Poet Lore, 1922 *Magical Transformations on the Early Modern English Stage* Lisa Hopkins, Helen Ostovich, 2016-05-13 *Magical Transformations on the Early Modern Stage* furthers the debate about the cultural work performed by representations of magic on the early modern English stage It considers the ways in which performances of magic reflect and feed into a sense of national identity both in the form of magic contests and in its recurrent linkage to national defence the extent to which magic can trope other concerns and what these might be and how magic is staged and what the representational strategies and techniques might mean The essays range widely over both canonical plays Macbeth The Tempest The Winter s Tale The Merry Wives of Windsor Doctor Faustus Bartholomew Fair and notably less canonical ones such as The Birth of Merlin Fedele and Fortunio The Merry Devil of Edmonton The Devil is an Ass The Late Lancashire Witches and The Witch of Edmonton putting the two groups into dialogue with each other and also exploring ways in which they can be profitably related to contemporary cases or accusations of witchcraft Attending to the representational strategies and self conscious intertextuality of the plays as well as to their treatment of their subject matter the essays reveal the plays they discuss as actively intervening in contemporary debates about witchcraft and magic in ways which themselves effect transformation rather than simply discussing it At the heart of all the essays lies an interest in the transformative power of magic but collectively they show that the idea of transformation applies not only to the objects or even to the subjects of magic but that the plays themselves can be seen as working to bring about change in the ways that they challenge contemporary assumptions and stereotypes

The Dynasty Years
Jostein Gripsrud, 2003-09-02. *The Dynasty Years* documents and analyses in detail the Dynasty phenomenon, the hotly debated success of the Hollywood-made *Rolls Royce* of a primetime soap which heralded a profound transformation of European television. From the operatic camp of Krystle and Alexis' fight in the lilypond or the Moldavian wedding massacre to the unprecedented gay sub-plot, *Dynasty* represented in the words of co-producer Esther Shapiro the ultimate dollhouse fantasy for middle-aged women. Using evidence from audience survey results, newspaper and magazine clippings, and letters to broadcasters, and drawing on semiotics, psychoanalysis, feminism, and critical social theories, Jostein Gripsrud examines every aspect of *Dynasty*'s production, reception, and context. The result is a groundbreaking critical study. Jostein Gripsrud offers a theoretical but empirically grounded critique of many central positions in media studies, including notions of audience resistance and the sovereign audience and its freedom in meaning-making, arguing against what he perceives as the uncritical celebrations of the soap opera genre in much contemporary media criticism.

Brecht and Tragedy
Martin Revermann, 2021-12-16. This wide-ranging, detailed, and engaging study of Brecht's complex relationship with Greek tragedy and tragic tradition argues that this is fundamental for understanding his radicalism. Featuring an extensive discussion of *The Antigone* of Sophocles (1948) and further related works, the *Antigone* model book and the *Small Organon for the Theatre*, this monograph includes the first-ever publication of the complete set of colour photographs taken by Ruth Berlau. This is complemented by comparative explorations of many of Brecht's own plays as his experiments with tragedy conceptualized as the big form. The significance for Brecht of the Greek tragic tradition is positioned in relation to other formative influences on his work: Asian theatre, Naturalism, comedy, Schiller, and Shakespeare. Brecht emerges as a theatre artist of enormous range and creativity who has succeeded in re-shaping and re-energizing tragedy and has carved paths for its continued artistic and political relevance.
