**Serving Library Users from Asia** John Hickok,2019-06-12 Asian populations are among some of the fastest growing cultural groups in the US While books on serving other target

groups in libraries have been published e.g. disabled Latino seniors etc. few books on serving library users of Asian heritage have been written. Thus the timely need for this book. Rather than a generalized overview of Asians as a whole, this book has 24 separate chapters each on 24 specific Asian countries, cultures of East, Southeast and South Asia, with a wealth of resources for understanding, interacting with, outreaching to, and serving library users of each culture. Resources include cultural guides, both print and online, language helps with sample library vocabulary, Asian booksellers, nationwide cultural groups, professional literature, and more. Resources and suggestions are given for all three types of libraries: public, school, and academic, making this book valuable for all librarians. The demographics of each Asian culture, numbers and distribution, plus history of immigration and international student enrollment is also featured. As a bonus, each chapter spotlights a US public school and academic library providing model outreach to Asian library users. Additionally, this book provides a detailed description and analysis of libraries in each of the 24 Asian countries. The history, development, facilities, conditions, technology, classification systems, and more of public, school, and academic libraries are all discussed with detailed documentation. Country conditions influencing libraries and library use are also described, literacy levels, reading cultures, languages, and writing systems, educational systems, and more. Based on the author's 15 years of research and travels to Asia, this work is a must-have for all librarians. *GeoPolitics and the Media in Asia and the Pacific* Kalinga

Seneviratne, 2024-10-31. This book is a timely publication that focusses on the media's role in fermenting geo-political battles pulling the Asia-Pacific region in different directions, threatening to disturb the peace and the hard-won prosperity of Asia. The book examines the media narratives of the brewing geo-political tensions in the Indian Ocean, the South China Sea, and the South Pacific Ocean, questioning whether the media's adversarial culture is to blame for the military focus of the reporting. Looming battles in the Himalayas and the Mekong River regions are also dealt with. The author questions the hypocrisy of the rules-based order and debt-trap media narratives, arguing that the West needs to understand the East and respect their viewpoints. The book provides ideas and guidelines for both global, western, and regional media to report geo-political issues without a militarist mindset. *Culture and Customs of the Central Asian Republics* Rafis Abazov, 2006-12-30

The Central Asian Republics of Kazakhstan, Kyrgyzstan, Turkmenistan, Tajikistan, and Uzbekistan won their independence from the Soviet Union in 1991. Now they are emerging from the shadow of dominance and are subjects of intense interest from the West. The modern culture and customs of the various peoples in these geopolitical hotspots straddling the far reaches of Europe into Asia are revealed to a general audience for the first time. This will be the must-have volume for a broad authoritative overview of these traditional civilizations as they cope with globalization. **The Post-Soviet Decline of**
