**Filipinos in Rural Hawaii** Robert N. Anderson, 2019-09-30 Filipino immigrants and their descendants who have lived in Hawai'i's plantation communities are the subjects of this thoughtful and social analysis. Here is an inside look at various facets of Filipino rural life: working conditions, courtship patterns, living patterns, living standards, celebrations, and even chicken fighting. Over the last couple of decades, the plantation towns of Hawai'i have been dying. Fewer workers are needed as land is converted to other uses and as labor-efficient production techniques are developed. The displacement of people whose lives have been centered on the functional apparatus of the plantations is particularly distressing. As Hawai'i copes with the human problems, it is important to understand the history, social behavior, and values of Filipino plantation workers, some of whom now face substantial hardship. The author and his co-researchers studied three plantation towns in depth and examined in varying detail the lives of Filipino plantation residents on the islands of Kaua'i, O'ahu, Molokai, and Hawai'i. In the course of collecting data, they taped and transcribed a number of conversations, some of which are included here. These voices add a lively counterpoint to the data and discussion. As time and events overcome the caretakers of the ethnic cultures of Hawai'i's plantations, the rural lifestyles of these communities may be forgotten. Books such as this will help to preserve their flavor and texture. Social scientists, scholars, and students of ethnic studies, community leaders, and even the people described herein will find this a useful and informative study.

**Building Filipino Hawai'i** Roderick N. Labrador, 2015-01-15 Drawing on ten years of interviews and ethnographic and archival research, Roderick Labrador delves into the ways Filipinos in Hawai'i have balanced their pursuit of upward mobility and mainstream acceptance with a desire to keep their Filipino identity. In particular, Labrador speaks to the processes of identity making and the politics of representation among immigrant communities striving to resist marginalization in a globalized transnational era. Critiquing the popular image of Hawai'i as a post-racial paradise, he reveals how Filipino immigrants talk about their relationships to the places they left and the places where they've settled and how these discourses shape their identities. He also shows how the struggle for community empowerment, identity territorialization, and the process of placing and boundary making continue to affect how minority groups construct the stories they tell about themselves to themselves and others.

Beechert,1985-01-01 This comprehensive overview of Hawaiian history focuses on the common laborer s working conditions and quality of life In *Working in Hawaii* Edward D Beechert traced an evolution in the economic environment that progressed from the ancient Hawaiian communal society based on subsistence agriculture to the complex capitalistic economy of the present The book concentrates on the last 200 years when the most rapid and profound changes in the working environment occurred The Europeans and the Americans brought with them tools weapons diseases alcohol religion and money the trappings of an antithetical culture that was to change Hawaii forever Rich land good weather an abundant labor force and an exclusive American market appealed to enterprising investors To support their ambitions to turn a Hawaiian society based on a subsistence economy into a Western industrial one based on plantation agriculture entrepreneurs introduced the concept of private property They supported it with a Western legal system Foreign labor was imported from Asia when the dwindling Hawaiian population could no longer meet the plantations growing need for a constant supply of cheap labor Beechert maintains that the workers far from being victims of this economic transition took advantage of the growing employment opportunities and made significant contributions to the development of the Hawaiian economy notably the sugar industry As the Island economy progressed the laborers confronted conditions unlike those of agricultural workers elsewhere They worked under three distinct forms of government that served a monarchy a republic and a colonial territory Their status ranged from that of indentured penal contract laborers to that of free wage laborers protected by the U S Constitution The struggle for dignity as important to the workers as the battle for decent wages and working conditions was long and discouraging but ultimately successful to a degree unmatched in the sugar producing world To put the history of labor in the

Hawaiian islands in an expanded historical perspective the author discusses a record of labor legislation law enforcement and public policy concerning labor as well as details on how workers organized and formed modern unions By consulting a wide range of documentary sources including plantation records business memoranda union files legislation labor contracts court documents newspaper items and public speeches Beechert has made this the most complete history of labor in Hawaii to date Scholars and students of labor history sociological change and Hawaiiana should also appreciate the extensive bibliography Dust jacket
