Gender And Later Life A Sociological Analysis Of Resources And Constraints:

Gender and Later Life Sara Arber, Jay Ginn, 1991-01 Of the research conducted on about and for women little has focused on gender among elderly people Is there a quality of life difference between elderly women and men Does ageism affect older women more than their male counterparts How can elderly women empower themselves to change inadequate living conditions Considering these and other questions Gender and Later Life examines how gender and class influence the well being of people in later life and considers if these factors are more relevant than chronological age The authors use a political economy perspective to integrate research on aging and gender and to provide a better understanding of gender differences in later life Essential reading for those with interests in women s studies social gerontology medical sociology and social policy The use of the political economic framework provides an enlightening provocative foundation for understanding the issues of gender and aging The insights provided into the life span dynamics of later life dependency are convincingly presented The realistic conclusion derived from reading this very important book is that we can do little to respond to the issues of gender and aging until we have resolved gender class and racial inequities occurring across the life span However until such resolution occurs we must continue to seek ways to respond to the material health and caring resource limitations of aging women The conclusions of the book provide important insights that need to be understood by professionals and lay people of all backgrounds Although academic in nature the insights presented have value for all those concerned about quality of life for women across the life span The book is highly recommended for use in graduate courses related to public policy gender or aging studies Journal of Women and Aging This is a complex but concise and well organized book an important contribution to the development of productive links between sociology and gerontology Sociology This book has with facts and figures shaken me up and opened my eyes so I could see the connections in the jigsaw of oppression Highly readable clear and challenging I recommend it as essential reading for all those in the struggle for equality of opportunity for all Radical Statistics Newsletter The book has many virtues I hope that Gender and Later Life will be widely read by those who are already involved in social and health services as well as by those who are on the threshold of their working lives and want to contribute in their careers to measures designed to produce greater social equity Journal of the British Society of Gerontology Arber and Ginn have produced an extremely valuable contribution to the literature on social gerontology They have outlined a powerful new synthesis a feminist political economy perspective on old age that will advance our understanding of life for a significant section of our population Journal of Biosocial Science Routledge Library Editions: British Sociological Association Various, 2021-07-14 The volumes in this set originally published between 1969 and 2001 is comprised of original books published in conjunction with the British Sociological Association The set draws together original research by leading academics based on study groups and conference papers in the areas of youth race the sociology of work gender social research urban studies class deviance and social control law development and health Each volume provides a

rigorous examination of related key issues This set will be of particular interest to students and academics in the field of sociology health and social care gender studies and criminology respectively

The Palgrave Handbook of the Psychology of Sexuality and Gender Christina Richards, Meg-John Barker, 2015-04-28 The Palgrave Handbook of the Psychology of Sexuality and Gender combines cutting edge research to provide a thorough overview of all the normative and many of the less common sexualities genders and relationship forms alongside psychological and intersectional areas relating to sexuality and gender

Gender Transformations Sylvia Walby, 2003-09-02 The answer of course is both In this lucid and subtle investigation Sylvia Walby one of the world's leading authorities on gender shows how undoubted increases in opportunity for women in Europe and America have been accompanied by new forms of inequality She charts changes in women's employment education and political representation and the complex relations between gender class and ethnicity between local conditions and global pressures which together determine the place of women both in the labour market and in the wider social political and economic world of today An eagerly awaited successor to Walby's classic *Theorising Patriarchy* *Transforming Gender* will be essential reading for anyone with an interest in how questions of gender remake and are remade by the social and economic conditions in which they occur

The Social Context Of Health Hardey , Michael, 1998-07-01 In what way is health related to our sense of self identity How do we make decisions about our health in an age of uncertainty Which developments in medical knowledge and the delivery of care change our ideas about health The central theme running through this book is the essentially social nature of health This embraces the way medical knowledge emerged out of a specific set of historical and intellectual circumstances and the shaping of the health professions by the cultural and political milieu of the nineteenth century Like non expert knowledge the development and application of expert knowledge in health is embedded in social processes In this accessible text the complex relationships between inequality race gender and other social divisions are examined and related to changes in health care Problems central to the delivery of health care are highlighted and linked to challenges to established health care professions and systems Michael Hardey shows the way in which health has become part of our identity and relates this to the increasing range of health advice and the constant choices available in terms of our health and lifestyles

