Figli Diversi:

Queer in Europe Robert Gillett, 2016-04-15 *Queer in Europe* takes stock of the intellectual and social status and treatment of queer in the New Europe of the twenty first century addressing the ways in which the Anglo American term and concept queer is adapted in different national contexts where it takes on subtly different overtones determined by local political specificities and intellectual traditions Bringing together contributions by carefully chosen experts this book explores key aspects of queer in a range of European national contexts namely Belgium Cyprus England France Germany Hungary Ireland Italy The Nordic Region The Netherlands Poland Russia and Spain Rather than prescribing a universalizing definition the book engages with a wide spectrum of what is meant by queer as each chapter negotiates the contested border between direct queer activist action based on identity categories and more plural queer strategies that call these categories into question The first volume in English devoted to the exploration of queer in Europe this book makes an important intervention in contemporary queer studies

Your visit to Blanca, a village in the famous Ricote Valley Govert Westerveld, 2015-04-06 Blanca is the ideal place for the slow movement to enjoy the charm of its landscapes and to relax and live better One cannot hurry the act of creation Maybe this is a reason that we find in this village so many painters They all need pace slowness silence to be creative and productive I came from Holland 40 years ago and hated in that country the long queues of cars the great haste of the people During my travels to many foreign countries as a result of international business I came to the conclusion that there for me are only two places to live well Haiwai and Blanca This book has been written for you in ten languages English German Dutch Italian French Swedish Russian Arabic Japanese and Chinese

Queerying Families of Origin Chiara Bertone, Maria Pallotta-Chiarolli, 2016-04-14 This book provides an original insight into how families of origin of Gay Lesbian Bisexual and Transgender GLBT people are involved in negotiating meanings and experiences of sexuality and intimacy an underexplored dimension of queer family life Delving into the perspectives of families of origin and showing the complexity and heterogeneity of the ways people with their different gender and sexual identities do families across generations it contributes to queerying the very distinction between families of origin and families of choice and questions the hetero normative assumptions about forms and boundaries of family this distinction rests upon A focus on marginal contexts such as Southern Europe and on marginal subjects like bisexuals or black lesbians is proposed as a way to challenge the universality of privileged narratives within heteronormativity homonormativity and anglocentrism and to reveal unexpected resources families of origin use to make sense of GLBT identities and lived experiences The book poses a crucial question how can alliances along family ties develop on the basis of shared stories of family diversity and marginalised identities rather than of loving and normative support to GLBT people in need and an advocacy in their name from a position of heterosexual privilege This book was originally published in *Journal of GLBT Family Studies*
