Novaes, 2021-08-12 Geographers is an annual collection of studies on individuals who have made major contributions to the

development of geography and geographical thought Volume 39 celebrates the contribution of Hugh Clout to the discipline

The thirty ninth volume of Geographers Biobibliographical Studies adds significantly to the corpus of scholarship on

geography's multiple histories and biographies each chapter includes a select biography of its chosen figure and a brief

chronology of their work In this edition Hugh Clout memorialises the forgotten those who had made an important local

contribution which went unnoticed on the national stage or those who continued along the intellectual path blazed by one of

the discipline's major figures and thus helped to secure the reputation of that major figure In this collection of essays Clout

draws from used literary works reviews in the scholarly and other press obituaries in newspapers and geographical

publications funeral orations and papers in a large number of archives Each study includes a select bibliography and a brief chronology The work includes a general index and a cumulative index of geographers listed in volumes published to date As with other volumes in the series the purpose is not to evaluate but to present individuals and their contributions as they really were and in the context of their time Published under the auspices of the International Geographical Union **Lady Gregory's Journals 1916-30** Lennox Robinson, 1946 *An Unrecognized Contribution* Elizabeth Gillan Muir, 2022-10-18 A treasure trove of incredible lives lived RICK MERCER comedian and author Muir sets out to restore the faces of women who worked and struggled in nineteenth century Toronto A fascinating read WARREN CLEMENTS author and publisher Emphasizes the enormously influential role women had in laying the groundwork for life in the city today DR ROSE A DYSON author of *Mind Abuse Media Violence and Its Threat to Democracy* Women in nineteenth century Toronto were integral to the life of the growing city They contributed to the city's commerce and were owners of stores factories brickyards market gardens hotels and taverns as musicians painters and writers they were a large part of the city's cultural life and as nurses doctors religious workers and activists they strengthened the city's safety net for those who were most in need Their stories are told in this wide ranging collection of biographies the result of Muir's research on early street directories and city histories personal diaries and other historical works Muir references over four hundred women many of whom are discussed in detail and describes the work they undertook during a period of great change for Toronto Sessue Hayakawa Daisuke Miyao, 2007-03-28 Critical biography of Sessue Hayakawa a Japanese actor who became a popular silent film star in the U S that looks at how Hollywood treated issues of race and nationality in the early twentieth century *Hometown Horizons* Robert Allen Rutherford, 2004 In *Hometown Horizons* Robert Rutherford considers how people and communities on the Canadian home front perceived the Great War Drawing on newspaper archives and organizational documents he examines how farmers near Lethbridge Alberta shopkeepers in Guelph Ontario and civic workers in Trois Rivières Québec took part in local activities that connected their everyday lives to a tumultuous period in history Many important debates in social and cultural history are addressed including demonization of enemy aliens gendered fields of wartime philanthropy state authority and citizenship and commemoration and social memory The making of Canada's home front Rutherford argues was experienced fundamentally through local means City parades military send offs public school events women's war relief efforts and many other public exercises became the parochial lenses through which a distant war was viewed Like no other book before it this work argues that these experiences were the true realities of war and that the old maxim that truth is war's first victim needs to be understood even in the international and imperialistic Great War as a profoundly local phenomenon *Hometown Horizons* contributes to a growing body of work on the social and cultural histories of the First World War and challenges historians to consider the place of everyday modes of communication in forming collective understandings of world events This history of a war imagined will find an eager readership among social and military historians cultural

studies scholars and anyone with an interest in wartime Canada      Death and Rebirth in a Southern City Ryan K. Smith, 2020-11-17 This exploration of Richmond's burial landscape over the past 300 years reveals in illuminating detail how racism and the color line have consistently shaped death burial and remembrance in this storied Southern capital Richmond Virginia the former capital of the Confederacy holds one of the most dramatic landscapes of death in the nation Its burial grounds show the sweep of Southern history on an epic scale from the earliest English encounters with the Powhatan at the falls of the James River through slavery the Civil War and the long reckoning that followed And while the region's deathways and burial practices have developed in surprising directions over these centuries one element has remained stubbornly the same the color line But something different is happening now The latest phase of this history points to a quiet revolution taking place in Virginia and beyond Where white leaders long bolstered their heritage and authority with a disregard for the graves of the disenfranchised today activist groups have stepped forward to reorganize and reclaim the commemorative landscape for the remains of people of color and religious minorities In *Death and Rebirth in a Southern City* Ryan K Smith explores more than a dozen of Richmond's most historically and culturally significant cemeteries He traces the disparities between those grounds which have been well maintained preserving the legacies of privileged whites and those that have been worn away dug up and built over erasing the memories of African Americans and indigenous tribes Drawing on extensive oral histories and archival research Smith unearths the heritage of these marginalized communities and explains what the city must do to conserve these gravesites and bring racial equity to these arenas for public memory He also shows how the ongoing recovery efforts point to a redefinition of Confederate memory and the possibility of a rebirthed community in the symbolic center of the South The book encompasses among others St John's colonial churchyard African burial grounds in Shockoe Bottom and on Shockoe Hill Hebrew Cemetery Hollywood Cemetery with its 18 000 Confederate dead Richmond National Cemetery and Evergreen Cemetery home to tens of thousands of black burials from the Jim Crow era Smith's rich analysis of the surviving grounds documents many of these sites for the first time and is enhanced by an accompanying website [www.richmondcemeteries.org](http://www.richmondcemeteries.org) A brilliant example of public history *Death and Rebirth in a Southern City* reveals how cemeteries can frame changes in politics and society across time      **The Workers' Revolt in Canada,**

**1917-1925** Craig Heron, 1998-01-01 A clear concise portrait of one of the most dramatic moments in the history of working class life and class relations generally in Canada the upsurge of working class protest at the end of the First World War

**Zombie Army** Daniel Byers, 2016-07-21 *Zombie Army* tells the story of Canada's Second World War military conscripts reluctant soldiers pejoratively referred to as zombies for their perceived similarity to the mindless movie monsters of the 1930s As Byers argues although conscripts were only liable for home defence they also soon came to be a steady source of recruits for active duty overseas While Canadian generals were criticized for championing an overseas army too large to maintain through voluntary enlistment leading inevitably to calls to send conscripts to Europe until now there has been little

satisfactory explanation for why military leaders pushed for and why politicians accepted such a sizeable overseas force In the first full length book on the subject in almost forty years Byers combines underused and newly discovered records to argue that although conscripts were only liable for home defence they soon became a steady source of recruits from which the army found volunteers to serve overseas He also challenges the traditional nationalist dominated impression that Quebec participated only grudgingly in the war

**Retail Nation** Donica Belisle, 2011-02-15 The experience of walking down a store aisle replete with displays advertisements salespeople consumer goods and infinite choice is so common that we often forget retail stores barely existed a century ago Retail Nation traces Canada's transformation into a modern consumer nation back to an era when Eaton's Simpson's and the Hudson's Bay Company ruled the shopping scene Between 1890 and 1940 department stores revolutionized selling and shopping by parlaying cheap raw materials business friendly government policies and growing demand for low priced goods into retail empires that promised to strengthen the nation Some citizens found happiness and fulfillment in their aisles others experienced a cold shoulder and a closed door Retail Nation showcases department stores as agents of nationalism and modernization but reveals that the nation they helped to define white consumerist middle class was more limited and contested than nostalgic portraits of the early department store suggest
