Guyana Emergent Robert H. Manley, 1982

Guiana and the Shadows of Empire Joshua R. Hyles, 2013-12-04 This book is a history of the three Guianas now known as Guyana Suriname and French Guiana Though histories of each of the countries exist this is the first work in a century to consider the three countries as a group and thus the first to present the history of all three as a comparative and overarching study Special emphasis has been given to the story of how each colony was administered by Britain the Netherlands and France respectively and how these differing colonial administrative policies have given rise to three vastly different cultures Because the geographical area of the Guianas is relatively small the indigenous population at the time of contact was relatively uniform across the area and the

external pressures on the three colonies over their histories exhibited significant similarities the book presents the Guianas as an ideal laboratory in which to study the effects of imperialism and cultural assimilation practices The book also briefly considers the present political and cultural status of the three polities and makes some projections about their possible futures In all the book presents a complete history from prehistory until the present day covering the entirety of the Guianas region relating a colorful history from a little studied corner of the world *Neoliberal Democratization and New Authoritarianism* Dennis C. Canterbury, 2019-06-04 Originally published in 2005 Domestic and foreign economic and political policies in the rich capitalist nations in the North and in the poor countries in the South are geared towards globalization and democratization Indeed the dominant view held by countries in the North is that globalization leads to democracy and vice versa and that in turn economic development will result from that process Thus many scarce resources are allocated to bring about globalization and democracy Exploring the dynamics of change that allow for the persistence of authoritarian states in the Third World this illuminating book highlights certain aspects of democratization that have not been investigated fully Anyone interested in development politics and political sociology will draw a plethora of important theoretical insights into globalization authoritarianism and transition democratization from this original study **Constructing Vernacular Culture in the Trans-Caribbean** Holger Henke, Karl-Heinz Magister, 2008-01-01 Constructing Vernacular Culture in the Trans Caribbean traces the contradictory cultural trajectories constructed and re produced in the fluid diasporic spaces we call the Trans Caribbean Particular emphasis is placed on such cultural expressions that reflect or derive from the cultural vernacular and popular culture as it exists in these spaces Its multidisciplinary approach and focus on different language areas in the Trans Caribbean are of particular interest to scholars in cultural studies migration literary theory and cultural criticism **U.S. Intervention in British Guiana** Stephen G. Rabe, 2006-05-26 In the first published account of the massive U S covert intervention in British Guiana between 1953 and 1969 Stephen G Rabe uncovers a Cold War story of imperialism gender bias and racism When the South American colony now known as Guyana was due to gain independence from Britain in the 1960s U S officials in the Kennedy and Johnson administrations feared it would become a communist nation under the leadership of Cheddi Jagan a Marxist who was very popular among the South Asian mostly Indian majority Although to this day the CIA refuses to confirm or deny involvement Rabe presents evidence that CIA funding through a program run by the AFL CIO helped foment the labor unrest race riots and general chaos that led to Jagan s replacement in 1964 The political leader preferred by the United States Forbes Burnham went on to lead a twenty year dictatorship in which he persecuted the majority Indian population Considering race gender religion and ethnicity along with traditional approaches to diplomatic history Rabe s analysis of this Cold War tragedy serves as a needed corrective to interpretations that depict the Cold War as an unsullied U S triumph [The Venezuela-Guyana Border Dispute](#) Jacqueline A. Braveboy-wagner, J Braveboy-Wagner, 2019-07-11 The expiration in 1982 of the Protocol of Port of Spain reheated a border

dispute between Venezuela and Guyana that had been frozen since 1970 Almost at once Venezuelan ultranationalists asserted the need to recover by force the Essequibo region of Guyana two thirds of that country which Venezuela had long claimed While rejecting force as a solution the Venezuelan government has indicated that the Protocol will not be renewed thus pushing the economically and politically vulnerable Guyana toward new and uncertain negotiations This book describes the actors and their stake in the conflict the capacity of each to develop the disputed region and the implications of the Venezuelan claim for both sides Incorporating a critical examination of the conflict s historical legal background Dr Braveboy Wagner chronicles the progress of the dispute through its various stages and describes the attempts of both sides to elicit outside support especially from other Third World nations Finally she assesses the possibilities for a solution by force and by compromise and considers the potential for U S involvement

Ethnicity, Class, and Nationalism Anton L. Allahaar, 2005-06-28 Celebrants of an ever emerging globalization fly the banner of free trade the mass marketization of once faltering economies and rising economic and social standards for all Many opponents to globalization rightfully point out that borders still exist largely for the purposes of keeping one commodity in its place the labor commodity or the more familiar immigrant Arguments of this type are often steeped in economic and social discourse Race and ethnicity are seen as either being subsumed by this discourse or are entirely ignored as incidental to this type of political thought In *Ethnicity Class and Nationalism Caribbean and Extra Caribbean Dimensions* specialists writing on the Caribbean form of the nation state place race and ethnicity along with class in its proper context at the very foundations of the modern nation Editor Anton L Allahaar has handpicked scholarship that is both contemporary and expert in its consideration of Caribbean geo politics Furthermore essays in this volume include comparative cases from around the globe In the interest of locating race and ethnicity as sociological and political categories that are inimical to contemporary conceptions of the nation state Allahaar explores spaces other than the Caribbean The result is a comparative study that is unique in scope and also in its level of scholarly reflection This book is the first of its kind It is essential reading for anyone interested in advancing their analysis of political economic social and cultural thought in the Caribbean
