Laeken Council:

Europe Stefania D'Avanzo, 2012-11-30 Following the entry into force of the Treaty of Amsterdam on 1 May 1999 and the European Council at Tampere in October 1999 the European Union committed itself to developing a common policy on immigration and asylum to ensure more effective management of migration flows to the EU From 2001 to 2005 Directives were introduced by the EU in order to guarantee refugees and displaced people civil and human rights and promote a balance of efforts between Member States in receiving such persons thus improving the process of harmonisation Nevertheless EU policy and legislation did not prove to be as effective as expected For example Europe's response to the crisis of displaced Iraqis has been hugely inadequate with European governments failing to fairly share the responsibility for Iraqi refugees with one another and with other countries around the world This study aims to investigate the extent to which the language employed in the Directives has contributed to the failure to adopt common procedures for guaranteeing refugees civil and human rights Particularly vagueness of lexis and legal concepts were investigated Vagueness in normative texts is a crucial issue People may not necessarily and not always be aware of vagueness in language use while in other cases they choose deliberately to be vague This holds particularly true for the use of vagueness in normative texts which are usually taken to have a high degree of precision Bhatia Engberg Gotti and Heller 2005 It is worth noting that in EU legislation Directives represent particular legislative instruments involved in EU harmonisation processes The Council of Ministers Fiona Hayes-Renshaw, Helen Wallace, 2017-09-16 The Council of Ministers provides a comprehensive analysis of the Council of Ministers how it works its varied activities functions and its relationships with the other key EU institutions and the member states It is a key legislative institution which lies at the fulcrum of decision making in the European Union

The Great Deception Christopher Booker, Richard North, 2021-08-19 Since its publication in 2003 The Great Deception has taken on the role of the Eurosceptics bible with the third edition helping to fuel the debate during the 2016 EU Referendum This fourth edition celebrates the moment when the UK broke away from the European Union having been extensively re edited to incorporate newly available archive material and updated to include the tumultuous events of recent years The Great Deception therefore tells for the first time the inside story of the most audacious political project of modern times from its intellectual beginnings in the 1920s when the blueprint for the European Union was first conceived by a British civil servant right up to the point when the UK resumes its path as an independent sovereign nation after 47 years of membership of the European project in its various guises Drawing on a wealth of new evidence and existing sources scarcely an episode of the story does not emerge in startling new light from the real reasons why de Gaulle kept Britain out in the 1960s to the fall of Mrs Thatcher and the build up to the referendum campaign which had its roots in the Maastricht Treaty The book chillingly shows how Britain's politicians were consistently outplayed in a game the rules of which they never understood It ends by evaluating the post referendum negotiations and asking whether this is the end of an episode or

just a new beginning The Rise and Fall of the European Constitution NW Barber, Maria Cahill, Richard Ekins, 2019-01-10 The Draft European Constitution was arguably both an attempt to constitutionalise the Union re framing that project in the language of the state and an attempt to stretch the boundaries of constitutionalism itself re imagining that concept to accommodate the sui generis European Union The partial failure of this project is the subject of this collection of essays The collection brings together leading EU constitutional scholars to consider with the benefit of hindsight the purportedly constitutional character of the proposed Constitutional Treaty the reasons for its rejection by voters in France and the Netherlands the ongoing implications of this episode for the European project and the lessons it teaches us about what constitutionalism really means *European Union* Richard McAllister, 2009-07 The new edition of this best selling text provides the most up to date single volume history of the European Union from its origins through to the present day Fully updated and revised throughout this is the ideal starting point for students and others wishing to read an accessible readable and comprehensive account of the development of the EU Topics new to this edition The impact of the Euro and economic and monetary union Analysis of post 9 11 splits in the EU over Afghanistan and Iraq and debates on the New European security order and the threat posed by terrorism The enlargement of the EU to 27 members and discussions over further expansion The initial failure of the EU Constitutional Treaty The growth in Euroscepticism across the continent An engaging contribution to the understanding of the past present and uncertain future of European integration European Union is essential reading for all students of European history European Union politics and International Relations Democracy Promotion and Foreign Policy D. Huber, 2015-04-26 Democracy promotion is an established principle in US and EU foreign policies today but how did it become so This comparative study explores the promotion of democracy focusing on exponents from emerging democracies alongside more established Western models and investigates the impact of democratic interests on foreign policy National Interests and European Integration K. Milzow, 2015-12-11 This study combines an account of Blair Chirac Schröder and their attitudes towards European integration It analyzes political discourses on national interests and the EU the frequently debated role of political discourse the concept of national interest and offers an alternative point of view on intergovernmental interaction **Foreign policy aspects of the Lisbon Treaty** Great Britain: Parliament: House of Commons: Foreign Affairs Committee, 2008-01-20 Although this report mainly examines the foreign policy aspects of the Lisbon Treaty the Committee makes some general comments on the process leading to signing of the Treaty Chapters examine the 2007 Intergovernmental Conference process foreign policy in that process foreign policy in the Lisbon Treaty new foreign policy posts the European External Action Service and the European Security and Defence Policy The Government should have provided more information to Parliament during Spring 2007 about its approach to the renewed EU Treaty reform process Parliament was entitled to expect adequate time to be consulted and to be able to make an input into the contents of the Treaty through the Government After the Treaty was finalised Parliament was also entitled to have

