Hercules and the King of Portugal investigates how representations of masculinity figure in the fashioning of Spanish national identity scrutinizing ways that gender performances of two early modern male icons Hercules and King Sebastian are structured to express enduring nationhood The classical hero Hercules features prominently in Hispanic foundational fictions and became intimately associated with the Hapsburg monarchy in the early sixteenth century King Sebastian of Portugal 1554-78 both during his lifetime and after his violent death has been inserted into his own land's charter myth even as competing interests have adapted his narratives to promote Spanish power The hybrid oral and written genre of poetic Spanish theater as purveyor and shaper of myth was well situated to stage and resolve dilemmas relating both to lineage determined by birth and performance of masculinity in ways that would ideally uphold hierarchy Dian Fox's ideological analysis exposes how the two icons are subject to political manipulations in seventeenth century Spanish theater and other media Fox finds that officially sanctioned and sometimes popularly produced narratives are undercut by dynamic social and gendered processes Hercules and Sebastian slip outside normative discourses and spaces to enact nonnormative behaviors and unproductive masculinities *Stonewall Jackson and Religious Faith in Military Command* Kenneth E.

Hall, 2005-05-03 The relationship between war and religion is nothing new For millennia humankind has waged war over religion and derived religion from war It is not surprising then that military leadership and religious conviction frequently coincide This study documents the long tradition of the religious warrior in Western history and literature with a special focus on Civil War general Thomas J Stonewall Jackson It also provides a general survey of the religious antecedents of Jackson and other more modern American military heroes The book begins with an introduction to the Confederate general largely from the perspective of those who lived with and served under him whose testimonies attest to his courage initiative innate tactical talent deep religious faith and eccentric personal habits The author analyzes the extent to which Jackson's national zeal has elevated him to the status of a religious martyr remembered today within an epic frame of sainthood and heroism Concise comparisons are drawn between Jackson and his Old World predecessors including Ulrich Zwingli John Knox and Oliver Cromwell Similar associations are made between Jackson and such Civil War contemporaries as William Dorsey Pender and Oliver Otis Howard A chapter addressing the representation of Stonewall in modern Civil War literature

and film particularly in the novel and subsequent motion picture *Gods and Generals* provides an insightful juxtaposition of Jackson's status among the gods of the Civil War and his own reverence for the God of his Presbyterian faith

Cannibalizing the Colony Richard Allen Gordon, 2009 The years 1992 and 2000 marked the 500 year anniversary of the arrival of the Spanish and the Portuguese in America and prompted an explosion of rewritings and cinematic renditions of texts and figures from colonial Latin America *Cannibalizing the Colony* analyzes a crucial way that Latin American historical films have grappled with the legacy of colonialism It studies how and why filmmakers in Brazil and Mexico the countries that have produced most films about the colonial period in Latin America appropriate and transform colonial narratives of European and indigenous contact into commentaries on national identity The book looks at how filmmakers attempt to reconfigure history and culture and incorporate it into present day understandings of the nation The book additionally considers the motivations and implications for these filmic dialogues with the past and how the directors attempt to control the way that spectators understand the complex and contentious roots of identity in Mexico and Brazil

Azevedo,2005-01-13 Publisher Description *AfroEuropeans* Cristina Roldão,Raquel Lima,Pedro

Varela, Otávio Raposo, Ana Raquel Matias, 2025-06-06 *AfroEuropeans Identities Racism and Resistances* reflects on the tensions, ambiguities, and paradoxes of Blackness in Europe. The book addresses relations of domination and modes of racial exclusion but also Afro-European interventions in the political, social, cultural, and artistic spheres and the multiple resistances that have sustained Black bodies in the European continent. At the same time as Black histories, cultures, and social conditions are made invisible in hegemonic accounts in Europe, there is a hypervisibility and presence of Black stereotyping in European popular culture. Black identities have become even more conditioned by new mainstream, far-right discourses and the tightening immigrant and refugee policies that affect people of African descent. One of the book's most innovative contributions is the attention it gives to Black South European thought, experiences, and resistance, particularly in the Portuguese context. This constitutes not only a critique of Europe's pervasive racism and color-blindness policies but also makes a significant contribution to a broader understanding of Blackness and racism extending beyond the U.S. and Northern European contexts. This book is forged in a moment of particularly strong Black intellectual and political vitality. Given the book's intersectional and transdisciplinary approach, it will be an important go-to for students and researchers across the humanities and social sciences, as well as to artists, activists, politicians, and journalists.
