Gender And The Political Economy Of Development:

Gender and the Political Economy of Development Shirin M. Rai, 2002-02-01 Rai subjects the projects of both national development and globalization to searching scrutiny through a gender lens Her emphasis on the intersection of gender and other forms of inequality is very timely An excellent text for a wide range of courses in politics sociology and development studies Diane Elson University of Essex Shirin Rai pushes us to rethink development She brings us to ear a feminist analysis that grows out of her nuanced understanding of both China s and India s gendered experience Readers will find fresh ideas and sharp caveats about how patriarchy is sustained and fought over globally Cynthia Enloe Clark University This important book ranges across contemporary debates in the study of gender and political economy It situates differing gender based theories in the context of wider political and historical processes such as colonialism post colonialism Cold War politics the New World Order globalization and democratization Shirin Rai focuses on the gendered nature of the political economy of development and the shifts that have occurred as economies and states have moved from a development process that is state focused to one that is clearly framed by globalization Differences between men and women and differences between women in contrasting social and geographical positions are explored in relation to their influence on political practice Rai considers how the structures of economic and political power frame men and women and examines the consequences of these gendered positionings She makes important connections between the political narratives of different levels of governance and examines the discourse of empowerment at these different levels The book concludes by reflecting on the way men and women are coping with the challenges of globalization and argues that women s movements need to re establish the link between the recognition of difference and the redistribution of economic and social resources if they are to maintain their radical edge This will be essential reading for undergraduates and graduates in politics development studies and gender studies

The Gender Politics of Development Shirin M. Rai, 2013-07-04 In **The Gender Politics of Development** Shirin Rai provides a comprehensive assessment of how gender politics has emerged and developed in post colonial states In chapters on key issues of nationalism and nation building the third wave of democratization and globalization and governance Rai argues that the gendered way in which nationalist statebuilding occurred created deep fissures and pressures for development She goes on to show how women have engaged with institutions of governance in developing countries looking in particular at political participation deliberative democracy representation leadership and state feminism Through this engagement Rai claims vital new political spaces have been created Though Rai focuses in depth on how these debates have played out in India the book s argument is highly relevant for politics across the developing world This is a unique and compelling synthesis of gender politics with ideas about development from an authoritative figure in the field

The Palgrave Handbook of Contemporary

International Political Economy Timothy M. Shaw, Laura C. Mahrenbach, Renu Modi, Xu Yi-chong, 2018-12-19 Published 35 years after Palgrave Macmillan's landmark International Political Economy IPE series was first founded this Handbook captures the state of the art of contemporary IPE. It draws on the series history of focusing on the oft neglected study of the global South. Providing interdisciplinary perspectives from scholars hailing from the global North and South the Handbook illustrates the theoretical innovations and empirical richness necessary to explain today's ever changing world. This is a world in which the global South and North are not only being transformed by the end of bipolarity and the rise of the BRICS but also by diverse global crises and growing cross border challenges. It is a world where human development governance and security are becoming ever more elusive where profoundly altered by the rise of new technologies the structure of relations between nations itself is changing becoming increasingly interconnected both digitally and physically. Understanding these issues is of critical importance to better anticipate current and future global transformations. This Handbook is the ideal primer for all scholars practitioners and policy makers looking to do so.

Gender and the Political Economy of Conflict in Africa Meredith Turshen, 2016-01-29 Violence affects the economy of production and the ecology of reproduction the production of economic goods and services and the generational reproduction of workers the regeneration of the capacity to work and maintenance of workers on a daily basis and the renewal of culture and society through community relations and the education of children. *Gender and the Political Economy of Conflict in Africa* explores the persistence of violence in conflict zones in Africa using a political economy framework. This framework employs an analysis of violence on both edges of the spectrum a macro economic analysis of violence against workers and a micro political analysis of the violence in women's reproductive lives. These analyses come together to create a new explanation of why violence persists a new political economy of violence against women and a new theoretical understanding of the relation between production and reproduction. Three case studies are discussed the Democratic Republic of the Congo violence in an era of conflict Sierra Leone violence post conflict and Tanzania which has not seen armed conflict on the mainland. This book fills a significant gap on the political economy of war and women gender for advanced undergraduate and postgraduate students as well as researchers in African Studies Gender Studies and Peace and Conflict Studies.

Creating Spaces of Engagement Leah R.E. Levac, Sarah Marie Wiebe, 2020-11-22 Policy justice requires engagement of diverse people knowledges and forms of evidence at all stages of the policy making process from problem definition through to dissemination.

The Political Economy of Gender in the Twentieth-Century Caribbean V. Barriteau, 2001-05-18 Eudine Barriteau exposes the precarious position of women in twentieth century Caribbean societies through analyzing the operations of gender systems. She reveals the absence of gender justice and equity and demonstrates that after twenty five years of policies on women Caribbean societies still have not confronted the fundamental problem of women's subordination and the conditions that maintain this. The strategies used by developing states to focus on women are criticised as inadequate and it is recommended that state

and society pay more attention to understanding the lives of women
