnicity and gender Explores the interplay between critical theory and Anglo Saxon studies Theoretical framework will appeal to specialist scholars as well as those new to the field Includes an afterword on the value of the dialogue between Anglo Saxon studies and critical theory

Liberating Histories Claire Norton, Mark Donnelly, 2018-07-11 *Liberating Histories* makes an original scholarly contribution to contemporary debates surrounding the cultural and political relevance of historical practices Arguing against the idea that specifically historical readings of the past are necessary or are compelled by the force of past events themselves this book instead focuses on other forms of past talk and how they function in politically empowering ways against social injustices Challenging the authority and constraints of academic history over the past this book explores various forms of past talk including art films activism memory nostalgia and archives Across seven clear chapters Claire Norton and Mark Donnelly show how activists and campaigners have used forms of past talk to unsettle common sense thinking about political and social problems how journalists artists curators filmmakers and performers have referenced the past in their practices of advocacy and how grassroots archivists help to circulate materials that challenge the power of authorised institutional archives to determine what gets to count as a demonstrable feature of the past and whose voices are part of the historical record Written in a lucid accessible manner and combining insightful critical analysis and philosophical argument with clear consideration of how different forms of past talk influence the narration of pasts in a variety of socio political contexts *Liberating Histories* is essential reading for students and scholars with an interest in historiography and the ethical and political dimensions of the historical discipline **A Poststructuralist Discourse Theory of Global Politics** Dirk

Nabers, 2015-10-07 This book develops a discourse theory of crisis and change in global politics Crisis is conceptualized as structural dislocation resting on difference and incompleteness Change is seen as the continuous but ultimately futile effort to gain a full identity The incompleteness and contingent character of the social represents the most important condition for democratic politics to become possible and for a theory of crisis and change to become conceivable In this new understanding crisis loses its everyday meaning of a periodically occurring event Instead crisis becomes an omnipresent feature of the social fabric It represents the absence of ground of social foundation and it rests within the subject as well as within the social whole **Post-Truth, Fake News and Democracy** Johan Farkas, Jannick Schou, 2019-08-23 Western

societies are under siege as fake news post truth and alternative facts are undermining the very core of democracy This dystopian narrative is currently circulated by intellectuals journalists and policy makers worldwide In this book Johan Farkas and Jannick Schou deliver a comprehensive study of post truth discourses They critically map the normative ideas contained

in these and present a forceful call for deepening democracy The dominant narrative of our time is that democracy is in a state of emergency caused by social media changes to journalism and misinformed masses This crisis needs to be resolved by reinstating truth at the heart of democracy even if this means curtailing civic participation and popular sovereignty Engaging with critical political philosophy Farkas and Schou argue that these solutions neglect the fact that democracy has never been about truth alone it is equally about the voice of the democratic people Post Truth Fake News and Democracy delivers a sobering diagnosis of our times It maps contemporary discourses on truth and democracy foregrounds their normative foundations and connects these to historical changes within liberal democracies The book will be of interest to students and scholars studying the current state and future of democracy as well as to a politically informed readership

Post-Foundational Discourse Analysis Tomas Marttila, 2015-10-19 This book adds the missing link between post foundational discourse theory and the methods of empirical research and in doing so it develops a post foundational discourse analysis research program The book offers a structure of the research program and explores the methodologization of other discourse analytical approaches After Poststructuralism Rosi Braidotti, 2014-09-11 The end of the Cold War revitalised continental philosophy and more particularly interest in it from outside philosophy After Poststructuralism Transitions and Transformations analyses the main developments in continental philosophy between 1980 1995 a time of great upheaval and profound social change The volume ranges across the birth of postmodernism the differing traditions of France Germany and Italy third generation critical theory radical democracy postcolonial philosophy the turn to ethics feminist philosophies the increasing engagement with religion and the rise of performativity and post analytic philosophy Analyses of the major figures are integrated within the discussion After Poststructuralism reveals how continental philosophy fuelled by an intense ethical and political desire to reflect changing social and political conditions responded to the changing world and to the key issues of the time notably globalisation technology and ethnicity **Global Crisis** Nadine Klopff, 2023-02-17 The book develops a novel framework for the analysis of global crises It differentiates crises on three dimensions permanent recurring and ephemeral crises This conceptualization allows us to analyze global crises not only in their immediate environment but makes it possible to understand them in the broader context of social instability The approach revolves around the terminology of discursive dislocation which provides fundamental insights into diverse forms of social instability A multidimensional conceptualization of dislocation is advanced which informs the differentiation of global crises Furthermore a methodological toolkit is developed and tailored to the theoretical framework which makes it possible to utilize the book both theoretically and methodologically for the analysis of manifold forms of global crises The book also provides a comprehensive analysis of the Covid 19 pandemic in the United States under Donald Trump Making use of the aforementioned methodology it presents a hands on illustration of how the multidimensional framework can be utilized for practical analyses The analysis reveals how the construction of the Covid 19 pandemic is embedded in the historically

ingrained self portrayal of the United States and how crisis responses are invoked to serve particular socio political purposes in retaining an established vision of the United States Hegemony and Heteronormativity María do Mar Castro

