College of Literature, Science, and the Arts, 2007 Heritage Quest, 1989 **True American** Rosemary C. Salomone, 2010-03-30 How can schools meet the needs of an increasingly diverse population of newcomers Do bilingual programs help children transition into American life or do they keep them in a linguistic ghetto Are immigrants who maintain their native language uninterested in being American or are they committed to changing what it means to be American In this ambitious book Rosemary Salomone uses the heated debate over how best to educate immigrant children as a way to explore what national identity means in an age of globalization transnationalism and dual citizenship She demolishes popular myths that bilingualism impedes academic success that English is under threat in contemporary America that immigrants are reluctant to learn English or that the ancestors of today s assimilated Americans had all to gain and nothing to lose in abandoning their family language She lucidly reveals the little known legislative history of bilingual education its dizzying range of meanings in different schools districts and states and the difficulty in proving or disproving whether it works or defining it as a legal right In eye opening comparisons Salomone suggests that the simultaneous spread of English and the push toward multilingualism in western Europe offer economic and political advantages from which the U S could learn She argues eloquently that multilingualism can and should be part of a meaningful education and responsible national citizenship in a globalized world **Historic Lubbock County** Donald R. Abbe, Paul Howard Carlson, 2008 **Preservation Education** Barry L. Stiefel, Jeremy C. Wells, 2014-09-02 Over the past twenty years there has been a fundamental shift in the institutional organization of historic preservation education Historic preservation is the most recent arrival in the collection of built environment disciplines and therefore lacks the pedagogical depth and breadth found in allied endeavors such as architecture and planning As the first degree programs in preservation

only date to the 1970s and the first doctoral programs to the 1990s new faculty are confronted with pedagogical challenges that are unique to this relatively nascent field Based on a conference that included educators from around the world Barry L Stiefel and Jeremy C Wells now present a collection that seeks to address fundamental issues of preservation pedagogy outcome based education and assessment and global issues of authenticity and significance in historic preservation The editors argue that the subject of the analysis has shifted from What is the best way to fix a historic building to What are the best ways for teaching people how to preserve historic properties and why according to the various standards that have been established This important reconsideration of the state of the field in historic preservation education will appeal to a broad audience across numerous disciplines **Resources in Education** ,1998 *The Congregationalist and Advance* ,1918
