Southern Writers Joseph M. Flora, Amber Vogel, 2006-06-21 This new edition of *Southern Writers* assumes its distinguished predecessor's place as the essential reference on literary artists of the American South. Broadly expanded and thoroughly revised, it boasts 604 entries, nearly double the earlier edition's written by 264 scholars. For every figure, major and minor, from the venerable and canonical to the fresh and innovative, a biographical sketch and chronological list of published works provide comprehensive, concise, up-to-date information. Here, in one convenient source, are the South's novelists and short story writers, poets and dramatists, memoirists and essayists, journalists, scholars, and biographers from the colonial period to the twenty-first century. What constitutes a southern writer is always a matter for debate. Editors Joseph M. Flora and Amber Vogel have used a generous definition that turns on having a significant connection to the region in either a personal or literary sense. New to this volume are younger writers who have emerged in the quarter century since the dictionary's original publication, as well as older talents previously unknown or unacknowledged. For almost every writer found in the previous edition, a new biography has been commissioned. Drawn from the very best minds on southern literature and covering the full spectrum of its practitioners, *Southern Writers* is an indispensable reference book for anyone intrigued by the subject.

The Lever of Riches Joel Mokyr, 1992-04-09 In a world of supercomputers, genetic engineering, and fiber optics, technological creativity is ever more the key to economic success. But why are some nations more creative than others, and why do some highly innovative societies, such as ancient China or Britain in the industrial revolution, pass into stagnation? Beginning with a fascinating, concise history of technological progress, Mokyr sets the background for his analysis by tracing the major inventions and innovations that have transformed society since ancient Greece and Rome. What emerges from this survey is often surprising: the classical world, for instance, was largely barren of new technology; the relatively backward society of medieval Europe bristled with inventions; and the period between the Reformation and the Industrial Revolution was one of slow and unspectacular progress in technology, despite the tumultuous developments associated with the Voyages of Discovery and the Scientific Revolution. What were the causes of technological creativity? Mokyr distinguishes between the relationship of inventors and their physical environment, which determined their willingness to challenge nature, and the social environment, which determined the openness to new ideas. He discusses a long list of such factors, showing how they interact to help or hinder a nation's creativity, and then illustrates them by a number of detailed comparative studies examining the differences between Europe and China, between classical antiquity and medieval Europe, and between Britain and the rest of Europe during the industrial revolution. He examines such aspects as the role of the state; the Chinese gave up a millennium-wide lead in shipping to the Europeans, for example, when

an Emperor banned large ocean going vessels the impact of science as well as religion politics and even nutrition He questions the importance of such commonly cited factors as the spill over benefits of war the abundance of natural resources life expectancy and labor costs Today an ever greater number of industrial economies are competing in the global market locked in a struggle that revolves around technological ingenuity The Lever of Riches with its keen analysis derived from a sweeping survey of creativity throughout history offers telling insights into the question of how Western economies can maintain and developing nations can unlock their creative potential The Cambridge Companion to the Twentieth-Century American Novel and Politics Bryan M. Santin,2023-10-12 Surveying the relationship between American politics and the twentieth century novel this volume analyzes how political movements ideas and events shaped the American novel It also shows how those political phenomena were shaped in turn by long form prose fiction The book is made up of three major sections The first section considers philosophical ideologies and broad political movements that were both politically and literarily significant in the twentieth century United States including progressive liberalism conservatism socialism and communism feminism and Black liberation movements The second section analyzes the evolving political valences of key popular genres and literary forms in the twentieth century American novel focusing on crime fiction science fiction postmodern metafiction and immigrant fiction The third section examines ten diverse politically minded novels that serve as exemplary case studies across the century Combining detailed literary analysis with innovative political theory this Companion provides a groundbreaking study of the politics of twentieth century American fiction **Bartlett's Familiar Black Quotations** Retha Powers,2025-05-01 A comprehensive all new collection bringing together the most thoughtful inspiring and wisest voices from the Black diaspora across history Bartlett s Familiar Black Quotations paints a rich canvas of Black history through time Five thousand quotes are culled from the time of Ancient Egypt through American slavery Jim Crow the Civil Rights Era Apartheid to the present day With a foreword by Henry Louis Gates Jr and passages from authors artists scientists philosophers theologians activists politicians and many others Bartlett s Familiar Black Quotations will appeal not only to quote aficionados and researchers but also to history buffs Aesop s Fables and the Holy Bible are in the same company as Nelson Mandela and President Obama Maya Angelou and Toni Morrison Bob Marley and Jay Z A wonderful reference tool and gift Bartlett s Familiar Black Quotations is sure to follow in the footsteps of Bartlett s Familiar Quotations becoming a beloved authority **Literary Adaptations in Black American Cinema** Barbara Tapa Lupack,2002 By contrast in the works of black writers from Oscar Micheaux to Toni Morrison the black experience has been more fully more accurately and usually more sympathetically realized and from the early days of film select filmmakers have looked to that literature as the basis for their productions **The 100 Most Popular Young Adult Authors** Bernard A.
