Utilitarianism and the Ethics of War William H. Shaw, 2016-02-15 This book offers a detailed utilitarian analysis of the ethical issues involved in war Utilitarianism and the Ethics of War addresses the two basic ethical questions posed by war when if ever are we morally justified in waging war and if recourse to arms is warranted how are we permitted to fight the wars we wage In addition it deals with the challenge that realism and relativism raise for the ethical discussion of war and with the duties of military personnel and the moral challenges they can face In tackling these matters the book

covers a wide range of topics from pacifism to armed humanitarian intervention from the right of national defense to pre-emptive or preventive war from civilian immunity to the tenets of just war theory and the moral underpinnings of the rules of war. But what is distinctive about this book is that it provides a consistent and thoroughgoing utilitarian or consequentialist treatment of the fundamental normative issues that war occasions. Although it goes against the tide of recent work in the field, a utilitarian approach to the ethics of war illuminates old questions in new ways by showing how a concern for well-being and the consequences of our actions and policies shape the moral constraints to which states and other actors must adhere. This book will be of much interest to students of the ethics of war, just war theory, moral philosophy, war and conflict studies, and IR.

Defusing the Sexuality Debate Mark Vasey-Saunders, 2023-07-30 As debates around sexuality rumble on within certain sections of the church and become increasingly entrenched and embittered, there is an increasing need from non-evangelicals and evangelicals alike to grasp the historical and cultural context in which current debates about sexuality are happening. Offering a detailed examination of the development, consolidation, and fracturing of an evangelical/anglican consensus on the sexuality debate, *Defusing the Sexuality Debate* seeks to explain why current disagreements are so intractable and offer some suggestions as to how all sides could facilitate a more constructive conversation. Building on an exploration of the development of tradition and biblical scholarship in evangelical/anglicanism during the twentieth century, the book makes the case that conflicts over sexuality are symbolic of deeper disagreements over the place of Christianity in the modern world.

Crisis of the Ottoman Empire James J. Reid, 2000 This work focuses upon the military problems of the Ottoman Empire in the era 1839 to 1878. The author examines the Crimean War 1853 to 1856 from the perspective of the Ottoman army using British and French sources as well as the few available Ottoman materials. Scholarship on the war has ignored this aspect, but the high quality of work about the British, French, and Russian involvement in the war has enabled the present study to advance its own work. The inability of the Ottoman high command to learn the lessons of the Crimean War led to serious defeats in the Russo-Turkish War of 1877-1878. Revolts occurring in this period also receive attention. While the book analyzes the nature of war in the Balkans and Anatolia, its primary objective is the study of the war's social and psychological influences. This perspective runs as a theme throughout the book, but the author focuses on the psychological aspects in the final chapter using comparative perspectives.

Two Sides of a Secret Kelly Cain, 2023-07-18 Her family history has more thorns than roses. Lauren Steele has always been grateful for her adoptive family's love and support. So much so that she takes over the family floral business when her parents retire, despite her dreams of working on political campaigns. Instead of crafting clever speeches, she spends her days writing out romantic messages on behalf of her clients, a bittersweet reminder that she's never been on the receiving end of one of these orders. She's accepted her simple life until the sexiest man she's ever met walks into her shop looking for a job. Ben Specter fixes problems for a living, and he's been hired to investigate Lauren. His client is a wealthy, powerfully connected man running for governor, and Ben's research unearthed a massive

skeleton in the man's closet a secret older sister that his mother never mentioned Getting closer to Lauren is strictly business but the more time Ben spends with her the more the lines between work and pleasure blur But when his deception is revealed will Lauren be able to trust Ben and believe that what they shared was real

Through the portal Wesley Wang,2024-11-22 Once there was only a whisper the legend of a being caught between life and death a master of shadows who bore the secrets of forgotten magic This legend was forgotten until today Reborn in iron armor and with a sword as cold as the grave a new power has arisen bound to a destiny as twisted as the dark magic that flows through his veins But the world is no longer the same Old empires have crumbled gods have fallen silent and humanity clings to survival under the shadow of cruel beasts and tyrants In a realm full of ancient terrors a lone warrior rises a fragile spark in an endless storm armed with cursed magic and an unbending will Now a path of rebellion is forged through this unforgiving world With every step secrets come to light that would have been better left buried and powers emerge that can hardly be restrained Forged anew in the fire of revenge unstoppable and implacable this new champion marches toward an uncertain destiny This world has not yet known true darkness but that will soon change Welcome to the edge of the unknown

Historical Dictionary of Yemen Charles Schmitz,Robert D. Burrowes,2017-10-25 Yemen has experienced wrenching changes that have transformed the country in yet unknown ways The country exploded in a popular revolution against the long time rule of Ali Abdallah Saleh While the country appeared to slip toward civil war Yemeni political elite rallied with international backers to put together a transitional government with a plan to revise the country's constitution The transitional government began with a cautious sense of optimism and the prospect of substantial change for the better but ended in collapse because of a failure to govern The politics of the street overran an ineffective transitional government that could not address the urgent concerns of Yemeni citizens for security and jobs Instead populist leaders exploited people's dissatisfactions and threw the country into civil war The Houthi organization

covertly allied with its former enemy Ali Abdallah Saleh to overthrow the transitional government and declare war on the rest of the country Saleh seems unable to conceive of life outside of the Presidential Palace and his Houthi allies appear to believe they are destined to rule Unfortunately those opposed to Saleh and the Houthi also seem unable to provide effective rule in spite of massive backing from the Gulf States The incompetence infighting and incoherence of the Hadi government bode equally ill for the future of the country The one hope may be that a new generation of Yemeni leaders emerges to displace the dismal failures of this one This third edition of Historical Dictionary of Yemen contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 1000 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about Yemen
