Cynthia C. Kaufman

Globalize Liberation How To Uproot The System And Build A Better World:

Globalize Liberation David Solnit, 2004 A post 9 11 look at the new radicalism that has captured the imagination of activists worldwide The Oxford Handbook of Comparative Politics Carles Boix, Susan Carol Stokes, 2007 The Oxford Handbooks of Political Science is a ten volume set of reference books offering authoritative and engaging critical overviews of the state of political science Each volume focuses on a particular part of the discipline with volumes on Public Policy Political Theory Political Economy Contextual Political Analysis Comparative Politics International Relations Law and Politics Political Behavior Political Institutions and Political Methodology The project as a whole is under the General Editorship of Robert E Goodin with each volume being edited by a distinguished international group of specialists in their respective fields The books set out not just to report on the discipline but to shape it The series will be an indispensable point of reference for anyone working in political science and adjacent disciplines The Oxford Handbook of Comparative Politics offers a critical survey of the field of empirical political science through the collection of a set of chapters written by forty seven top scholars in the discipline of comparative politics Part I includes chapters surveying the key research methodologies employed in comparative politics the comparative method the use of history the practice and status of case study research the contributions of field research and assessing the possibility of constructing a science of comparative politics Parts II to IV examine the foundations of political order the origins of states and the extent to which they relate to war and to economic development the sources of compliance or political obligation among citizens democratic transitions the role of civic culture authoritarianism revolutions civil wars and contentious politics Parts V and VI explore the mobilization representation and coordination of political demands Part V considers why parties emerge the forms they take and the ways in which voters choose parties It then includes chapters on collective action social movements and political participation Part VI opens up with essays on the mechanisms through which political demands are aggregated and coordinated This sets the agenda to the systematic exploration of the workings and effects of particular institutions electoral systems federalism legislative executive relationships the judiciary and bureaucracy Finally Part VII is organized around the burgeoning literature on macropolitical economy of the last two decades Revolution in the Making of the Modern World John Foran, David Lane, Andreja Zivkovic, 2007-11-05 This volume questions whether ideas of revolution are still relevant in the postmodern and globalized world of the twenty first century Featuring contributions from some of the world's leading sociological and political thinkers on revolution it combines theoretical concerns with a variety of detailed case studies of individual revolutions Subjects covered include democracy and revolution from 1789 to 1989 twentieth century revolutions and theories of revolution including Marxism modernization and structuralist theories revolution in the Third World and the variable geometry of the paths to modernity Islamic revolutions and modernity the 1989 revolutions as democratic revolutions or elite led transitions globalization the nation state and revolution empire and democratic revolution network society and revolution Islamic

fundamentalism international terrorism and revolution democratic revolution as a new form of revolution postmodern theories of revolution new social movements identities and new figures of revolution Revolution in the Making of the Modern World will be essential reading for students and scholars of comparative politics political theory revolution and political sociology

A Poetics of Resistance Jeff Conant, 2010-08-01 Part literary criticism part media analysis and part marketing handbook A Poetics of Resistance provides a refreshingly new take on the Zapatistas While much has been written on the history of the Zapatista insurgency and on the communiqués of Subcomandante Marcos very little has been said about Zapatismo the ideologies organizing methodologies and communications strategies of the movement The appeal of the Zapatistas and their survival has as much to do with their goals as with the compelling and wildly effective language and aesthetics they've used to convey their vision Weaving together varied elements of poetics and symbolism Zapatismo has emerged as something entirely new a resolutely radical public relations campaign for human liberation The first postmodern revolution presented itself to the world through a complex and evolving web of propaganda using a wide range of media the colorful communiqués of Marcos the ski masks uniforms toy dolls and other accoutrements of the insurgent or sympathizer and murals songs and other popular cultural forms Employing persuasive publicity myths and symbols the Zapatistas both communicated their message and developed a clear aesthetic that could contain many messages at once and self replicate on a global scale Jeff Conant offers an engaging and innovative tool for organizers and educators to understand how the Zapatistas strategy works and to continue developing and refining their effective messages of participatory bottom up revolution Jeff Conant is a writer and activist in the San Francisco Bay Area and the author of A Community Guide to Environmental Health

