Global Peace And Common Security:

Global Peace and Common Security Paulos,,Paulos Mar Gregorios,1998 **Policies for Common Security** Stockholm International Peace Research Institute (SIPRI),2019-07-08 The basic idea of common security is not complex It is that no country can obtain security in the long run simply by taking unilateral decisions about its own military forces This is because security depends also on the actions and reactions of potential adversaries Security has to be found in common with those adversaries These ideas were considered in a SIPRI conference held in 1983 The conference had two main objectives The first was to undertake a critical examination of the concept The second was to consider the implications of the idea for policy in general and for disarmament and arms control policy in particular Originally published in 1985 this book contains revised versions of some of the papers presented at the conference *The United Nations and the Maintenance of International Peace and Security* ,1987-01-01 **Global Peace And Security** Wolfram F Hanrieder,2019-05-20 Focusing on the social economic and political structures of the postwar global order this collection of essays discusses the search for a new international economic order the transformation of the nation state and the international balance of power the technological and strategic dimensions of the nuclear age East West trade and technology tr **The Ultimate Evil** Douglas Roche,1997-01-01 Foreword Fear and Madness in a Dance of Death Judge Mohammed Bedjaoui former President International Court of Justice Introduction A New Sense of Urgency PART ONE The Greatest Threat to Humanity s Survival 1 An **The Welfare State System and Common Security** B. Desai,2022-09-09 With the Stockholm 50 Conference held on 2 3 June 2022 the global movement to protect the environment has reached a 50 year milestone The first UN Conference on the Human Environment also held in Stockholm from 5 16 June 1972 proved to be the watershed in addressing this problem and as the world assembles once more in the Swedish capital it is time to think aloud and look ahead In his address in 1972 the then Swedish Prime Minister Olof Palme said The decisive question is in which direction we will develop there is no individual future neither for people nor for nations The only other head of government to attend in 1972 Indian Prime Minister Indira Gandhi highlighted the development as one of the primary means of improving the environment of living of providing food water sanitation and shelter of making the deserts

green and mountains habitable and drew attention to the wisdom of the Atharva Veda What of thee I dig out Let that quickly grow over Let me not hit thy vitals or thy heart As we look back over 50 years we need to assess what has gone wrong in the trajectory travelled so far and look ahead to the future of our environment at this juncture and beyond As a scholarly journal for global decision makers Environmental Policy and Law has sought to envision what lies ahead in the 21st century by inviting outstanding scholarly works from around the world The 22 articles which resulted from this invitation are presented in this book Envisioning Our Environmental Future which is organised in three parts Testing Times Global Ideas and Sectoral Ideas The book is a sequel to Our Earth Matters IOS Press which was published on 5 June 2021 Bharat H Desai is Professor of International Law and Jawaharlal Nehru Chair in International Environmental Law at the Centre for International Legal Studies School of International Studies of Jawaharlal Nehru University New Delhi He is Editor in Chief of the global journals Environmental Policy and Law Amsterdam IOS Press and Yearbook of International Environmental Law Oxford Oxford University Press Prof Desai s ideas and proposals are reflected in his published books and in journals of international repute

Striving for Peace, Security, and Development of the World Joseph Rotblat,1993 The momentous events of the past year have changed the political face of the globe the ideological struggle that dominated the world for most of this century is over erstwhile mortal enemies have become friends and partners But old attitudes have survived and modern weapons are in abundance New foci of conflict have emerged military confrontations are taking place the world is still in turmoil The welcome deep cuts in nuclear weapons have still left thousands of warheads in the arsenals and the spread of these weapons to new states would further increase the danger of a nuclear confrontation The release of the pressure pent up under oppressive regimes created a powerful drive for independence often achieved only after bloody wars Many of the new states are economically non viable poverty and famine are frequent adjuncts of independence If military conflicts are to be avoided a comprehensive strategy must be formulated to improve the standards of living in the developing countries and enhance their security A strategy is also needed to protect the environment from the effects of further industrialization and greater use of energy What is needed is a concept of a sustainable equitable and liveable world for all its inhabitants All these problems were analysed by scientists and scholars who met at a Pugwash Conference The arguments used by them and the proposed solutions are presented in this book under six themes World Peace Nuclear Disarmament Issues Arms Control Security in the Asia Pacific Region Development Strategies and World Economic Order Energy and the Environment
