**Pigeon Religion: Holy Spirit, Is That You?** R. T. Kendall, 2016 If the dove is the symbol of the authentic Holy Spirit then the pigeon is the symbol of the counterfeit spirit Unfortunately many of the claims to the presence of the dove among us are nothing but pigeon religion Back cover **Religion and Psychology in Transition** James W. Jones, 2008-10-01 In this thought provoking book clinical psychologist and professor of religious studies James W Jones presents a dialogue between contemporary psychoanalytic thinking and contemporary theology He sheds new light on the interaction of religion and psychology by viewing it from the perspective of world religions providing an epistemological framework for the psychology of religion that draws on contemporary philosophy of science and bringing out the importance of gender as a category of analysis Developments in psychoanalysis provide new resources for theological reflection Jones contends The Freudian view that human nature is isolated and instinctual has shifted to a vision of the self as constituted in and through relationships Jones uses this relational model of human nature to explore the convergence between contemporary psychoanalysis feminist theorizing and themes in religious thought found in a variety of traditions He also critiques the reductionism inherent in

Freud's discussion of religion and proposes nonreductionistic and genuinely psychoanalytic ways for psychoanalysis to treat religious topics. For therapists, psychologists, theologians, and others interested in spiritual or psychological issues, Jones offers illuminating clinical material and insightful analysis.

**Packer on the Christian Life** Sam Storms, 2015-06-30. Widely recognized as a pillar of 20th-century evangelicalism, J. I. Packer has had a profound impact on millions of Christians living today. Now in his late eighties, Packer still exerts an enormous influence on pastors and laypeople around the world through his many books, articles, and recorded lectures, works that overflow with spiritual wisdom related to the Christian life. In the latest addition to Crossway's growing Theologians on the Christian Life series, well-known pastor Sam Storms examines Packer's legacy when it comes to the Christian and sanctification. Whether exploring Packer's insights into prayer, Bible study, the sovereignty of God, or the Christian's fight against sin, this accessible book offers readers the chance to learn from the best of Packer's thinking on what true godliness really entails. Part of the Theologians on the Christian Life series. The Sociology of Religion George Lundskow, 2008-06-10. Most Sociology of Religion texts are decidedly staid and uninteresting, covering contemporary developments which are only contemporary only from a disciplinary perspective. They are not contemporary if viewed from the perspective of the religion's practitioners in religious and non-religious settings. The textbooks that attempt to be interesting to undergraduate students often fall short because they either try to cover too much in an encyclopedic format or sacrifice a sociological perspective for a personal one. Many use real-life examples only superficially to illustrate concepts. Lundskow's approach is the opposite: students will learn the facts of religion in its great diversity, all the most interesting and compelling beliefs and practices, and then learn relevant concepts that can be used to explain empirical observations. The book thus follows the logic of actual research: investigate and then analyze rather than approaching concepts with no real bearing on how religion is experienced in society. This approach, using provocative examples and with an eye toward the historical and theoretical, not to mention global experience of religion, will make this book a success in the classroom. The author envisions a substantive approach that examines religion as it actually exists in all its forms, including belief, ritual, daily living, identity, institutions, social movements, social control, and social change. Within these broad categories, the book will devote particular chapters to important historical moments and movements, leaders, and various individual religions that have shaped the contemporary form and effect of religion in the world today.

*Faith and Media* Hans Geybels, Sara Mels, Michel Walrave, 2009. In the past, ideologies and religions had a real impact on the media. In the current era of mass media and communication strategies, perception takes priority over identity, and new questions arise: how to introduce faith and religion in a pluralising and detraditionalising world? What possibilities are offered by the new media? How can technical innovations be incorporated in church communication? Following the conference *Belief in the Media* (April 2007), this publication focuses on the gap between the language of faith and the language of the general media. The different contributors analyse from within but also from outside a church context the historical changes and challenges the

Catholic Church and other faiths and denominations face with regard to their social communication and media strategies. However, it is not only the relationship of religious institutions with the media that is at stake but also the way in which the media cover topics such as the Middle East Muslim immigrant populations in Europe and the World Youth Day. Journalists have to find new ways to get a grip on these issues too.

### **Listening, Religion, and Democracy in Contemporary**

**Boston** William W. Young III, 2018-11-01 This book is a study of religious practices of listening in the Boston area. Through an ethnographic study of a variety of religious communities with an extensive focus on Quaker listening, it argues that religious practice shapes our habits of listening by creating a plurality of regimes of listening across Boston's landscape. These practices moreover cultivate specific dispositions as well as distinct patterns of religious and democratic virtues. Through these dispositions and virtues, religious listening facilitates a diverse range of forms of democratic engagement and varied contributions to the pursuit of social justice. William Young provides an innovative interpretation of these religious practices. It argues that insofar as religious listening helps practitioners to extend and amplify their listening and makes them more responsive to their communities, it creates a social mode of embodied receptivity and agency. Through both their listening and their actions, these groups express their conceptions of divinity, embodying divine attributes and activity within the sociopolitical realm, serving as God's ears within the world. It is by interpreting their practices as creating modes of social discipline, reception, and agency that the book explicates the full significance of religious listening in its adaptations and extensions of our aural capacities and their implications for sociopolitical life.

