to Forbes Midas List the annual ranking of the most successful dealmakers in venture capital In 2007 out of concern for their preservation Campbell White rashly sold the Connolly titles she had spent more than twenty years assembling leading to a new appreciation of what remained of her collection and going forward a broader focus on collecting modernist letters manuscripts and ephemera Beyond Market Value is both a loving tribute to literary collecting and a telling account of the challenges of being a woman in the male dominated world of finance **Print Cultures** Caroline Davis,2019-07-23 This reader is the most comprehensive selection of key texts on twentieth and twenty first century print culture yet compiled Illuminating the networks and processes that have shaped reading writing and publishing the selected extracts also examine the effect of printed and digital texts on society Featuring a general introduction to contemporary print culture and publishing studies the volume includes 42 influential and innovative pieces of writing arranged around themes such as authorship women and print culture colonial and postcolonial publishing and globalisation Offering a concise survey of critical work this volume is an essential companion for students of literature or publishing with an interest in the history of the book **Lady Chatterley's Lover and A Propos of 'Lady Chatterley's Lover'** D. Brewer, Stephen Colclough, Sian Echard, Zachary Lesser, 2018-12-12 Introduces readers to the history of books in Britain their significance influence and current and future status Presented as a comprehensive up to date narrative The Book in Britain A Historical Introduction explores the impact of books manuscripts and other kinds of material texts on the cultures and societies of the British Isles The text clearly explains the technicalities of printing and publishing and discusses the formal elements of books and manuscripts which are necessary to facilitate an understanding of that impact This collaboratively authored narrative history combines the knowledge and expertise of five scholars who seek to answer questions such as How does the material form of a text affect its meaning How do books shape political and religious movements How have the economics of the book trade and copyright shaped the literary canon Who has been included in and excluded from the world of books and why The Book in Britain A Historical Introduction will appeal to all scholars students and historians interested in the written word and its continued production and presentation *The Rise of the Modernist Bookshop* Huw Osborne, 2016-03-09 The trade in books has always been and remains an ambiguous commercial activity associated as it is with literature and the exchange of ideas This collection is concerned with the cultural and economic roles of independent bookstores and it considers how eight shops founded during the modernist era provided distinctive spaces of literary production that exceeded and yet never escaped their commercial functions As the contributors show these booksellers were essential institutional players in literary networks When the eight shops examined first opened their doors their relevance to literary and commercial life was taken for granted In our current context of box stores online shopping and ebooks we no longer encounter the book as we did as recently as twenty years ago By contributing to our understanding of bookshops as unique social spaces on the thresholds of commerce and culture this volume helps to lay the groundwork for comprehending how our relationship to books and literature has been and will be affected by the physical changes to the reading experience taking place in the twenty first century Blood Lines Sheila Marie Contreras, 2009-07-21 2009 Runner up Modern Language Association Prize in United States Latina and Latino and Chicana and Chicano Literary and Cultural Studies Blood Lines Myth Indigenism and Chicana o Literature examines a broad array of texts that have contributed to the formation of an indigenous strand of Chicano cultural politics In particular this book exposes the ethnographic and poetic discourses that shaped the aesthetics and stylistics of Chicano nationalism and Chicana feminism Contreras offers original perspectives on writers ranging from Alurista and Gloria Anzald a to Lorna Dee Cervantes and Alma Luz Villanueva effectively marking the invocation of a Chicano indigeneity whose foundations and formulations can be linked to U S and British modernist writing By highlighting intertextualities such as those between Anzald a and D H Lawrence Contreras critiques the resilience of primitivism in the Mexican borderlands She questions established cultural perspectives on the native which paradoxically

challenge and reaffirm racialized representations of Indians in the Americas In doing so Blood Lines brings a new understanding to the contradictory and richly textured literary relationship that links the projects of European modernism and Anglo American authors on the one hand and the imaginary of the post revolutionary Mexican state and Chicano a writers on the other hand