Gender, Family and Society Faith Robertson Elliot, 1995-12-18 Contemporary struggles over the ordering of sexual and parental relationships take place in the context of mass unemployment ethnic antagonism population ageing a growing awareness of the pervasiveness of violence and sexual abuse in intimate relationships and the eruption of AIDS as a major health crisis *Gender Family and Society* seeks to provide a sociological understanding of the way in which these key aspects of contemporary social life shape and are shaped by gender and family structures

Routledge Handbook of Cultural Gerontology Julia Twigg, Wendy Martin, 2015-06-12 Later years are changing under the impact of demographic social and cultural shifts No longer confined to the sphere of social welfare they are now studied within a wider cultural framework that encompasses new experiences and new modes of

being Drawing on influences from the arts and humanities and deploying diverse methodologies visual literary spatial and theoretical perspectives Cultural Gerontology has brought new aspects of later life into view This major new publication draws together these currents including Theory and Methods Embodiment Identities and Social Relationships Consumption and Leisure and Time and Space Based on specially commissioned chapters by leading international authors the Routledge Handbook of Cultural Gerontology will provide concise authoritative reviews of the key debates and themes shaping this exciting new field

Gender Inequalities, Households and the Production of Well-Being in Modern Europe Tindara Addabbo,Marie-Pierre Arrizabalaga,Alastair Owens,2016-04-22 Feminist scholars have long pointed out the relevance of the unpaid work that goes on within European households in sustaining the well being of the continent s populations However care work and domestic labour continue to be largely unremunerated and unequally distributed by gender This unique volume of interdisciplinary essays casts new light on the roles that households play in securing the well being of individuals and families uncovering the processes of bargaining and accommodation and conflict and compromise that underpin them Contributors put gender at the centre of their analyses demonstrating the uneven experiences of men and women as both providers and receivers of welfare in European households in both the past and the present As European states grapple with changing family forms a growing population of dependent people increased participation of women in labour markets and a profound shift in the nature and organisation of work this book makes a timely contribution to our understanding of the critical role played by households in mediating processes of economic and social change It offers new challenges to scholars researchers and policy makers eager to address gender inequalities and enhance well being This book is the second of four volumes being published as part of Ashgate s Gender and Well Being series that arise from a programme of international symposia funded by the European Science Foundation under the auspices of COST European Cooperation in the field of Scientific and Technical Research

Intersections of Ageing,

Gender and Sexualities Andrew King, Kathryn Almack, Rebecca L. Jones, 2020-09-16 Available Open Access under CC BY NC licence With an increasingly diverse ageing population we need to expand our understanding of how social divisions intersect to affect outcomes in later life This edited collection examines ageing gender and sexualities from multidisciplinary and geographically diverse perspectives and looks at how these factors combine with other social divisions to affect experiences of ageing It draws on theory and empirical data to provide both conceptual knowledge and clear real world illustrations The book includes section introductions to guide the reader through the debates and ideas and a glossary offering clear definitions of key terms and concepts The Evolution of British Gerontology Miriam Bernard, Mo Ray, Jackie

Reynolds, 2020-04-01 Half a century of UK gerontology research theory policy and practice are under the spotlight in this landmark critical review of the subject that places the country's achievements in an international context Drawing on the archives of the British Society of Gerontology and interviews with dozens of the most influential figures in the field it provides a comprehensive picture of key developments and issues and looks to the future to plot new directions in thinking This is the story of the remarkable progress of gerontology told through the eyes of those who have led it *Growing Old in Cameroon* Charles Che Fonchingong, 2013-12-11 For the governments of many developing African nations providing income security for the older population is difficult particularly in Cameroon This book uncovers the complex problem of pension deficits and difficulties providing welfare and other forms of social assistance A vast majority of older people in Cameroon remain unassisted and battling to survive with increasingly fragmented family and community oriented forms of support As the older population increases fundamental concerns remain Is care provided only by family members sustainable How does gender factor into this situation and who bears the brunt of these problems Borrowing from social capital theory this book discusses how older people struggle to find new forms of social protection This book articulates the view that older people display remarkable courage resilience and coping strategies which make them not a burden to society but rather key players in the development process It proposes achievable policy options that can make a difference in the lives of Cameroon's older citizens **Dementia and Social Inclusion** Anthea Innes, Carole Archibald, Charlie Murphy, 2004 Examining important