Zapatistas Doctor Alex Khasnabish, 2013-04-04 In the early hours of January 1 1994 a guerrilla army of indigenous Mayan peasants emerged from the highlands and jungle in the far southeast of Mexico and declared Ya basta Enough to 500 years of colonialism racism exploitation oppression and genocide As elites in Canada the United States and Mexico celebrated the coming into force of the North American Free Trade Agreement the Zapatista Army of National Liberation Ejército Zapatista de Liberación Nacional EZLN declared war against this 500 year old trajectory toward oblivion one that they said was most recently reincarnated in the form of neoliberal capitalist globalization that NAFTA represented While the Zapatista uprising would have a profound impact upon the socio political fabric of Chiapas its effects would be felt far beyond the borders of Mexico At a moment when state sponsored socialism had all but vanished from the global political landscape and other familiar elements of the left appeared utterly demoralized and defeated in the face of neoliberal capitalism's global ascendance the Zapatista uprising would spark an unexpected and powerful new wave of radical socio political action transnationally Through an exploration of the Zapatista movement's origins history structure aims political philosophy and practice and future directions this book provides a critical comprehensive and accessible overview of one of the most important rebel groups in recent history

Alternative Globalizations S. A. Hamed Hosseini, 2009-12-04 This

book explores the formation and transformation of ideas identities and solidarities in the global opposition to the corporate led globalization and its ideological basis neo liberalism **Social Justice** Loretta Capeheart,Dragan

Milovanovic,2020-05-15 An eye for an eye the balance of the scales for centuries these and other traditional concepts exemplified the public s perception of justice Today popular culture including television shows like Law and Order informs the public s vision But do age old symbols portrayals in the media and existing systems truly represent justice in all of its nuanced forms or do we need to think beyond these notions The second edition of Social Justice Theories Issues and Movements responds to the need for a comprehensive introduction to these issues Theories of social justice are presented in an accessible fashion to encourage engagement of students activists and scholars with these important lines of inquiry Issues are analyzed utilizing various theories for furthering engagement in possibilities Struggles for justice from legal cases to on the ground movements are presented for historical context and to inform the way forward **Anarchism** Benjamin

Franks,Nathan Jun,Leonard Williams,2018-03-14 Anarchism is by far the least broadly understood ideology and the least studied academically Though highly influential both historically and in terms of recent social movements anarchism is regularly dismissed Anarchism A Conceptual Approach is a welcome addition to this growing field which is widely debated but poorly understood Occupying a distinctive position in the study of anarchist ideology this volume authored by a handpicked group of established and rising scholars investigates how anarchists often seek to sharpen their message and struggle to determine what ideas and actions are central to their identity Moving beyond defining anarchism as simply an ideology or political theory this book examines the meanings of its key concepts which have been divided into three categories Core Adjacent and Peripheral concepts Each chapter focuses on one important concept shows how anarchists have understood the concept and highlights its relationships to other concepts Although anarchism is often thought of as a political topic the interdisciplinary nature of Anarchism A Conceptual Approach makes it of interest to students and scholars across the social sciences liberal arts and the humanities **Anarchism and Moral Philosophy** B. Franks,M.

Wilson,2010-12-14 This collection explores the nature and role of ethics within anarchist thought and practice examining normative meta ethical and applied ethical issues through some of the theoretical insights of anarchism It comprises contributions from international scholars working within the fields of philosophy and political theory The Defiant Dawson

Barrett,2018-05-08 The history of the United States is a history of oppression and inequality as well as raucous opposition to the status quo It is a history of slavery and child labor but also the protest movements that helped end those institutions In this book Dawson Barrett calls our attention to the post 1960s period in which he posits that US economic cultural and political elites turned the tide against the protest movement gains of the previous forty years and reshaped the ability of activists to influence the political process Amazon com **On the Edges of Development** Kum-Kum Bhavnani,John

