## **Global Warning A Native Gaian Prophecy:**

Native American Prophecies Scott Peterson, 1990 This revised and expanded edition provides a brief introduction to the rich and varied body of wisdom of Native American Histories philosophies and origins Many of the prophecies examine how we as humans define our relationship to the earth and its relevance today      **Gaia and Climate Change** Anne Primavesi, 2008-08-18 James Lovelock s Gaia theory revolutionized the understanding of our place and role in the global environment It is now accepted that our activities over the past two hundred years have contributed to and accelerated the extreme weather events associated with climate change The fact that those activities materialized for the most part from within Western Christian communities makes it imperative to assess and to change their theological climate one characterized by routine use of violent imperialist images of God The basis for change explored here is that of gift events particularly as evidenced in Jesus s life and sayings Its legacy of love of enemies and forgiveness offers a basis for nonviolent theological and practical approaches to our situatedness within the community of life These are also Gaian responses as they include foregoing a perception of ourselves as belonging to an elect group given power by God over earth s life support systems and over all those dependent on them whether human or more than human The degree to which we change this self perception will determine how we affect for good or ill not only the givenness of the climate in future but the givenness of all future life on earth      Apocalyptic Conspiracism Tom Albrecht, Tristan Sturm, 2024-12-12 In the USA politically conservative and right wing apocalyptic evangelicals hold that climate change science and Covid 19 are fabrications governed by manifest evil How do these groups generate and distribute these truth claims and why Using a sociological methodology informed by Bourdieu and Foucault this book offers tools for scholars and students to better understand the logic of climate denial within the context of American conservative evangelicalism and apocalypticism Tom Albrecht and Tristan Sturm coin and employ the term apocalyptic conspiracism to analyse the increasingly powerful confluence of apocalyptic and conspiracist discourses These dialogues create a holistic belief system which claims that the world will profoundly change for the worse due to a global network of interconnected conspiracies This book focuses on and expands the literature on the discursive practices of anthropogenic climate change and Covid 19 denialism Exploring religious apocalyptic and conspiracist belief systems the authors demonstrate how these affect geopolitical imaginations the perception of global crises as well as the environmentally relevant behaviour of American Evangelical Christians      Implosion!!! Melvia F. Miller, 2005      *Climate Change as Social Drama* Philip Smith, Nicolas Howe, 2015-05-05 Climate Change as Social Drama looks at the cultural sociology of climate change in public communication      **Mending the Broken Land** Christine Graef, 2014-11-13 After five centuries of oppressions committed in the name of Jesus many hearts have hardened toward the name of Christ on the part of many of those native or original to the lands we now call America and Canada The imposition of residential schools removal policies and forced adoptions left many angry about white man s religion confused about a savior who would promote such violent

ripping apart of families deceitful taking away of lands and forced assimilation away from natural heritages Acknowledgment has been made and apologies given In Canada large amounts of compensation are being paid out to survivors and their communities But what does Scripture say about culture and what can original treaties teach us about healing from our shared history In an era when America and Canada are being called to return to God Mending the Broken Land provides a meeting ground in an ecotone of cultures as diverse as nature s meadows Drawing on the example of the governance of a first people of the northeast the Haudenosaunee Confederacy it witnesses a new generation in a process of healing aligning with the teachings of Christ
