Heros Et Son Double:

Le héros et son double Marie-Hélène Huet, 1975 **The Other Rise of the Novel in Eighteenth-Century French Fiction** Olivier Delers, 2015-09-01 The rise of the novel paradigm and the underlying homology between the rise of a bourgeois middle class and the coming of age of a new literary genre continues to influence the way we analyze economic discourse in the eighteenth century French novel Characters are often seen as portraying bourgeois values even when historiographical evidence points to the virtual absence of a self conscious and coherent bourgeoisie in France in the early modern period Likewise the fact that the nobility was a dynamic and diverse group whose members had learned to think in individualistic and meritocratic terms as a result of courtly politics is often ignored The Other Rise of the Novel calls for a radical revision of how realism the language of self interest and commercial exchanges and idealized noble values interact in the early modern novel It focuses on two novels from the seventeenth century Furetière's Roman bourgeois and Lafayette's Princesse de Clèves and four novels from the eighteenth century Prevost's Manon Lescaut Graffigny's Lettres d'une Pruvienne Rousseau's La Nouvelle Héloïse and Sade's Les infortunes de la vertu It argues that eighteenth century French fiction does not reflect material culture mimetically and that character action is best analyzed by focusing on the social and discursive exchanges staged by the text rather than by trying to create parallels between specific behavior and actual historical changes The novel produces its own reality by transforming characters and their stories into alternative social models different articulations of how individuals should define their economic relations to others The representation of interpersonal relations often highlights personal conceptions of private interest that cannot be easily reconciled with the traditional narrative of a transition towards economic modernity Realism then is not only about verisimilar storytelling and psychological depth it is an epistemological questioning about the type of access to reality that a particular genre can give its readers **Self-Imitation in the Eighteenth-Century Novel** Marie-Paule Laden, 2014-07-14 To the linguistic inquiry associated with Benveniste and to the current preoccupation with the nature of writing Professor Laden joins a more philosophical probing of the nature of the self At issue is how language serves the self and whether its role is one of presentation representation or generation The author argues that the self in the works she analyzes comes to appear either as a void or as a series of related verbal constructs never wholly adequate or unified Originally published in 1987 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 Mythe et tradition populaire dans l'imaginaire dickensien Lucien Pothe, 1979-01-01 T00:00:00+01:00 Cet ouvrage est une réédition numérique d'un livre paru au XXe siècle d'ormais

indisponible dans son format d'origine **Pensée de Marivaux**, 2016-08-09 Envisager la pensée d'uncrivain que la tradition ne tient pas pour un penseur et dont les textes n'pargnent pas la prétention philosophique peut paraître paradoxal voire naïf Mais ce serait oublier que la réflexion prend bien des chemins et que la littérature est un espace de pensée Il faudrait par conséquent plutôt s'tonner du fait qu'il puisse sembler anormal d'interroger la pensée d'uncrivain Mais le terrain est il est vrai min Mieux vaut repartir sur des bases modestes et claires d'après quelques constats Ainsi concernant Marivaux est il frappant de relever l'importance que tiennent les réflexions dans ses textes Rien de plus légitime d'ailleurs que de se demander si ces pensées apparemment décousues n'entrent pas dans une conception ordonnée du réel et de l'humanité Il ne s'agit pas pour autant d'en revenir une position simpliste consistant attribuer chaque auteur une conception du monde partir d'un relevé de ses affirmations explicites ou implicites Plutôt que de se fourvoyer dans un exposé artificiellement complet de la pensée de Marivaux il paraît plus intéressant de faire quelques pas en direction de ce qui est pensé dans les textes de Marivaux
