Gender And Literature A Systems Study:

Gender and Literature Piotr Sadowski, 2001-09-28 Gender and Literature A Systems Study addresses the notion of gender as a social construct and presents evolutionary reasons for human psycho behavioral differentiation along the lines of sexual dimorphism of the reproductive and the related functions which produce the main genders of femininity and masculinity corresponding roughly with the functions of procreation and competition respectively These two gender oriented poles of human behavior are intermingled in the individual mind to produce a mixture of gender traits that underlie personality and behavior A statistical model of the overlap of the masculine and feminine traits generates eight specific gender types the feminine woman the womanly woman the womanly man the androgynous man the androgynous woman the manly man the manly woman and the masculine man Characteristics of each type are offered together with examples from a wide range of literary texts *Cities and Gender* Helen Jarvis, Jonathan Cloke, Paula Kantor, 2009-06-02 Men and women

experience the city differently in a myriad of ways An analysis of urban and gender studies as co constitutive subjects is long overdue This book is a systematic treatment of urban and gender studies combined It presents both a feminist critique of mainstream urban policy and planning plus a gendered reorientation of key urban social environmental and city regional debates

Literary Celebrity, Gender, and Victorian Authorship, 1850-1914 Alexis Easley, 2011-04-29 This study examines literary celebrity in Britain from 1850 to 1914 Through lively analysis of rare cultural materials Easley demonstrates the crucial role of the celebrity author in the formation of British national identity As Victorians toured the homes and haunts of famous writers they developed a sense of shared national heritage At the same time by reading sensational accounts of writers lives they were able to reconsider conventional gender roles and domestic arrangements As women were featured in interviews and profiles they were increasingly associated with the ephemerality of the popular press and were often excluded from emerging narratives of British literary history which defined great literature as having a timeless appeal Nevertheless women writers were able to capitalize on celebrity media as a way of furthering their own careers and retelling history on their own terms Press attention had a more positive effect on men s literary careers since they were expected to assume public identities however in some cases media exposure had the effect of sensationalizing their lives bodies and careers With the development of proto feminist criticism and historiography the life stories of male writers were increasingly used to expose unhealthy domestic relationships and imagine ideal forms of British masculinity The first section of *Literary Celebrity* explores the practice of literary tourism in Victorian Britain focusing specifically on the homes and haunts of Charles Dickens Christina Rossetti George Eliot Elizabeth Barrett Browning and Harriet Martineau This investigation incorporates analysis of fascinating cultural texts including maps periodicals and tourist guidebooks Easley links the practice of literary tourism to a variety of cultural developments including nationalism urbanization spiritualism the women s movement and the expansion of popular print culture The second section provides fresh insight into the ways that celebrity culture informed the development of Victorian historiography Easley demonstrates how women were able to re tell history from a proto feminist perspective by writing contemporary history participating in architectural reform movements and becoming active in literary society

Developing Gender-specific Classification Systems for Women Offenders Patricia L. Hardyman, 2004 **Gender and Tourism Sustainability** Claudia Eger, Ana María Munar, Cathy H.C. Hsu, 2023-03-21 This book examines the relationship between gender and sustainability in tourism Whilst an extensive body of work exists in the areas of gender and sustainability these two fields of knowledge are seldom combined to examine tourism phenomena When we look at the evolution of tourism we see that sustainability has become an essential element in educational programmes policy making and strategic considerations for organisations and destinations Whilst the beginnings of tourism sustainability were challenging presently its relevance is seldom questioned However this situation is not the case with gender research

Although gender theorising and research have existed for over a century and a rich legacy of knowledge exists on this topic meaningful and respectful engagement with this line of scholarship is thus far peripheral in tourism studies The aim of this book is to reflect on and rethink the intersection of gender and tourism sustainability through the lens of gender theory and feminist epistemology to stay with the trouble and devise pathways for sustainability gender knowledge This book will be of great interest to students researchers and academics in tourism gender and sustainability as well as tourism management The chapters in this book were originally published as a special issue of the Journal of Sustainable Tourism
