Global Governance Critical Perspectives

Thomas G. Weiss

Global Governance Critical Perspectives:

Global Governance Steven Hughes, Rorden Wilkinson, Global Governance Steve Hughes, Rorden Wilkinson, 2003-09-02 In recent years the role of global institutions such as the United Nations World Trade Organization International Monetary Fund and the World Bank has never been more important to the lives of individuals throughout the world This edited book provides critical perspectives on the role of these institutions and how they use their policies procedures and practices to manage global political socio economic legal and environmental affairs In contrast to previously published books on this subject Global Governance is organized thematically rather than by institution Each chapter examines core issues such as labour finance the environment health culture gender civil society poverty and development It should be essential reading for undergraduate students of international politics international political economy and international economics

Critical Perspectives on the Crisis of Global Governance S. Gill, 2015-01-02 The contributors highlight alternative imaginaries and social forces harnessing new organizational and political forms to counter and displace dominant strategies of rule They suggest that to address intensifying economic ecological and ethical crises far more effective legitimate and far sighted forms of global governance are required

Critical Perspectives on Global Governance Jean Grugel, Nicola Piper, 2007-12-12 The first in depth analysis of how global governance impacts on the lives of ordinary people This new volume includes four detailed case studies on labour migration children and development that explore the actual nature of governance policies in the GPE Jean Grugel and Nicola Piper clearly show how global governance the creation of global norms and regimes to regulate politics economic and social actors suggests and promotes ideals such as stable politics democracy human rights and individualism with a strategy to create a more ordered and ultimately better world They move away from the traditional focus on lites states and global institutions to explore and analyze how liberal global governance is really affecting ordinary people and how this is often an obstacle to development citizenship voice and inclusion Paying particular attention to the global South Asia and Latin America these expert authors trace the development of liberal global governance They also clearly examine and study how this regulation has spread from areas such as trade and investment to development labour migration children and the environment

Critical Perspectives on Global Governance Jean Grugel, Nicola Piper, 2007 This book explores and analyzes how liberal global governance is really affecting ordinary people and how this can be both an opportunity and an obstacle to development citizenship voice and inclusion To demonstrate this case studies represent some of the most marginalized groups of people in Asia and Latin America children and foreign workers By taking a bottom up perspective this study marks a shift from a vision of liberal global governance as a way to manage ordinary people to one that posits global governance as a potential opportunity structure for political activism as well as a space of regulation

The Global Governance Reader Rorden Wilkinson, 2005 This Reader provides students and scholars with a comprehensive and considered collection of articles

covering the most theoretical and empirical contributions by leading specialists in the field **Global Governance** ,2016

Critical Perspectives on PISA as a Means of Global Governance António Teodoro,2022-03-24 This volume offers a critical examination of the Programme for International Students Assessment PISA focusing on its origins and implementation relationship to other international large scale assessments and its impacts on educational policy and reform at national and cross national levels Using empirical data gathered from a research project carried out by the CeiED at Lusofona University Lisbon the text highlights connections between PISA and emergent issues including the international circulation of big science expertise and policy and identifies its conceptual and methodological limits as a global governance project The volume ultimately provides a novel framework for understanding how OECD priorities are manifested through a regulatory instrument based on Human and Knowledge Capital Theory and so makes a powerful case to search for new humanistic approaches This text will benefit researchers academics and educators with an interest in education policy and politics international and comparative education and the sociology of education more broadly Those interested in the history of education will also benefit from this volume *Critical Legal Perspectives on Global Governance* Gráinne de Búrca,Claire Kilpatrick,Joanne Scott,2014-07-18 This book of essays written in honour of Professor David Trubek explores many of the themes which he has himself written about most notably the emergence of a global critical discourse on law and its application to global governance As law becomes ever more implicated in global governance and as processes related to and driven by globalisation transform legal systems at all levels it is important that critical traditions in law adapt to the changing legal order and probl matique The book brings together critical scholars from the EU and North and South America to explore the forms of law that are emerging in the global governance context the processes and legal roles that have developed and the critical discourses that have been formed By looking at critical appraisals of law at the global regional and national level the links among them and the normative implications of critical discourses the book aims to show the complexity of law in today s world and demonstrate the value of critical legal thought for our understanding of issues of contemporary governance and regulation Scholars from many countries contribute critical studies of global and regional institutions explore the governance of labour and development policy in depth and discuss the changing role of lawyers in global regulatory space *Global Governance* Thomas G. Weiss,2016-01-07 Friends and foes of international cooperation puzzle about how to explain order stability and predictability in a world without a central authority How is the world governed in the absence of a world government This probing yet accessible book examines global governance or the sum of the informal and formal values norms procedures and institutions that help states intergovernmental organizations civil society and transnational corporations identify understand and address trans boundary problems The chasm between the magnitude of a growing number of global threats climate change proliferation of weapons of mass destruction terrorism financial instabilities pandemics to name a few and the feeble contemporary political structures for international problem