Varela,2016-04-22 This book reflects on the political in queer theory and politics by revisiting two of its key categories hegemony and heteronormativity It explores the specific insights offered by these categories and the ways in which they augment the analysis of power and domination from a queer perspective whilst also examining the possibilities for political analysis and strategy building provided by theories of hegemony and heteronormativity Moreover in addressing these issues the book strives to rethink the understanding of the term queer so as to avoid narrowing queer politics to a critique of normative heterosexuality and the rigid gender binary By looking at the interplay between hegemony and heteronormativity this ground breaking volume presents new possibilities of reconceptualizing the political from a queer perspective

Investigating the effects of queer politics not only on subjectivities and intimate personal relations but also on institutions socio cultural processes and global politics this book will be of interest to those working in the fields of critical theory gender and sexuality queer theory postcolonial studies and feminist political theory From Text to Political Positions Bertie Kaal,Isa Maks,Annemarie van Elfrinkhof,2014-05-15 From Text to Political Positions addresses cross disciplinary innovation in political text analysis for party positioning Drawing on political science computational methods and discourse analysis it presents a diverse collection of analytical models including pure quantitative and qualitative approaches By bringing together the prevailing text analysis methods from each discipline the volume aims to alert researchers to new and exciting possibilities of text analyses across their own disciplinary boundary The volume builds on the fact that each of the disciplines has a common interest in extracting information from political texts The focus on political texts thus facilitates interdisciplinary cross overs The volume also includes chapters combining methods as examples of cross disciplinary endeavours These chapters present an open discussion of the constraints and disadvantages of either quantitative or qualitative methods when evaluating the possibilities of combining analytic tools **The Sociology of Postmarxism**

Richard Howson,2017-05-18 Postmarxism s broad project since its beginning has been about rescuing Marxism from the global collapse of Marxist praxis by re thinking the fundamentalism and determinism that marked classical Marxist theory but that no longer represents Western politico social reality The Sociology of Postmarxism is located within the broad corpus of work that has applied a sociological reading to theoretical and empirical categories Its specific aim within this literature is to develop a reflexive sociology that is informed by and informs politics The political theory of postmarxism and social capital theory will be crucial mediators in this development **Islamism and the Quest for Hegemony in Indonesia** Luqman

Nul Hakim,2023-02-25 This book examines the failure of Islamic politics in becoming a hegemonic force in Indonesia and the far reaching consequences for current practices of democracy and of Islam itself In contrast to the thesis of compatibility between Islam and democracy following the dominant discourse of the Global War on Terror GWOT and neoliberal

democracy this study situates Islamic politics in broader social settings by examining its nature and trajectories throughout Indonesia's modern political history. The book thus investigates how the practices of Islamic politics or Islamism have shaped and been transformed through political contestations and the formation of coalitions of multiple forces in constructing Indonesia's socio-political landscape. Using the concept of hegemony from poststructuralist discourse theory, the analytical framework applied in this book goes beyond liberal epistemologies of Islamism that prescribe the separation of religion from politics and treat Islamism as an object of intervention. Instead, the book is premised on the contention that Indonesia is a political construction in which Islam has become one of the major discourses that have defined and transformed Indonesia's nation-state throughout history. In this view, it is argued that the nature and dynamics of Islamism are not driven primarily by different interpretations of religious doctrines, cultural norms, or by the imperative of institutions. Rather, the struggles of different Islamist projects in their quest for hegemony are contingent on the outcomes of socio-political changes and contestations that involve multiple political forces both within and beyond the Islamists in specific historical conjunctures.

Posthegemony Jon Beasley-Murray, 2010. A challenging new work of cultural and political theory rethinks the concept of hegemony.

Deconstructing Popular Culture Paul Bowman, 2017-09-16. Popular culture permeates every aspect of our lives, from the music we listen to, the films and television shows we watch, and the books we read. But who decides what counts as popular culture? Why is it so important? And how do we go about studying it? This book provides a comprehensive introduction to popular culture and examines the problems and possibilities of studying this fast-changing field. Employing a unique approach, Bowman uses techniques of deconstruction to unpick, analyse, and deconstruct contemporary examples of popular culture. The book looks at music, Hollywood film, and the self-help movement to question claims behind the importance of popular culture and encourages readers to form their own interpretations of the culture they experience every day. With theory interwoven throughout but in a way that is barely noticeable to the reader, the book provides the important theoretical work in the field whilst directing the reader through ways to avoid common pitfalls in studying theory. An innovative user guide and glossary explain essential terms and ideas, making difficult concepts relevant, accessible, and interesting. This witty, thought-provoking book provides a clear, novel introduction to popular culture for all students of cultural studies, media studies, and sociology.