Foran,Priya Kurian,Debashish Munshi,2009-03-04 This volume re imagines development through a careful and imaginative

exploration of some of the many ways that culture in the broadest sense of lived experience and its representation can recentre resistance suggest alternative models and advance critiques of development as it is currently practised Getting Past Capitalism Cynthia C. Kaufman, 2012 Getting Past Capitalism begins with a critique of the impacts of capitalism on human society and the environment It looks in new ways at what capitalism is and at how it is reproduced That investigation opens the door to fresh ways of looking at how to challenge it Cynthia Kaufman looks at some fundamental questions about how capitalism comes to look like a system that is unbeatable and how people come to have desires that work to reinforce capitalism Kaufman uses this analysis to develop ideas about how to challenge capitalism She argues that rather than looking for the fulcrum point in a system that will make it able to be overthrown we should try to understand what kinds of practices open more spaces for stopping the reproduction of capitalist processes and what kinds of structures need to be developed to make capitalism a less important part of our world Getting Past Capitalism includes a critique of capitalism and presentation of alternatives to capitalism many of which already exist It explores strategies for developing and strengthening those alternatives Situating Global Resistance Lara Montesinos Coleman, Karen Tucker, 2013-09-13 The book examines some of the ways in which contemporary forms of political dissent are situated within processes of global ordering Grounded in analysis of concrete practices of discipline and dissent in specific contexts it explores the ways in which resistance can be shaped by dominant ways of thinking seeing or enacting politics and by the multiform relations of power at play in the making of global order The contributions written from a variety of disciplinary backgrounds address themes such as the processes through which particular sorts of resisting subjects are produced the politics of knowledge in which resisting practices are embedded the ways in which visual technologies are deployed within and towards oppositional practices and the politics of gender race and class within spaces of contestation The volume thus opens up space for critical reflection and inter disciplinary dialogue on what it means to be a resisting subject and on the interplay between the power and counter power in global order This book was published as a special issue of Globalizations No Borders Natasha King, 2016-10-15 From the streets of Calais to the borders of Melilla Evros and the United States the slogan No borders is a thread connecting a multitude of different struggles for the freedom to move and to stay But what does it mean to make this slogan a reality Drawing on the author's extensive research in Greece and Calais as well as a decade campaigning for migrant rights Natasha King explores the different forms of activism that have emerged in the struggle against border controls and the dilemmas these activists face in translating their principles into practice Wide ranging and interdisciplinary No Borders constitutes vital reading for anyone interested in how we make radical alternatives to the state a genuine possibility for our times and raises crucial questions on the nature of resistance **Making Sense of Society** Alex Khasnabish, 2022-05-30T00:00:00Z Grounded in the sister disciplines of sociology and anthropology this textbook is an accessible and critical introduction to contemporary social research Alex Khasnabish eschews the common disciplinary silos in favour of an integrated approach to

understanding and practising critical social research Situated in the North American context the text draws on cross cultural examples to give readers a clear sense of the diversity in human social relations It is organized thematically in a way that introduces readers to the core areas of social research and social organization and takes an unapologetically radical approach in identifying the relations of oppression and exploitation that give rise to what most corporate textbooks euphemistically identify as social problems Focusing on key dynamics and processes at the heart of so many contemporary issues and public conversations this text highlights the ways in which critical social research can contribute to exploring understanding and forging alternatives to an increasingly bankrupt violent unstable and unjust status quo **The**