adequate time to make a thorough examination of the Treaty's detailed impact on the EU and the United Kingdom constitution. Parliament has been denied these opportunities on both counts. The procedure followed meant that the 2007 Intergovernmental Conference mandate was agreed with little scope for UK public or Parliamentary debate and engagement. This sets an unfortunate precedent which is damaging to the credibility of the institutional reform process itself. The Committee believes the creation of the post of High Representative for Foreign Affairs and Security Policy and of the European External Action Service represent major and significant innovations in the EU's foreign policy making machinery. These developments and two UK inspired Declarations on the Common Foreign and Security Policy are the only material differences between the provisions on foreign affairs in the Constitutional Treaty and those in the Lisbon Treaty.

The European Union Clive Archer, 2008-03-25 Making often complex concepts easily comprehended, this book enables the reader to quickly build a solid and well rounded understanding of the EU's history and present, covering key debates on Europe, the ambiguous relationship with the US, the EU's internal and external activities, structure and institutions, future developments and new directions. *The Past, Present and Future of the European Union* A. Deardorff, 2004-05-11 This volume collects selected papers on the European Union from the 13th Congress of the International Economic Association held in Lisbon, September 2002. It starts with an address by Romano Prodi, President of the European Commission, who sets the tone for the other papers by describing and evaluating two of the greatest accomplishments of the EU: economic and monetary union and EU enlargement. Other authors deal in detail with various aspects of these and other issues using a mixture of theoretical, empirical and other tools.

Building Europe Wilfried Loth, 2015-08-31 Relying on internal sources, Wilfried Loth analyses the birth and subsequent development of the European Union from the launch of the Council of Europe and the Schuman Declaration until the Euro crisis and the contested European presidential election of Jean-Claude Juncker. This book shines a light on the crises of the European integration, such as the failure of the European Defence Community, De Gaulle's empty chair policy or the rejection of the European Constitution in France and the Netherlands, but also highlights the indubitable successes that are the Franco-German reconciliation, the establishment of the European common market and the establishment of an expanding common currency. What this study accomplishes for the first time is to illuminate the driving forces behind the European integration process and how it changed European politics and society. An enlightening work, required reading for all who doubt the unfinished history of Europe. Rolf Steininger, *Frankfurter Allgemeine Zeitung*. This book will become an indispensable standard work. Jörg Himmelreich, *Neue Zürcher Zeitung*.

The Struggle for the European Constitution Michael O'Neill, 2008-11-28 The European Union (EU) Constitution is one of the most important developments in the history of the EU. The Constitution aims to make the EU more transparent, relevant and accountable to the citizens of its member states. The European Constitution provides the most comprehensive account of why the Constitution developed and what its implications are. *EU Enlargement and Socialization* Stefan Engert, 2010-02-25
