Governing Property, Making the Modern State Martha Mundy, Richard Saumarez Smith, 2007-01-26 Was modernity in the Middle East merely imported piecemeal from the West Did Ottoman society really consist of islands of sophistication in a sea of tribal conservatism as has so often been claimed In this groundbreaking new book Martha Mundy and Richard Saumarez Smith draw on over a decade of primary source research to argue that contrary to such stereotypes a distinctively Ottoman process of modernisation was achieved by the end of the nineteenth century with great social consequences for all who lived through it Modernisation touched women as intimately as men the authors careful work explores the impact of Ottoman legal reforms such as granting women equal rights to land Mundy and Saumarez Smith have painstakingly recreated a picture of such processes through both new archival material and the testimony of surviving witnesses to the period This book will not only affect the way we look at Ottoman society it will change our understanding of the relationship between East West and modernity

Ottoman Land Reform in the Province of Baghdad Keiko Kiyotaki, 2019-05-15 In Ottoman Land Reform in the Province of Baghdad Keiko Kiyotaki traces the Ottoman reforms of tax farming and land tenure and establishes that their effects were the key ingredients of agricultural progress These modernizing reforms are shown to be effective because they were compatible with local customs and tribal traditions which the Ottoman governors worked to preserve

Ottoman rule in Iraq has previously been considered oppressive and blamed with failure to develop the country. Since the British mandate government's land and tax policies were little examined, the Ottoman legacy has been left unidentified. This book proves that Ottoman land reforms led to increases in agricultural production and tax revenue, while the hasty reforms enacted by the mandate government, ignoring indigenous customs, caused new agricultural and land problems.
