The Rise and Progress of the English Commonwealth. Anglo-Saxon Period Francis Palgrave,1832 **Creation and Ecology** Ronald A. Simkins,2020-12-24 In this book Ronald A Simkins addresses the current environmental crisis and what the Bible might contribute in response to it The environmental crisis includes loss of biodiversity degradation of the soil and especially climate change If left unchecked these trends will bring about the collapse of human civilization These environmental problems are interrelated and share a similar cause the exploitation of the natural world through an economy structured by capitalist relations of production and powered by the burning of fossil fuels Through our economic relations we have depleted natural resources polluted natural environments and altered natural processes These problems are a product of our political economy which entails not only our politics ideology and religion but primarily our economic system Because the crisis is economic at its core Simkins first sets the Bible within its own economic context exploring how the biblical ideas of creation an understanding of the human relationship to the natural world were the product of the ancient Israelite political economy Then Simkins places the biblical tradition in conversation with the current environmental crisis The result is a far richer view of creation in the biblical tradition and a better understanding of what is at stake in the current environmental crisis

An Introduction to Religious Foundations in the Ottoman Empire John Robert Barnes,1986 **An Introduction to Religious Foundations in the Ottoman Empire** Barnes,2023-05-25 There has hitherto been no overview of the Islamic institution of vakif pl evkaf from its beginnings until the present century this book is intended to fill that gap The author sets the scene by considering various views on the origins of vakif and the legal conditions which defined it He then deals with the question of

whether conquered lands may legally be held as private property in Islam and concludes that they may not This is of particular relevance since the geographic scope of the study is the area covered by the Ottoman Empire an entity existing as a result of conquest and it was under the Ottomans that the institution of vakif was most fully developed It was in the reign of Suleyman I during the tenure of the office of seyhulislam by the formidable legist Ebussuud that the law concerning evkaf was formalised Following the logic of introducing the miri land system into Rumeli and Anatolia an action he sought to justify by proposing its similarity to seriat provisions on land tenure Ebussuud rendered it lawful to exact dues on vakif property Mehmed IPs earlier attempt to seize such property for the state had demonstrated the political unacceptability of such a bold act instead evkaf property which had come to be regarded as private was not threatened by Ebussuud but the taxing of revenues was allowed The subsequent history of Ottoman evkaf is the story of the struggle between the state and the beneficiaries of the charitable foundations for control over the use of the revenues From [http www jstor org](http://www.jstor.org) July 6 2012

copies that have survived seem to date from the twelfth century and later the codes must in considerable part have taken form in the eleventh century or as early as the first generation of the Christian age Heathendom had by that time been outlawed but one seems justified in believing that the cult of strength and valor was for some time yet a force that had to be taken into account for the principles that governed in the heathen age retained much of their ancient vigor and the old civilization rooted as it was in the soil itself was able in large measure to maintain both life and validity Foreword vii
