Germany where the movement was made up of scattered groups and did not centre on charismatic leaders as it did elsewhere Ideas were spread more often by word of mouth than by print and many Anabaptists had uneven attachment to the movement recanting and then relapsing Historiography has neglected Anabaptism in this area since it had no famous leaders and does not seem to have been numerically strong Baptism Brotherhood and Belief challenges these assumptions revealing how Anabaptism's development in central Germany was fundamentally influenced by its interaction with Lutheran theology In doing so it sets a new agenda for understandings of Anabaptism in central Germany as ordinary individuals created new forms of piety which mingled ideas about brotherhood baptism the Eucharist and gender and sex Anabaptism in this region was not an isolated sect but an important part of the confessional landscape of the Saxon lands and continued to shape Lutheran pastoral affairs long after scholarship assumed it had declined The choices these Anabaptist men and women made sat on a spectrum of solutions to religious concerns raised by the Reformation Understanding their decisions therefore provides new insights into how religious identities were formed in the Reformation era
