Joseph, Jill Lewis, 1986 An unprecedented scholarship Exceptional Human Experience analysis of an alarming schism in the wome s movement the differences between black and white women s perspectives attitudes and concerns It presents an overview of women's status through history and discusses the vital issues where common differences occur sexuality men and marriage mothers and daughters media images and the direction of the movement itself Woman and Nature Susan Griffin, 2016-08-22 In this famously provocative cornerstone of feminist literature Susan Griffin explores the identification of women with the earth both as sustenance for humanity and as victim of male rage Starting from Plato's fateful division of the world into spirit and matter her analysis of how patriarchal Western philosophy and religion have used language and science to bolster their power over both women and nature is brilliant and persuasive coming alive in poetic prose Griffin draws on an astonishing range of sources from timbering manuals to medical texts to Scripture and classical literature in showing how destructive has been the impulse to disembody the human soul and how the long separated might once more be rejoined Poet Adrienne Rich calls Woman and Nature perhaps the most extraordinary nonfiction work to have merged from the matrix of contemporary female consciousness a fusion of patriarchal science ecology female history and feminism written by a poet who has created a new form for her vision The book has the impact of a great film or a fresco yet it is intimately personal touching to the quick of woman's experience On Nursing Margretta M. Miller-McLemore, 2012-02-02 For the past fifty years scholars in both pastoral and practical theology have attempted to recapture human religious experience and practice as essential sites for theological engagement redefining in the process what theology is how it is done and who does it In this book Bonnie J Miller McLemore shows how this trend in scholarship has led to an expanded subject matter alternative ways of knowing and richer terms for analysis in doing Christian theology Tracing more than two decades of her own search for a more inclusive discipline one that truly grapples with theology in the midst of life Christian Theology in Practice shows not only where Miller McLemore herself has traveled in the field but also how pastoral and practical theology has developed during this time Looking forward Miller McLemore calls on the academy and Christian congregations to disrupt conventional theological boundaries and to acknowledge the multiplicity of shapes and places in which the wisdom of God appears Post-Christian Feminisms Lisa Isherwood, 2016-04-08 This book explores the impact and contribution of post theories in the field of Christian feminist theology Post theory is an important and cutting edge discursive field which has revolutionized the production of knowledge in both feminism and theology This book fills a gap by providing a text that can make authoritative statements on the use and status of post theory in feminist theology and secondly it makes an on going contribution to the discourse of Christian feminist theology and its liberation agenda Distinguished and established scholars contribute conclusive essays on the most recent and exciting developments in post theory feminism and theology Feminism and Its Fictions Lisa Maria Hogeland, 2016-11-11 During the 1970s thousands of American women met regularly in small groups to talk about the injustices they experienced in their private lives and how those personal injustices related to the broad based political

oppression of women They called this cultural work consciousness raising Women's and feminist fiction of the 1970s was dominated by a new kind of novel whose content and form were shaped by the practice of consciousness raising Lisa Maria Hogeland contends that consciousness raising novels both reflected and furthered the Women's Liberation Movement's analyses of sexuality gender race and political responsibility and that through their narrative structure the novels actually engaged in consciousness raising with their readers Using a broad range of fiction including works by Erica Jong Marilyn French Marge Piercy Alix Kates Shulman Alison Lurie Joanna Russ and Joan Didion Hogeland explores the ways in which consciousness raising novels addressed some of the most important questions raised by second wave feminism **Feminist Companion to Reading the Bible** Athalya Brenner, Carole Fontaine, 2013-08-16 This valuable resource both presents and demonstrates the numerous developments in feminist criticsm of the Bible and the enormous rage of influence that feminist criticism has come to have in biblical studies The purpose of the book is to raise issues of method that are largely glossed over or merely implied in most non feminist works on the Bible The editors have included broadly theoretical essays on feminist methods and the various roles they may play in research and pedagogy as well as non feminist essays that have direct bearing on the methods or subject matter that feminists use as well as reading that illustrate the variety of methodological strategies adopted by feminist scholars Some 30 scholars from North America and Europe have contributed to this Companion The Fat Jesus Lisa Isherwood, 2008 We are living in a food and body image obsessed culture We are encouraged to over consume by the marketing and media that surround us and then berated by those same forces for doing so At the same time we are bombarded with images of unnaturally thin celebrities who go to enormous lengths to retain an unrealistic body image either by extremes of dieting or through plastic surgery or both The spiritual realm is not immune from these pressures as can be seen in the flourishing of biblically and faith based weight loss programs that encourage women to lose weight physically and gain spiritually Isherwood examines this environment in light of Christian tradition which has often had a difficult relationship with sexuality and embodiment and which has promoted ideals of restraint and asceticism She argues that part of the reason for our current obsession and bizarre treatment of issues around weight size and looks is that secular society has unknowingly absorbed many of its negative attitudes towards the body from its Christian heritage Isherwood argues powerfully that there are resources within Christianity that can free us from this thinking and lead us towards a more holistic incarnational view of what it is to be human The Fat Jesus provides a fascinating study of the complex ways that food women and religion interconnect and proposes a theology of embrace and expansion emphasizing the fullness of our incarnation American Book Publishing Record Cumulative, 1950-1977 R.R. Bowker Company. Department of Bibliography, 1978 **From Motherhood to Mothering** Andrea O'Reilly, 2012-02-01 In the years since the publication of Adrienne Rich's Of Woman Born the topic of motherhood has emerged as a central issue in feminist scholarship Arquably still the best feminist book on mothering and motherhood Of Woman Born is not only a wide ranging far reaching meditation on

the meaning and experience of motherhood that draws from the disciplines of anthropology feminist theory psychology and literature but it also narrates Rich's personal reflections on her experiences of mothering Andrea O Reilly gathers feminist scholars from diverse disciplines such as literature women's studies law sociology anthropology creative writing and critical theory and examines how Of Woman Born has informed and influenced the way feminist scholarship thinks and talks about motherhood The contributors explore the many ways in which Rich provides the analytical tools to study and report upon the meaning and experience of motherhood The Manuscript Inventories and the Catalogs of Manuscripts, Books, and Periodicals: Book catalog, Pio-State L Arthur and Elizabeth Schlesinger Library on the History of Women in America, 1984
