McCrone,2024-11-01 First published in 1988 This study can be situated within the history of women women s education women s rights sport leisure and recreation Its aim is not to establish or submit to review what is known or thought to be known about the Victorian world view and woman s place within it but rather to investigate reactions against this view and the emergence of a counter view through sport and exercise An attempt is made to rescue the English sportswoman from the obscuring mists of the past to discuss her as a transitional figure between opposing views of womanhood and to place her within the context of the general movement for the emancipation of women as an important effect and cause without necessarily assuming what women s status in sport and in society should have been      *Athletic and Sport Issues in Musculoskeletal Rehabilitation* David J.