### *Progressive Rock, Religion, and Theology*

Frank Felice, James F. McGrath, 2024-10-11 *Progressive Rock Religion and Theology* examines progressive rock music's engagement with theology and religion, which spans an array of artists and songs from its early days to the present. Co-written by a musician and a professor of religious studies, this book looks closely not only at lyrics but at the music itself and how the two together serve to foster the exploration of religious and spiritual themes from a wide array of angles. Each chapter covers a key song by ELP, Yes, Genesis, Jethro Tull, Kansas, Rush, and Neal Morse, as well as tracing the themes from those songs into other works by the same artist and the music of others. Readers will get to know music that is familiar to them through an academic lens and will discover that its engagement with theological ideas, if not typically informed by study of academic theologians, is nonetheless at times both intellectually rigorous and profoundly insightful.

*Radical Religion and Violence* Jeffrey Kaplan, 2015-11-19 Jeffrey Kaplan has been one of the most influential scholars of new religious movements, extremism, and terrorism. His pioneering use of interpretive fieldwork among radical and violent subcultures opened up new fields of scholarship and vastly increased our understanding of the beliefs and activities of extremists. This collection features many of his seminal contributions to the field alongside several new pieces which place his work within the context of the latest research developments. Combining discussion of the methodological issues alongside a broad array of case studies, this will be essential reading for all students and scholars of extremism, religion, and politics, and terrorism.

The Impact of the Family John Witte, Michael Welker, Stephen Pickard, 2022-02-22 The family is humanity's oldest and most basic social institution but today it is fragile, fractured and fraught in many liberal lands. This volume gathers scholars from sociology, psychology, history, religion, ethics, law and medicine from five continents to analyze the complex nature and place of the family in character formation and human flourishing. The chapters study the impact of catechesis, schooling, work and discipline on the development of individual moral agency and responsibility. They document the critical roles of family love, trust, fidelity and story telling in shaping the moral character of all family members from infancy to old age. They describe effective strategies of resistance and resilience for family members who face abuse, divorce, death, chauvinism, racism and homophobia. And several chapters challenge modern arguments and policies that aim to flatten if not abolish the marital family, even while they call for family law reforms. Contributions by Enola G. Aird, Helen Alvar, Robert N. Bellah, Margaret Jane Brining, Michael J. Broyde, Marcia Bunge, Stephen Carter, Jean Bethke Elshtain, Robyn Fivush, Patrick Hornbeck, Andreas Kruse, Nadia Marais, Gordon Mikoski, Bonnie Miller-McLemore, Patrick Parkinson, Katja Patzel, Mattern, Sabina Pauen, Stephen G. Repackaging Christianity Andrew Atherstone, 2022-07-21 The story of Alpha is of major significance for understanding the place of religious faith in the modern world but that story has never been told until now. Since its launch in 1993, the Alpha movement has evolved from supper party evangelism in the Kensington suburbs into a global brand of Christian outreach. Today over a million people attend Alpha every year but the history of its rise to popularity has never been documented. What caused such spiritual renewal in an age of scepticism? And what propelled Alpha into a phenomenon that is recognised across the globe? Alpha is far more than an introductory course to Christianity. At the core of its brand identity is a repackaging of the Christian message for contemporary audiences. Innovation and cultural adaptability are built into Alpha's DNA, one of the chief reasons for its longevity and influence. Nimble, utilising the multimedia and digital revolutions, it has contextualised itself into cultures and languages across the planet. And led by charismatic, savvy individuals, it has attracted people from across the social spectrum, making waves in national media. Andrew Atherstone leaves no stone unturned as he presents this fascinating history. With exclusive access to original archives, Atherstone recounts the miraculous stories of HTB's early years, the first full account of Nicky Gumbel's conversion and the strategic decisions that launched Alpha onto the global stage of Christian influence. With sharp historical analysis, Andrew Atherstone uncovers the story of Christian resurgence in our contemporary age.

Sex and the Soul, Updated Edition Donna Freitas, 2015 First published in 2008, Donna Freitas's *Sex and the Soul* achieved national acclaim, illuminating the as yet unexplored struggles of college students navigating the lines of faith and sexuality. Conducting face-to-face interviews at a wide range of colleges and universities, from public to private, Catholic to evangelical, Freitas discovers what students really think about these highly personal subjects. Their stories will not only engage readers but in many cases move them with the painful struggles these candid young women and men face. This updated edition includes a new Afterword in which Freitas

