Pryor, 2014-05-20 This book was written out of my heart and experiences serving under the leadership of my brother pastor and bishop the late Bishop Marvin C Pryor Even though he has made his transition to Heaven his life has left an impact that will never be erased or forgotten The information shared is not theory but written from the brainstorming planning services events and regular staff sessions conducted at Victorious Believers Ministries Church of God in Christ from Saginaw Michigan In October of 2012 nearly four months prior to his death Bishop Marvin C Pryor celebrated twenty five years as pastor of the church I was blessed and honored to have been involved during most of that time The church name was Williams Memorial COGIC but by the end of his life the vision had reflected his purpose on earth so being changed to Victorious Believers Ministries VBM He and his wife Evangelist Ruth C Pryor lead us from Catch the Vision to the Vision Unfolds to Run with the Vision Pastor Pryor made the decision to change the name of the church from Williams Memorial to what is now called Victorious Believers Ministries VBM He chose a name to reflect the vision for the ministry and would stimulate each member to live victoriously no matter circumstances I served as the Director of Evangelism at the local church It was one of my responsibilities to encourage members to do personal evangelism one on one contact and corporate outreach efforts which extend to the masses VBM is yet working at fulfilling the vision even though Bishop Pryor is no longer present to guide His son Pastor Christopher V Pryor is directing and mandating the outreach of the ministry Go Fish Vailore Anandan, 2007-09-20 The book contains three parts Part 1 Adam was an auto worker he wanted to take a long vacation before his retirement He wanted to make his soul searching trip on his car named Rudy He wanted to figure out his life for the last time Adam his son Cady and his daughter in law Elena and his grand daughter Mothi took the road trip to California They did a lot of camping and fishing Adam talks about the evolution of life from as he understood He proposes a parametric system due to the variation of the basic dimensions such as time energy humanity and system He shows the niche for the existence of various species Thus they do not have a preprogrammed malice in their mind for their existence It is just a manifestation of energy We should not misuse the term survival of the fittest Part 2 They talked about various philosophies as they went thru the trip

Adam told many stories to explain his concepts He talks about a comprehensive outlook of all the current political systems such as individualism socialism and communism from the existence point of view Thus a connectivity between the systems can be established to transact in a humane way This could avoid various political imbalance in the society whether it may be a local or international As all the philosophers have mentioned if we can understand or define a problem well then we are already in the process of fixing it He talks about the logic for religious philosophy He explains that the process of looking beyond the individual or social or communalism is the basis for religion It is a process for looking beyond our lives He also explains that the most common hurdle that you face in the thought process of science or philosophy rationale is the entity called Conflict We do not face such hurdle in the religious thought process It is beyond the bounds of existence and hence we do not have the bounds of existence and hence the entity of conflict disappears He also talks about the human intuition He talks about how to develop the human intuition which is useful to form large patterns as well as to understand large patterns without the complete rationale understanding He touches on the topic of Order and Chaos He talks on the subject beyond the classical analysis of a broken cup and its implication on physics He mentions his comments on the intrinsic and extrinsic properties of the various entities Adam explains these concepts in short stories to his grand daughter Mothi Part 3 They progress well into their trip They reach San Francisco and went around with their family and friends They made a number of camping Adam was continuing his discourses He talked about Time and its manifestation He proposes the attributes of energy that makes the time move forward or makes a path where it evolves us to a better and able people as well as form a stable and peaceful system He proposes to obtain a positive arrow of time He continues his thought to form a theoretical process using systems and knowledge and science of mathematics He talks about the basis of various systems such as mathematics music language and computers and so on how to transfer between them and how the knowledge was perceived in the olden days thru human body and mind It was a mind boggling session on the perception of human mind on the grand theories and how he uses his own body and mind to perceive them understand them and formulate them He talks about error and the way we need to perceive it and he also mentions on the body model mind model and the interaction of energy and time He talks about energy and subjective energy and his experiment with information He talks about Natural vs Artificial design He uses the information theories and the financial systems and energy principles to create a proposal for inventing new material without the use of expen
