**Sourcebook of Criminal Justice Statistics**, 1996 *Frames Of Justice* Leroy H. Pelton, This work is devoted to analyzing three major frames of justice group justice individual desert and life affirmation and their implications for social policy as well as their reflections in contemporary social policies Pelton finds that all three frames of justice are reflected in the Bible and later the Koran He contends that there is no evidence in the Bible of a genesis or development from one frame of justice to another Rather a sense of justice has existed in the human mind from time immemorial with the three frames coexisting and manifesting themselves in both inter and intra group relations The prominence of one frame over another at any particular point in history or in a particular geographical location is influenced by a variety of factors though it is ultimately open to human choice Pelton compares and contrasts the philosophies of nonviolence and liberalism in regard to the frames and explores the relationships between principle sentiment reason justice and policy He discusses social science's problematic relationship to justice in policymaking for instance how scholars have focused more on the effectiveness of policies largely in terms of statistical outcomes reflecting aggregate data analyses than on their justice He goes on to explore in depth how frames of justice give direction to social policies including those of genocide *Frames of Justice* is an outstanding work that analyzes the question of justice and social policy while simultaneously exploring the notion of desert in religion philosophy and legislation especially within the context of the moral question of the relationship between means and ends and contrasting it with the principle of life affirmation Leroy H Pelton is a professor in and former director of the School of Social Work University of Nevada Las Vegas and professor emeritus of the School of Social Work Salem State College Massachusetts He is the author of *The Psychology of Nonviolence* *For Reasons of Poverty A Critical Analysis of the Public Child Welfare System in the United States* and *Doing Justice Liberalism Group Constructs and Individual Realities* and the editor of *The Social Context of Child Abuse and Neglect* He has also written numerous journal articles on psychology social work child welfare and social policy

**Christian America?** Christian Smith, 2000-04-13 In recent decades Protestant evangelicalism has become a conspicuous and to many Americans worrisome part of this country's cultural and political landscape But just how unified is the supposed constituency of the Christian Coalition And who exactly are the people the Christian Right claims to represent In the most extensive study of American evangelicals ever conducted Christian Smith explores the beliefs values commitments and goals of the ordinary men and women who make up this often misunderstood religious group The result is a much needed contribution to the discussion of issues surrounding fundamental American freedoms and the basic identity of the United States as a pluralistic nation Based on data from a three year national study including more than 200 in depth interviews of evangelicals around the country Christian America assesses the common stereotype of evangelicals as intolerant right wing religious zealots seeking to impose a Christian moral order through political force What Smith finds instead are people vastly more diverse and ambivalent than this stereotype suggests On issues such as religion in education family values Christian political activism and tolerance of other religions and moralities evangelicals are highly disparate and conflicted As the voices of interviewees make clear the labels conservative and liberal are too simplistic for understanding their approaches to public life and political action □□□□□ ,2009
