Antitrust Laws The Case of Facebook v FTC

TOMORROW'S WORLD ORDER'S PERSPECTIVE David Gomadza, 2021-01-05 It is an unprecedented challenge to strike the correct balance between regulatory burden and trade facilitation that often result in either vicious cycles or virtuous cycles that determine whether corporations and Trusts will merge and grow bigger to take advantage of the often misunderstood and under appreciated concept of economies of scale The antitrust laws had been actively breaking down and enabling Rollback to sizes perceived as manageable and not threats to the governments the FTC and the interstates rather than to competition This has been going on for the past seventy years or even more with little or no progress We believe mankind is still in the defensive stage of development when we should be in networking and cooperation Where we use advanced technology to share ideas and develop technologies that will take us out of this defensive stage The question is this Are the FTC the interstate and the governments doing the right thing in attacking these tech giants Going after each one of them with a direct pre planned goal To interrogate accuse rip them off through fines then break them up into smaller sizes to

facilitate competition and provide a free market at the same time creating value for the consumer Then Rollback all to sizes perceived as safe and not threats Or it is time we all argue that these agencies use the Rule of Reason as we believe that not all corporations or antitrust are evil Some are good and are the only ones to take us to the next stage of development Is it not time to let these tech giants lead the way Do you know that 70 % or more of the most powerful entities in the world are corporations and Trusts Big enough with vast resources to turn things around for us Is it not time to let these lead the way Is it not also time for a new global legal framework Surely the growth of these has surpassed those at the time the Sherman Act was enacted in 1890 when the Federal Trade Commission and the Department of Justice were tasked to deal with these Is it not the time for a real global leader to act as a referee between these FTC interstates governments and these corporations I think it is time for Tomorrow s World Order to guide and act as the overseer To lead mankind to the next stage of development Surely we can t afford to waste any more time The context in which these antitrust laws were enacted must be considered We think it is not only a miscarriage of justice but grossly flawed and a criminal offence on the part of the Federal Trade Commission and its allies to consider that carrying out a SWOT analysis and acting on the results is an anti competitive tactic Remember they follow the legal corporations or company s act When this tactic is a legally approved method to deal with the issues of the lack of incentives to invest The need to merge and gain economies of scale to overcome and conquer the vicious cycle and go to the virtuous stages Corporations do what they do because this is the only way they can go to the next stage A stage that will see them realise economies of scale and be able to offer the highest quality products at lower prices different from what the FTC and its allies are regarding as benefits What can be beneficial to the consumers if the products are okay cheaper But of poor quality as compared to what can be achieved What do you call competition and variety when you refer to small sized early entry companies most of whom only make a profit to remain in business without any to invest That makes us ask What are the real motives of these agencies Are they milking these tech giants or planning to Who are the real people or agencies harming the people Are all these agencies clean or they are the worst competition blockers Masters of poor service provisions and involved in human hacking for stealing data secretly and using this to get illegal donations as they pass tips We know tech giants breach privacy and personal data laws too

Great Powers and World Order Charles W. Kegley, Gregory A. Raymond, 2020-02-12 *Great Powers and World Order* encourages critical thinking about the nature of world order by presenting the historical information and theoretical concepts needed to make projections about the global future Charles W Kegley and Gregory Raymond ask students to compare retrospective cases and formulate their own hypotheses about not only the causes of war but also the consequences of peace settlements Historical case studies open a window to see what strategies for constructing world order were tried before why one course of action was chosen over another and how things turned out By moving back and forth in each case study between history and theory rather than treating them as separate topics the authors hope to situate the assumptions causal claims and policy prescriptions of

different schools of thought within the temporal domains in which they took root giving the reader a better sense of why policy makers embraced a particular view of world order instead of an alternative vision

A World Beyond Global Disorder Fred Dallmayr, Edward Demenchonok, 2017-05-11 A world which like ours has been ravaged by some sixty wars in recent decades can rightly be described as the scene of global disorder Even today the same world is traumatized by hot and cold wars proxy wars and repeated outbursts of blood filled mayhem not to mention the threat of a nuclear holocaust unleashed by big power rivalries These are not mere statistics but wounds in the body of humanity calling for healing and reconciliation In biblical terms human beings are not meant to be the owners or the destroyers of the world but rather its custodians or caretakers This collection is a summons to responsible care taking and it approaches the subject from an intercultural perspective in a variety of fields including religion and politics The topics covered range from accounts of major global calamities today to explorations of possible political economic and societal reforms and to the invocation of basic religious and philosophical resources needed for the recovery of a world beyond global disorder

China Debates Its Global Role Shaun Breslin, Ren Xiao, 2021-09-30 What do China's scholars make of the nature of China's global rise And what is the significance of academic debates for Chinese policy goals and preferences In this book leading Chinese specialists outline how their colleagues are studying and interpreting different dimensions of China's evolving global role opening these Chinese language debates to a new audience Collectively they show that while some ideas and ways of thinking are more prominent than others there is no homogeneity of scholarship and no single conception of what China thinks and wants Not only has the range of

issue areas under discussion actually increased as China's global role and impact has changed but there also remains considerable diversity when it comes to thinking on what China can, might and should try to do as a global power and how China's global role should be studied and theorized. The chapters in this book were originally published in the journal *The Pacific Review*. (Re)Imagining Humane Global Governance Richard Falk, 2013-10-08. In this important and path-breaking book, esteemed scholar and public intellectual Richard Falk explores how we can re-imagine the system of global governance to make it more ethical and humane. Divided into three parts, this book firstly scrutinizes the main aspects of Global Governance including Geopolitics, The Future of International Law, Climate Change and Nuclear Weapons, 9/11, Global Democracy and the UN. In the last part, Falk moves the discussion on to the search for Progressive Politics, the Israel-Palestinian conflict and the World Order Models Project. Drawing on, but also rethinking the normative tradition in international relations, he examines the urgent challenges that we must face to counter imperialism, injustice, global poverty, militarism and environmental disaster. In so doing, he outlines the radical reforms that are needed on an institutional level and within global civil society if we are to realize the dream of a world that is more just, equitable and peaceful. This important work will be of interest to all students and scholars of global politics and international relations.
