Piotrowska, 2022-02-10 This book highlights the role of Romani musical presence in Central and Eastern Europe especially from Krakow in the Communist period and argues that music can and should be treated as one of the main points of relation between Roma and non Roma. It discusses Romani performers and the complexity of their situation as conditioned by the political situations starkly affected by the Communist regime and then by its fall. Against this backdrop the book engages with musician Stefan Dymiter known as Corro as the leader of his own street band unwelcome in the public space by the authorities merely tolerated by others but admired by many passers by and respected by his peer Romain musicians and international music stars. It emphasizes the role of Romani musicians in Krakow in shaping the soundscape of the city while

also demonstrating their collective and individual strategies to adapt to the new circumstances in terms of the preferred performative techniques repertoire and overall lifestyle

Romani Writing Paola Toninato,2013-12-17 The Roma commonly known as Gypsies have largely been depicted in writings and in popular culture as an illiterate group However as Romani Writing shows the Roma have a deep understanding of literacy and its implications and use writing for a range of different purposes While some Romani writers adopt an oral use of the written medium which aims at opposing and deconstructing anti Gypsy stereotypes other Romani authors use writing for purposes of identity building Writing is for Romani activists and intellectuals a key factor in establishing a shared identity and introducing a common language that transcends linguistic and geographical boundaries between different Romani groups Romani authors acting in between different cultures and communication systems regard writing as an act of cultural mediation through which they are able to rewrite Gypsy images and negotiate their identity while retaining their ethnic specificity Indeed Romani Writing demonstrates how Romani authors have started to create self images in which the Roma are no longer portrayed as objects but become subjects of written representation