Anarchist Turn in Twenty-First Century Leftwing Activism John Markoff,Hillary Lazar,Benjamin S. Case,Daniel P. Burrige,2024-04-11 Leftwing activism of recent decades exhibits an anarchist turn evident in quantitative indicators like mentions of anarchists in news reports and by activists adopting anarchist modes of organization tactics and social goals whether or not they claim that label The authors of this Element argue that the very crises that generated radical mobilizations since the turn of the millennium have both led activists to reject other strategies for social transformation and to see anarchist practices as appropriate to the challenges of our time This turn is clearly apparent in the Americas and Europe and has reverberations on an even broader transnational perhaps global scale This suggests the need for research on social movements to consider anarchists and other marginalized radical traditions more fully not just as objects of study but as important sources of theory NGOization Aziz Choudry,Dip Kapoor,2013-07-11 The growth and spread of non governmental organizations NGOs at local and international levels has attracted considerable interest and attention from policy makers development practitioners academics and activists around the world But how has this phenomenon impacted on struggles for social and environmental justice How has it challenged or reinforced the forces of capitalism and colonialism And what political economic social and cultural interests does this serve NGOization the professionalization and institutionalization of social action has long been a hotly contested issue in grassroots social movements and communities of resistance This book pulls together for the first time unique perspectives of social struggles and critically engaged scholars from a wide range of geographical and political contexts to offer insights into the tensions and challenges of the NGO model while considering the feasibility of alternatives **Why They Don't Hate Us** Mark LeVine,2013-10-01 Is the Muslim world

really a seething mass of anti Western hatred or is the true situation more complicated than that In this important and ambitious new work Mark Levine presents a vivid and compelling picture of the human face behind the veil of the Axis of Evil and sets out an alternative roadmap for better relations between the West and the Muslim world Going beyond the stereotypes and below the media radar this book explains why contrary to the popular perception they don t hate us or at least not yet Rebel Girls Jessica K. Taft,2011 Visit theUnspun website which includes Table of Contents and the Introduction The World Wide Web has cut a wide path through our daily lives As claims of the Web changes everything

suffuse print media television movies and even presidential campaign speeches just how thoroughly do the users immersed in this new technology understand it What exactly is the Web changing And how might we participate in or even direct Web related change Intended for readers new to studying the Internet each chapter in Unspun addresses a different aspect of the web revolution hypertext multimedia authorship community governance identity gender race cyberspace political economy and ideology as it shapes and is shaped by economic political social and cultural forces The contributors particularly focus on the language of the Web exploring concepts that are still emerging and therefore unstable and in flux Unspun demonstrates how the tacit assumptions behind this rhetoric must be examined if we want to really know what we are saying when we talk about the Web Unspun will help readers more fully understand and become critically aware of the issues involved in living as we do in a wired society Contributors include Jay Bolter Sean Cubitt Jodi Dean Dawn Dietrich Cynthia Fuchs Matthew Kirschenbaum Timothy Luke Vincent Mosco Lisa Nakamura Russell Potter Rob Shields John Sloop and Joseph Tabbi

Women's Activism, Feminism, and Social Justice Margaret A. McLaren, 2019 A wide range of issues besieges women globally including economic exploitation sexist oppression racial ethnic and caste oppression and cultural imperialism This book builds a feminist social justice framework from practices of women s activism in India to understand and work to overcome these injustices The feminist social justice framework provides an alternative to mainstream philosophical frameworks that promote global gender justice for example universal human rights economic projects such as microfinance and cosmopolitanism McLaren demonstrates that these frameworks are bound by a commitment to individualism and an abstract sense of universalism that belies their root neo liberalism Arguing that these frameworks emphasize individualism over interdependence similarity over diversity and individual success over collective capacity McLaren draws on the work of Rabindranath Tagore to develop the concept of relational cosmopolitanism Relational cosmopolitanism prioritizes our connections while crucially acknowledging the reality of power differences Extending Iris Young s theory of political responsibility McLaren shows how Fair Trade connects to the economic solidarity movement The Self Employed Women s Association and MarketPlace India empower women through access to livelihoods as well as fostering leadership capabilities that allow them to challenge structural injustice through political and social activism Their struggles to resist economic exploitation and gender oppression through collective action show the vital importance of challenging individualist approaches to achieving gender justice The book is a rallying call for a shift in our thinking and practice towards re imagining the possibilities for justice from a relational framework from independence to interdependence from identity to intersectionality and from interest to socio political imagination

Unveiling the Magic of Words: A Report on "**Globalize Liberation How To Uproot The System And Build A Better World**"
