Indulgences: Luther, Catholicism, and the Imputation of Merit Mary C. Moorman, 2017-08-01 At the five hundredth anniversary of Martin Luther's Ninety Five Theses and the dawn of the Protestant movement Indulgences Luther Catholicism and the Imputation of Merit sets forth a revised theological interpretation of the Church's practice of indulgences Author Mary C Moorman argues that Luther's sola fide theology merely absolutized the very logic of indulgences which he sought to overthrow while indulgences in their proper context remain an irreducible witness to the Church's corporate nuptial covenant with Christ by which penitents are drawn into deeper fellowship with the Church and the Church's Lord As Robert W Shaffern Professor of Medieval History at the University of Scranton writes in his foreword to Indulgences Mary Moorman's book joins a number of recent scholarly studies that revise substantially the old convictions about indulgences She is mostly interested in how theological thinking about indulgences should be done today with of course the help that patristic medieval and early modern authorities might lend She brings to bear a broad range of primary and secondary sources on the issue of indulgences and constructs an impressive series of covalent images with which to understand the role of indulgences in today's Christian Church

Milevsky, 2022-01-31 David Novak is widely recognized as one of the most prominent Jewish thinkers in North America today and his most important contribution to philosophy has been his work on natural law This book is an exploration of the shift in the content and context of that theory by reference to the metaphysical meaning that Novak ultimately assigns to reason This change is then analyzed within the framework of Novak's covenantal theology and his developing view of redemption in particular Through this examination this book highlights the contribution of Novak's natural law theory to the continuing debate over the role of reason in Judaism

Christian Ethics Introduced Hans O. Tiefel, 2024-03-11 *Christian Ethics Introduced* asks why humans count as ends in themselves The biblical answer was that humans have standing inherent worth as creatures in the image of God This traditional answer yielded to seventeenth and eighteenth century enlightenment secularism To these secularists human reason promised to be a surer and more peaceable foundation for a just culture than religion Human rationality the light of human reason would enlighten and improve the human condition Two world wars and more realistic trends in new social sciences created not just awareness of human irrationality but fostered skepticism of sound foundations for morality and justice It seemed that both traditional religion and enlightened reason fell short of what had been hoped And the cause of failure may not lie in traditional religion or in human irrationality Rather the problem might lie in human conduct Specifically it may lie in the human inclination to favor self over others of the me outranking the we Christian responses to the human failure to live a moral and just life recognize the persistence of immoral conduct acknowledge it in regard to oneself ask for forgiveness and make amends and peace with God and with those wronged

Election of Israel David Novak,1995-05-04 In this book David Novak conducts an historical philosophical and theological reflection on the central Jewish doctrine of Israel s election by God also known as the idea of the chosen people Historically he analyses the great change in modern Jewish thought brought about by Spinoza s inversion of the doctrine that it was not God who elected Israel but Israel who elected God The development of that inversion is illustrated by the thought of the German philosopher theologian Hermann Cohen Philosophically Novak explores the ontological implications of the two differing theologies of election Theologically he argues for the correlation of election and revelation and maintains that a theology of election is required in order to deal with two central questions namely who are the Jews and how are Jews to be related to the world The constructive picture which results leads to a fresh understanding of Jewish modernity Tradition in the Public Square David Novak,Randi Rashkover,2008-03-12 Tradition in the Public Square collects key essays by David Novak one of the world s leading contemporary Jewish thinkers Novak s insightful writings in this reader address the

inextricable relationship between philosophical and theological matters and present the implications of his philosophical theology for social ethics and theopolitics. One of the marks perhaps the most important mark of a great thinker is the ability to respond to the conditions and problems of one's time by changing the terms of the conversation. By this standard David Novak ranks as one of the great American theologians of our time. His work a response to the primary issue confronting modern Judaism namely what it means to be a part of Western culture yet separate from its secularized form of life has helped to make Jewish theology and philosophy thriving fields in North American university life from the introduction of The Seed of Abraham Michael M. C. Reardon, Pesach Wolicki, 2025-06-25. The inspiration for this volume emerged from years of friendship dialogue and collaboration between a Jewish rabbi and Christian professor. Historically Jewish-Christian relations has been a fraught sphere of inquiry. Despite sharing a set of Scriptures the relationship between Christians and Jews has been marked by distrust misunderstandings and exaggerated theological differences which taken together appear to create an indissoluble wedge between the two faiths. This volume brings the two faiths into fruitful and productive dialogue by unearthing recondite yet highly significant features shared between them. Beyond being an academic exercise the aspiration undergirding this project is to bridge the gap between Jews and Christians and by doing so chart a path forward toward rapprochement reconciliation and Jewish-Christian unity.

Covenant Marriage in Comparative Perspective John Witte (Jr.), Eliza Ellison, 2005-10-20. Covenant marriages requiring premarital counseling and tighter strictures on divorce have recently emerged in some American states. At the same time the doctrine of covenant has reemerged in religious circles as a common way to map the spiritual dimensions of marriage. Covenant Marriage in Comparative Perspective brings together eminent scholars from Jewish Orthodox Catholic Protestant and Islamic religious traditions as well as experts on American covenant marriage. The introduction carries out an unprecedented comparison of contract and covenant in Jewish-Christian and Muslim understandings of marriage. The rest of the book elucidates various facets of marriage from the perspectives of both jurisprudence and religion producing an enlightening integrated picture of the legal and spiritual dimensions of marriage.

Covenantal Rights David Novak, 2009-11-02. Covenantal Rights is a groundbreaking work of political theory a comprehensive philosophically sophisticated attempt to bring insights from the Jewish political tradition into current political and legal debates about rights and to bring rights discourse more fully into Jewish thought. David Novak pursues these aims by presenting a theory of rights founded on the covenant between God and the Jewish people as that covenant is constituted by Scripture and the rabbinic tradition. In doing so he presents a powerful challenge to prevailing liberal and conservative positions on rights and duties and opens a new chapter in contemporary Jewish political thinking. For Novak covenantal rights are rooted in God's primary rights as creator of the universe and as the elector of a particular community whose members relate to this God as their sovereign. The subsequent rights of individuals and communities flow from God's covenantal promises which function as irrevocable entitlements. This presents a sharp contrast to the liberal tradition in

which rights flow above all from individuals It also challenges the conservative idea that duties can take precedence over rights since Novak argues that there are no covenantal duties that are not backed by correlative rights Novak explains carefully and clearly how this theory of covenantal rights fits into Jewish tradition and applies to the relationships among God the covenanted community and individuals This work is a profound and provocative contribution to contemporary religious and political theory

Ethics at the Center Elliot N. Dorff, 2024-03 Ethics at the Center culls the best of Rabbi Elliot N Dorff's pioneering thinking in Jewish ethics over nearly five decades Dorff shows that our response to moral issues depends ultimately on our conceptions of the nature of human beings and God how Jewish law theology prayer history and community should also define and motivate Jewish responses to moral issues and how the honorable and divergent stances of Western philosophy and other religions about moral living shed light on Judaism's distinctive standpoints From there Dorff applies Judaism's ethics to real life abortion post Roe v Wade sexual orientation and human dignity avoiding harm in communication playing violent or defamatory video games modern war ethics handling donations of ill gotten gain after the fact In conclusion he explores how Jewish family and community holidays and rituals theology study and law have moral import as well Dorff's personal introduction to each chapter reflects on why and when he wrote its contents its continuing relevance and if and if so how he would now change what he wrote earlier Readers will experience not only his evolving ethical thought but many facets of the person and the Jew that Dorff is today