reflects on the hundreds of conversations she has had with college students since the book was first published and offers further practical advice for dealing with hookup culture      *Generating Generosity in Catholicism and Islam* Carolyn M. Warner, Ramazan Kiliç, Christopher W. Hale, Adam B. Cohen, 2018-05-10 Using field experiments and case studies this book investigates the institutions and beliefs within Catholicism and Islam that prompt generosity      **The Rough Guide to Trinidad and Tobago** Dominique De-Light, Polly Thomas, 2001 A handbook to the diverse Caribbean nation that comprises the small island of Tobago and its more rural and much larger neighbour Trinidad Features include critical listings of the best places to stay and eat practical tips on how to explore and coverage of the islands cultural life including Trinidad's world famous carnival traditional Indian festivals indigenous music and local folklore The guide also provides tips on birdwatching and exploring forested peaks and mangrove flats as well as diving and snorkelling      **The Atheist Bus Campaign** Steven Tomlins, Spencer Bullivant, 2016-11-01 The international Atheist Bus Campaign generated news coverage and controversy and this volume is the first to systematically and thoroughly explore and analyze each manifestation of that campaign It includes a chapter for each of the countries which enacted or attempted to enact localized versions of the original United Kingdom campaign which ran the slogan There's Probably No God Now Stop Worrying and Enjoy Your Life prominently on public buses Its novel focus using a singular micro level event as a prism for analysis allows for cross country comparison of legal and social reactions to each campaign as well as an understanding of issues pertaining to the historical and contemporary status of religion and the regulation of nonreligion in various national settings Contributors are Katie Aston Nikolina Hazdovac Baji Lori G Beaman Spencer Culham Bullivant Ryan T Cragun Leon Dempsey Eduardo Dullo Vanni Gasbarri Magnus Hedelind Casey P Homan William James Hoverd Dinka Marinovic Jerolimov Teuvo Laitila Hanna Lehtinen Marcus Mann Javier Martinez Torron Björn Mastiaux Paula Montero Alan Nixon Katja Strehle Teemu Taira Steven Tomlins and Silvia Meseguer Velasco      **Science Vs. Religion** Elaine Howard Ecklund, 2010-05-06 That the longstanding antagonism between science and religion is irreconcilable has been taken for granted And in the wake of recent controversies over teaching intelligent design and the ethics of stem cell research the divide seems as unbridgeable as ever In *Science vs Religion* Elaine Howard Ecklund investigates this unexamined assumption in the first systematic study of what scientists actually think and feel about religion In the course of her research Ecklund surveyed nearly 1 700 scientists and interviewed 275 of them She finds that most of what we believe about the faith lives of elite scientists is wrong Nearly 50 percent of them are religious Many others are what she calls spiritual entrepreneurs seeking creative ways to work with the tensions between science and faith outside the constraints of traditional religion The book centers around vivid portraits of 10 representative men and women working in the natural and social sciences at top American research universities Ecklund's respondents run the gamut from Margaret a chemist who teaches a Sunday school class to Arik a physicist who chose not to believe in God well before he decided to become a scientist Only a small minority are actively hostile to religion Ecklund

reveals how scientists believers and skeptics alike are struggling to engage the increasing number of religious students in their classrooms and argues that many scientists are searching for boundary pioneers to cross the picket lines separating science and religion With broad implications for education science funding and the thorny ethical questions surrounding stem cell research cloning and other cutting edge scientific endeavors Science vs Religion brings a welcome dose of reality to the science and religion debates

Religion in Consumer Society François Gauthier, 2016-04-08 Presenting an overview of an emerging field in the study of contemporary religion this book together with a complementary volume Religion in the Neoliberal Age explores issues of religion neoliberalism and consumer society Claiming that we have entered a new phase that implies more than the recasting of state religion relations the authors examine how religious changes are historically anchored in modernity but affected by the commoditization mediatization neoliberalization and globalization of society and social life Religion in Consumer Society explores religion as both shaped by consumer culture and as shaping consumer culture Following an introduction which critically analyses studies on consumer culture and integrates scholarship in the sociology of religion this book explores the following topics how consumerism and electronic media have shaped globalized culture and how this is affecting religion the dynamics and characteristics of often overlooked middle class religion and how these relate to globalization and differences between developed and emerging countries emerging trends and how we understand phenomena as different as mega churches and holistic spiritualistic journeys and how the pressures of consumer culture act on religious traditions indigenous and exogenous the politics of religious phenomena in the Age of Neoliberalism and the hybrid areas emerging from these reconfigurations of religion and the market Outlining changes in both the political institutional and cultural spheres the contributors offer an international overview of developments in different countries and state of the art representation of religion in the new global political economy

**Religious Indifference** Johannes Quack, Cora Schuh, 2017-04-11 This book provides a conceptually and empirically rich introduction to religious indifference on the basis of original anthropological historical and sociological research Religious indifference is a central category for understanding contemporary societies and a controversial one For some scholars a growing religious indifference indicates a dramatic decline in religiosity and epitomizes the endpoint of secularization processes Others view it as an indicator of moral apathy and philosophical nihilism whilst yet others see it as paving the way for new forms of political tolerance and solidarity This volume describes and analyses the symbolic power of religious indifference and the conceptual contestations surrounding it Detailed case studies cover anthropological and qualitative data from the UK Germany Estonia the USA Canada and India analyse large quantitative data sets and provide philosophical literary inquiries into the phenomenon They highlight how for different actors and agendas religious indifference can constitute an objective or a challenge Pursuing a relational approach to non religion the book conceptualizes religious indifference in its interrelatedness with religion as well as more avowed forms of non religion