issues in dementia research and care that are often neglected the contributors to this book provide fresh perspectives on current practice The authors put dementia care into a socio cultural framework highlighting the impact of social change on dementia care over the last two decades and challenging current stereotypes **Women and Ageing** Margaret O'Neill, Michaela Schrage-Früh, 2020-12-17 This edited collection considers the ways older women's life narratives redefine culturally imposed conceptions of what it means to grow older Drawing on research from age studies as well as social and cultural gerontology the contributors explore the subjective accounts and diverse voices of older women In doing so they examine the tensions between older women's social identities versus their individual narratives In their chapters the contributors acknowledge explore and contextualise women's experiences of growing older thus counterbalancing the often

one sided negative representations of ageing perpetuated by dominant cultural discourse They focus on diverse forms of life writing including memoirs and auto biography digital and visual forms of life narrative as well as autoethnographic accounts As the chapters in this collection demonstrate life writing by and about older women often necessitates opening out literary forms and modes of critique searching for narrative and performative strategies and creating spaces in which to inscribe subjective experiences Relationships intergenerational connections and visual and material cues are often integral to these analyses which assert the richness of older women s life narratives The chapters in this book were originally published as a special issue of *Life Writing* *Family* David Cheal,2003 This international collection features the most influential scholarship published during the past few decades on the concept of the family and related issues An invaluable resource for students and researchers alike the four volumes cover the following themes Vol 1 Family Groups Vol 2 Family and Gender Issues Vol 3 Family Ties Vol 4 Family and Society The scope offers an international range of material and includes key work from the USA Europe Canada Australia and Asia **The Cambridge Handbook of Age and Ageing** Malcolm L. Johnson,Vern L. Bengtson,Peter G. Coleman,Thomas B. L. Kirkwood,2005-12-01 The Cambridge Handbook of Age and Ageing first published in 2005 is a guide to the body of knowledge theory policy and practice relevant to age researchers and gerontologists around the world It contains almost 80 original chapters commissioned and written by the world s leading gerontologists from 16 countries and 5 continents The broad focus of the book is on the behavioural and social sciences but it also includes important contributions from the biological and medical sciences It provides comprehensive accessible and authoritative accounts of all the key topics in the field ranging from theories of ageing to demography physical aspects of ageing mental processes and ageing nursing and health care for older people the social context of ageing cross cultural perspectives relationships quality of life gender and financial and policy provision This handbook will be a must have resource for all researchers students and professionals with an interest in age and ageing *Gender, Culture and Organizational Change* Catherine Itzen,Janet Newman,2003-09-02 An engaging contribution to the increasing body of knowledge about gender and organizations *Gender Culture and Organizational Change* examines gender based inequality in organizations and considers how sexual and social relations between women and men based on sexuality power and control determine the cultures structures and practices of organization and the experiences of men and women working in them *Gender Culture and Organizational Change* represents a decade of experience of managing change and implementing theory in public sector organizations during a period of major social political and economic transition and analyses the progress that has been made It expands to make wider connections with women and trade unions in Europe and management development for women in the developing countries of Africa and Asia It will be valuable reading for students in social policy gender studies and sociology and for professionals with an interest in understanding the dynamics of the workplace *Locating Health* Stephen Platt,Hilary Thomas,Sue Scott,Gareth Williams,2018-05-11 Originally presented as papers in the 1991 British

Sociological Association Conference on Health and Society Locating Health represents a valuable addition to the health inequalities debate by extending our gaze beyond the traditional locations to include place consumption and lifestyle It offers reconceptualization of key theoretical terms including work income and public private domains as well as addressing the reciprocal influence of health and social location for example early retirement and highlighting the health consequences of multiple locations such as gender and class gender and age *Health and Social Organization* David Blane, Eric Brunner, Richard Wilkinson, 2002-09-11 Eminent international authors medical and social scientists Addresses topical areas of political debate on health welfare and the NHS Inter disciplinary approach with evidence from Europe and North America Stresses the pressing need for greater investments to combat low educational standards and high unemployment which cause poor health