solving provide compelling reasons to read this book Fitful tactical and short term local responses exist for a growing number of threats and challenges that require sustained strategic and longer run global perspectives and action Can the framework of global governance help us to better understand the reasons behind this fundamental disconnect as well as possible ways to attenuate its worst aspects Thomas G Weiss replies with a guardedly sanguine yes

Global Governance from Regional Perspectives Anna Triandafyllidou, 2017-06-16 Global Governance from Regional Perspectives argues that the academic debate on global governance has neglected the combination of power with value constellations culture Both input and output legitimacy for instance or the exercise of control and influence are inextricably related to culture worldviews and values The book questions theoretically the Western hegemonic and hence invisible definition of governance and related concepts as well as the Western hegemony over global governance institutions It looks from the ground up whether and how alternative practices institutions networks and concepts norms of global governance are emerging in relation to emerging powers and regional integration systems Global Governance from Regional Perspectives starts with a critical reading of global governance from multi disciplinary views and engages with two important and under studied aspects notably how global governance can be measured and what lies behind such measurements and questions the democratic deficit of global governance The book provides a series of regional and country perspectives on global governance which engage with a specific example of an institution process or issue that is used to highlight why and how the western hegemonic views and practices of global governance are or not contested The book offers a mapping of global governance phenomena in different regions of the world and a critical readings of those As such this volume is different from all international relations or political science collections on global governance and also opens up a new field of study that has been hitherto neglected in sociological or cultural studies

Global Governance from Regional Perspectives Anna Triandafyllidou, 2017 Global Governance from Regional Perspectives argues that the academic debate on global governance has neglected the combination of power with value constellations culture Both input and output legitimacy for instance or the exercise of control and influence are inextricably related to culture worldviews and values The book questions theoretically the Western hegemonic and hence invisible definition of governance and related concepts as well as the Western hegemony over global governance institutions It looks from the ground up whether and how alternative practices institutions networks and concepts norms of global governance are emerging in relation to emerging powers and regional integration systems Global Governance from Regional Perspectives starts with a critical reading of global governance from multi disciplinary views and engages with two important and under studied aspects notably how global governance can be measured and what lies behind such measurements and questions the democratic deficit of global governance The book provides a series of regional and country perspectives on global governance which engage with a specific example of an institution process or issue that is used to highlight why and how the western hegemonic views and practices of global governance are or not contested The

