Marcus Joseph Wright,1893 Memoirs of Lieut.-General Scott, LL. D Scott Winfield Scott,2009-10-15 *Letter from*
Major-General Scott to the Secretary of War. Extract [on the finances and condition of the United States Army]. Winfield
SCOTT (General.),1849 *General Scott* Marcus Wright,2016-12-10 General Grant in mentioning General Scott s Mexican
campaign says Both the strategy and tactics displayed by General Scott in the various engagements of August 20 1847 were
faultless as I look upon them now after the lapse of so many years And further General Scott enjoys the rare distinction of
having held high and successful command in two wars which were a full generation apart In 1847 he commanded in Mexico
the sons of those officers who aided in his brilliantly successful campaign against the British on the borders of Canada in
1814 Daniel Webster in a speech delivered in the United States Senate February 20 1848 said I understand sir that there is a
report from General Scott a man who has performed the most brilliant campaign on recent military record a man who has
warred against the enemy warred against the climate warred against a thousand unpropitious circumstances and has carried
the flag of his country to the capital of the enemy honorably proudly humanely to his own permanent honor and the great
military credit of his country And where is he At Pueblo at Pueblo undergoing an inquiry before his inferiors in rank and
other persons without military rank while the high powers he has exercised and executed with so much distinction are
transferred to another I do not say to one unworthy of them but to one inferior in rank station and experience to himself No
more fitting close to this sketch of his life can be given than to quote the words of his friend General Wilson He has
bequeathed to his country a name pure and unspotted a name than which the republic has few indeed that shine with a
brighter luster and a name that will go down to future generations with those of the greatest captains of the nineteenth

Memoirs of Lieut-General Scott Winfield Scott,2008-11 PREFACE

THE Author of this very practical treatise on Scotch Loch Fishing desires clearly that it may be of use to all who had it He does not pretend to have written anything new but to have attempted to put what he has to say in as readable a form as possible Everything in the way of the history and habits of fish has been studiously avoided and technicalities have been used as sparingly as possible The writing of this book has afforded him pleasure in his leisure moments and that pleasure would be much increased if he knew that the perusal of it would create any bond of sympathy between himself and the angling community in general This section is interleaved with blank sheets for the readers notes The Author need hardly say that any suggestions addressed to the case of the publishers will meet with consideration in a future edition We do not pretend to write or enlarge upon a new subject Much has been said and written and well said and written too on the art of fishing but loch fishing has been rather looked upon as a second rate performance and to dispel this idea is one of the objects for which this present treatise has been written Far be it from us to say anything against fishing lawfully practised in any form but many pent up in our large towns will bear us out when we say that on the whole a days loch fishing is the most convenient One great matter is that the loch fisher is dependent on nothing but enough wind to curl the water and on a large loch it is very seldom that a dead calm prevails all day and can make his arrangements for a day weeks beforehand whereas the stream fisher is dependent for a good take on the state of the water and however pleasant and easy it may be for one living near the banks of a good trout stream or river it is quite another matter to arrange for a days river fishing if one is looking forward to a holiday at a date some weeks ahead Providence may favour the expectant angler with a good day and the water in order but experience has taught most of us that the good days are in the minority and that as is the case with our rapid running streams such as many of our northern streams are the water is either too large or too small unless as previously remarked you live near at hand and can catch it at its best A common belief in regard to loch fishing is that the tyro and the experienced angler have nearly the same chance in fishing the one from the stern and the other from the bow of the same boat Of all the absurd beliefs as to loch fishing this is one of the most absurd Try it Give the tyro either end of the boat he likes give him a cast of ally flies he may fancy or even a cast similar to those which a crack may be using and if he catches one for every three the other has he may consider himself very lucky Of course there are lochs where the fish are not abundant and a beginner may come across as many as an older fisher but we speak of lochs where there are fish to be caught and where each has a fair chance Again it is said that the boatman has as much to do with catching trout in a loch as the angler Well we dont deny that In an untried loch it is necessary to have the guidance of a good boatman but the same argument holds good as to stream fishing