book offers a mapping of global governance phenomena in different regions of the world and a critical readings of those As such this volume is different from all international relations or political science collections on global governance and also opens up a new field of study that has been hitherto neglected in sociological or cultural studies *The Fundamentals of Global Governance* J. Whitman,2009-04-08 What kind of activity is global governance What do all of the many sectoral forms of global governance of the planetary environment of global finance and global health have in common Moving beyond sector specific studies this book outlines the fundamentals of global governance in eight chapter length propositions **World Intellectual Property Organization (WIPO)** Christopher May,2006-11-06 Covering the World Intellectual Property Organization this volume introduces a much ignored element of the contemporary structure of global governance to scholars of international political economy Christopher May discusses how the World Intellectual Property Organization works its antecedents and history the debates about the role and justification of intellectual property the role of WIPO within contemporary global politics the key elements of its relations with the World Trade Organization the Agreement on Trade Related Aspects of Intellectual Property Rights The analysis then examines the recent political economy of the organization and argues that far from being the neutral or technical agency that it often presents itself as the WIPO is highly politicized and acts to socialize policy makers and civil servants into a specific view of intellectual property However the recent proposal to establish a Development Agenda at the WIPO is an important development and the book concludes by examining the problems which have promoted this agenda suggesting that these reforms of the WIPO should be welcomed The World Intellectual Property Organization is a clear and accessible volume that will confirm the WIPO as one of the global institutions which any student of global governance must understand *Whose Peace? Critical Perspectives on the Political Economy of Peacebuilding* M. Pugh,N. Cooper,M. Turner,2016-01-04 The book provides critical perspectives that reach beyond the technical approaches of international financial institutions and proponents of the liberal peace formula It investigates political economies characterized by the legacies of disruption to production and exchange by population displacement poverty and by criminality *Governing the Feminist Peace* Paul C. Kirby,Laura Shepherd,2024-04-02 The Women Peace and Security WPS agenda is celebrated as a landmark global framework for achieving gender equality in peace and security governance Its power is visible in two decades of United Nations resolutions national action plans regional initiatives and countless activist academic and philanthropic projects Yet despite this vitality it is haunted by failure as a lack of political will and stubborn patriarchal resistance frustrate its promise This book offers a groundbreaking critical account of the WPS agenda exploring its evolution in relation to the wider politics of global governance and feminism Paul Kirby and Laura J Shepherd argue that WPS is not a settled cohesive policy but a field in flux defined and disrupted by a growing number of national supranational subnational and transnational agents who in turn act on an expanding catalogue of threats from climate change to homophobia challenging traditional boundaries of peace and security Kirby and Shepherd

reconceptualize WPS as a policy ecosystem tracing interaction and contestation around the agenda across levels from the UN Security Council to military alliances to feminist activists They combine analysis of a vast dataset of policy documents with key informant interviews and close readings of diplomacy statecraft the politics of indigeneity counterinsurgency antimilitarism human rights and the arms trade across the first twenty years of WPS Far reaching and incisive *Governing the Feminist Peace* poses a provocative question What if we abandoned the idea of the WPS agenda as a unified political project altogether

The World We Could Win Geraldine Fraser-Moleketi, 2005 Containing six essays this volume looks thematically at different elements or facets of Global Governance and the issues that arise It deals with some regional perspectives on Global Governance It aims to raise our eyes beyond the known world in public administration and also looks at the unit of analysis

Limits of Global Governance Margot Ely, 1991 This book is essential reading for those with research interests in Global Politics International Relations and Globalisation Jacket

Limits of Global Governance Jim Whitman, 2005-09-16 Are we creating an ungovernable world Can we be confident that our existing modes of global governance are sufficient or adaptable enough to meet the challenges of globalization This new study powerfully tackles these key questions delivering a provocative examination of the cognitive practical and political limits on our ability to exercise systems of regulation and control on the same scale as the globalizing forces already shaping the human condition Key issues addressed include an examination of the many meanings of global governance a contextualised view of global governance within the complex interaction of human and natural systems an analysis of global governance at a fundamental and conceptual level a case study of disseminative systems and global governance This book is essential reading for those with research interests in global politics international relations and globalization

Critical Security Studies Columba Peoples, Nick Vaughan-Williams, 2020-11-29 This textbook introduces students to the sub field of critical security studies through a detailed yet accessible survey of emerging theories and practices This third edition contains two new chapters on Ontological security and In Security and the everyday and has been fully revised and updated Written in an accessible and clear manner Critical Security Studies offers a comprehensive and up to date introduction to critical security studies locates critical security studies within the broader context of social and political theory evaluates fundamental theoretical positions in critical security studies against a backdrop of new security challenges The book is divided into two main parts Part I Approaches surveys the newly extended and contested theoretical terrain of critical security studies constructivist theories Critical Theory feminist and gender approaches postcolonial perspectives poststructuralism and International Political Sociology Ontological security and securitisation theory Part II Issues examines how these various theoretical approaches have been put to work in critical considerations of environmental and planetary security health human security and development information technology and warfare migration and border security in security and the everyday and terror risk and resilience The historical and geographical scope of the book is deliberately broad and each of the chapters in Part II

concretely illustrates one or more of the approaches discussed in Part I with clear internal referencing allowing the text to act as a holistic learning tool for students This book is essential reading for upper level students of critical security studies and an important resource for students of international global security political theory and international relations

The Enigmatic Realm of **Global Governance Critical Perspectives**: Unleashing the Language is Inner Magic

In a fast-paced digital era where connections and knowledge intertwine, the enigmatic realm of language reveals its inherent magic.
